From the President

Welcome to Dabney S. Lancaster Community College!

Our faculty and staff are dedicated to providing you with the best educational programs and services possible. We who work at DSLCC are proud of the role we play and are gratified by your continued confidence in us. Our goal is to provide our students with quality educational opportunities in a supportive learning environment.

From courses that afford students the opportunity to transfer to four-year colleges, to programs designed to meet job-related education, training and workforce skills to non-credit courses focused on personal growth, DSLCC offers many options which can change lives.

This catalog provides information about DSLCC and its educational programs, policies, procedures and services. I encourage you to visit our beautiful campus, meet with our faculty and staff and learn about the many educational opportunities open to you.

Please accept my personal best wishes for your every success as you pursue your educational goals.

Richard R. Teaff, Ph.D.
President

General Information

General Information

The College

Dabney S. Lancaster Community College is a two-year public institution of higher education which is a member of the statewide Virginia Community College System. The College is supported by the Commonwealth of Virginia and the citizens of the counties of Alleghany, Bath, Botetourt (northern portion) and Rockbridge as well as the cities of Buena Vista, Covington and Lexington and the town of Clifton Forge, but welcomes students from other areas as well.

DSLCC operates under the policies of the State Board for Community Colleges and the Dabney S. Lancaster Community College Board. The College is financed primarily by state funds and supported by contributions from the service area counties and cities, the federal government, businesses, individuals and student tuition.

Location and Facilities

DSLCC's main campus is located one mile west of downtown Clifton Forge on a 117 acre tract bounded by the Jackson River on three sides. Backels and Warren Halls contain offices, classrooms and science laboratories. The Moomaw Center houses the college center for student and community activities, food services and a bookstore. The Center for Continuing Education and Workforce Services is adjacent to the Moomaw Center and has classrooms, computer technical laboratories and staff offices. Scott Hall contains laboratories, classrooms and the Learning Resources Center. The Gary Lee Miller Armory/Hale Collins Convocation Center is a joint-use facility for the Virginia National Guard and DSLCC. It contains a gymnasium, classrooms, offices and storage space.

The DSLCC Rockbridge Regional Center is located in the College Square Shopping Center in Rockbridge County. It houses offices, a general use classroom, a computer laboratory and a classroom connected by interactive television to the main campus.

History

In September 1964, students were admitted for the first time to the Clifton Forge-Covington Division of the Virginia Polytechnic Institute. In the first two years, this branch college offered programs available at the parent institution as well as a certificate program in secretarial science. Later in 1965, a pre-college foundation program was added. This was expanded into the general community college program in 1966.

Beginning with the summer quarter in 1967, all programs of this community college came under the control of the Virginia State Board for Community Colleges. The College itself was renamed Dabney S. Lancaster Community College, honoring the prominent Virginia educator and longtime resident of the area served by the College.

Dr. Dabney S. Lancaster began his career as Associate Master of the Chamberlayne School for Boys (now St. Christopher's) in Richmond. He was a professor of Agricultural Education at Virginia Polytechnic Institute and became Dean of Men at the University of Alabama in 1923. He served as the Virginia State Superintendent of Public Instruction in 1941 and became President of Longwood College in 1946. He became the chair of the State Council of Higher Education for Virginia in 1955. He retired to Bath County where he served on the Bath County School Board. Over his lifetime he served on the boards of Madison College (now James Madison University), Sweet Briar College, Virginia Theological Seminary and Episcopal High School.

DSLCC Mission Statement

DSLCC provides an opportunity for the extension of knowledge, skills, and personal enrichment in a forum that maintains high academic standards, is financially and geographically accessible, and respects each student's rights and responsibilities.

The College offers programs at the associate degree level as well as a full complement of credit and noncredit courses and resources tailored to the lifelong learning needs of local residents. On-site and long-distance options incorporate up-to-date technological support. Comprehensive guidance, counseling and tutoring

services assist students in achieving their potential and in making sound educational, occupational and personal choices.

The College serves the diverse needs of the community, sponsoring a wide array of cultural events, offering training to meet changing workforce demands and providing facilities for research and recreation. In cooperation with local business, industry, government, professions and other educational institutions, DSLCC prepares students for a full range of academic choices and careers.

Mission of the VCCS

The mission of the Virginia Community College System is to provide comprehensive higher education and workforce training programs and services of superior quality that are financially and geographically accessible and that meet individual, business and community needs of the Commonwealth.

To achieve this mission, the principles that guide Virginia's community colleges are:

- to provide programs and courses of instruction, through the associate degree level, encompassing occupational-technical education, college transfer education, general education, developmental education, continuing education and workforce development;
- to offer a comprehensive program of student development services;
- to provide a broad range of instructional technologies, methods, materials, facilities and instructional support services that accommodate students of varied backgrounds, interests and abilities;
- to create an educational environment that facilitates learning through a curriculum that broadens perspectives, leads to responsible citizenship and sets standards that support the highest level of performance;
- to serve as an important linkage between secondary education and four-year colleges and universities;
- to enrich local communities, by making available resources in people, facilities, libraries and programming;

- to take a leadership role in helping shape the future direction of their communities;
- to enhance economic, cultural and educational partnerships between the colleges and communities they serve;
- to ensure a healthy and safe environment on each campus; and
- to be fiscally responsible and accountable.

Academic Offerings

DSLCC is a comprehensive institution of higher education offering programs of instruction generally extending not more than two years beyond the high school level.

Occupational-Technical Education: These programs are designed to meet the increasing demand for technicians as well as semiprofessional and skilled workers in business, industry and government. The curricula are planned primarily to meet the occupational needs in the region served by the College.

College Transfer Education: These programs include freshman and sophomore courses in arts and sciences and pre-professional programs meeting standards acceptable for transfer to four-year institutions.

General Education: The programs in general education encompass the common knowledge, skills and attitudes needed by each individual to be effective as a person, a worker, a consumer and a citizen.

Continuing Adult Education: Adult education programs are offered to enable the adults in the region to continue their learning. This work includes both credit and noncredit courses offered during the day and evening hours.

Special Training Programs: Special training is provided where specific job opportunities are available for new or expanding industries. It is coordinated with Virginia's economic expansion efforts and with the needs of employers.

Developmental Studies Program: Developmental courses are offered to prepare individuals for

admission to a curriculum in the College. These classes are designed to help the individual develop the basic skills and understandings necessary to succeed in other College programs.

Specialized Regional and Community Services: The facilities and personnel of the College are available to provide educational and cultural opportunities for citizens of the region. Community services include faculty and staff speaking engagements, cultural events, workshops, conferences, seminars, special courses, public affairs, lectures and forums, extension programs offered by four-year institutions, films, exhibits and use of campus facilities and services, including the library, audiovisual center and recreational facilities.

General Education Objectives

All programs at DSLCC contain a general education component designed to provide knowledge, skills and attitudes needed by each individual to function effectively in society. To this end, DSLCC has developed a set of expectations in nine areas for all graduates.

Communication: Students will develop the ability to communicate effectively through speaking, active listening, reading and writing.

Learning Skills: Students will develop a desire for continued learning by acquiring skills needed to pursue learning and an appreciation for personal growth.

Critical Thinking: Students will develop problem recognition and solving skills by using critical thinking, scientific principles/methods and creativity.

Personal Ethics: Students will develop personal integrity by clarifying values, developing a code of ethics, maintaining a considerate attitude toward others and accepting the responsibility of becoming a contributing member of the community.

Interpersonal Skills and Human Relations: Students will develop interpersonal relationships by cooperating with others, maintaining a positive, accepting attitude and by recognizing the worth and dignity of others.

Computational and Computer Skills: Students will develop the ability to understand and apply math to the activities of daily living and to be proficient in the use of computers.

Understanding Culture and Society: Students will develop an understanding of and appreciation for cultures and ideas by developing a historical perspective and appreciation of the arts and by learning differences and commonalities among all humans.

Understanding Science and Technology: Students will develop a responsibility toward the global environment by understanding the uses of science and technology, their impact on the environment and one's personal responsibility toward protecting the environment.

Wellness: Students will develop an understanding of the relationship between mind, body and maintenance of health.

Students nearing the completion of the requirements for graduation must participate in activities that will assess their achievement of these objectives.

Accreditation and Memberships

Dabney S. Lancaster Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; Telephone number: 404/679-4501) to award the following degrees: Associate in Arts and Sciences (A. A. and S.) and Associate in Applied Science (A.A.S.).

DSLCC is one of 23 colleges within the Virginia Community College System. The associate degree curricula have been approved by the State Council of Higher Education for Virginia. The certificate and career studies programs have been approved by the State Board for Community Colleges.

The College is approved by the U.S. Department of Education for various federal funding programs including Veterans Administration educational assistance.

The College is an institutional member of the American Association of Community Colleges.

The College's Associate Degree Nursing program is accredited by the National League for Nursing (NLN) and the Forestry program is recognized by the Society of American Foresters.

Institutional Policy for Equal Opportunity

Dabney S. Lancaster Community College declares and affirms a policy of equal educational opportunity and nondiscrimination in the administering of all educational programs and supporting services. In accordance with the Americans with Disabilities Act of 1990, the College does not discriminate on the basis of race, color, religion, national origin, political affiliation, gender, age, handicap or other non-merit factors and complies with the Civil Rights Act of 1964. DSLCC is further committed to ensuring equal treatment and equal access to its educational programs and facilities by all students.

DSLCC Educational Foundation

The DSLCC Educational Foundation, Inc., is a nonprofit organization which acts as the sponsoring agency for soliciting financial support for the College.

The board is composed of representatives of the counties, cities and towns which are served by the College. They volunteer their expertise and service on behalf of the College and the community.

Gifts and contributions to the Foundation are tax deductible for the donor and can be made in the form of money, negotiable securities, equipment, supplies, real estate or buildings. Donors can name the Foundation in estate planning and as beneficiary to insurance policies. Memorial funds can be established through the Foundation on behalf of individuals and families.

DSLCC Statement of Values

From the 2002-2006 DSLCC Master Plan

The heart and soul of this College is learning and personal growth, both of which require high personal commitment on the part of everyone at the institution. Both are dependent upon quality educational programs, appropriate services and consistently high quality performances by students, faculty, staff and administrators. The College values a job well done and believes that each individual must strive for excellence. The highest level of professionalism, competence and productivity is the standard for employees of the College. Responsible participation and high achievement are standards for DSLCC students. The College is committed to providing the following:

- comprehensive educational programs
- dedicated, caring, knowledgeable and qualified staff, faculty and administrators
- general education courses that enable students to understand their culture and environment, to develop skills needed for analysis and communication and that promote personal civic and social responsibility
- an environment conducive to scholarly activity
- high quality academic advising, guidance, counseling, career awareness and selection and placement assistance
- resources necessary for quality teaching and learning
- opportunities for personal and professional development
- the free interchange of ideas, beliefs and cultures
- assessment activities which assure improvement in institutional effectiveness
- staff, faculty and administrators to serve as role models in the College, the community and the professions
- comprehensive academic programs which integrate liberal arts and technology education
- opportunities for recognizing outstanding achievement

We value the flexibility and diversity of human resources and realize that there are varied approaches in carrying out the College's mission. We promote innovation and responsible experimentation.

General Admission to DSLCC

Admission

Any person who has a high school diploma or the equivalent or who is 18 years of age and is able to benefit from a program at the College, may be admitted. The College reserves the right to evaluate special cases and to refuse admission to applicants when considered necessary and in the best interest of the College. Students may be denied admission if there is reason to believe that they present a danger to themselves, other students and/or DSLCC employees.

How to Apply

All degree or certificate seeking students must follow this procedure:

1. Submit a completed Application for Admission, including completed state residency information.
2. Forward official transcripts from all high schools, colleges and universities attended. High school transcripts may not be required if the record is over ten years old or the student has completed twenty semester hours (or the equivalent) at a regionally accredited college or university. Waiver of the high school transcript must be approved by the registrar.
3. Complete a placement test or provide satisfactory SAT/ACT scores. (For more information, see SAT/ACT Scores section on the next page.) The test is normally administered prior to registration. The DSLCC placement test series may not be required if the student has completed appropriate English and mathematics courses at a regionally accredited college or university. Waiver of the placement test must be approved by a student services counselor.

After individuals have been admitted to the College as degree or certificate seeking students, they will meet with a College counselor or advisor (a) to discuss their educational interests, (b) to plan their application for admission to a specific curriculum or program at the College and (c) to schedule courses based on

placement test scores. Admitted applicants will be required to submit any additional information required by the College for admission to a specific program or curriculum.

For all non-degree or non-certificate seeking students (those who are taking classes which they do not intend to apply toward a degree or certificate), the following completed items are required:

1. An official Application for Admission
2. A state residency form, if applicable

NOTE: Placement tests may be required for certain courses. Check with a counselor in Student Services for more information.

SAT and ACT Scores

Students who have taken the ACT or SAT tests within two years prior to entry to DSLCC and have obtained scores that meet or exceed those listed in the table below may request an exemption from the placement test. Students requesting an exemption should contact Student Services.

<u>SAT/ACT SECTION</u>	<u>SAT</u>	<u>ACT</u>
Verbal	480	20
Math	440	18
Math*	480	20

*if you are planning to take precalculus or higher math.

These scores exempt the student from **taking the placement test**. These scores do not exempt the student from having to successfully complete the prerequisite courses for a specific math course.

Admission to a Curriculum

Admission to the College does not necessarily admit the student to a particular curriculum. In addition to the general admission requirements, specific requirements are usually prescribed for each curriculum of the College, in order to ensure that the student possesses the potential to meet program requirements. Among the items generally considered in determining the eligibility of a student for admission to a curriculum

in the College are educational and occupational experiences and other reasonable standards such as appropriate scores on the placement test.

The specific requirements for each curriculum are listed in the *Programs of Study* section of this catalog. Persons who do not initially meet the requirements for a specific curriculum or course may be eligible for entrance at a later time after completing the appropriate developmental studies.

Admission to Courses

Admission to specific courses is available only when the student meets the prerequisite requirements for the course as identified in the *Course Description* or *Programs of Study* sections.

Admission to Non-Credit Community Service Courses

Persons applying for noncredit courses do not necessarily have to meet College admission requirements.

Veterans/National Guard Admission

Most of the College's programs are approved by the State Department of Education for payment of veterans' benefits. Requests for benefits should be directed to the Veterans' Affairs Officer in Student Services. It is the lawful obligation of the Veterans' Affairs Officer to monitor the veteran's academic program and to inform the Veterans' Administration promptly of such matters as attendance, unsatisfactory progress and lapses in enrollment. It is the student's responsibility to inform the Veterans' Affairs Officer immediately of any change in their status.

Veteran students are reminded that in order to receive benefits for a course, the course must be applicable to their approved program of study, as outlined in this catalog. All veterans must fill out the Veterans' Request for Certification Form each semester they register in order to continue to receive benefits.

Senior Citizen Admission

Legal residents of Virginia who are 60 years of age or older may register for credit and audit courses, not exceeding three courses per semester, on a space available basis, without payment of tuition or fees. Registration for credit courses without payment, either as a full-time or part-time student, requires that taxable income not exceed \$10,000 the preceding year.

A nonpaying senior citizen may be dropped from a course if space is needed for a paying student.

Admission of International Students

It is the policy of the College to admit qualified foreign students. A qualified foreign student is one who can document Resident Alien Status or one who possesses and maintains an F-1 Student Visa.

Admission of High School Students

Under certain conditions, students enrolled in high school who have reached junior status, are at least 16 years old and meet all course prerequisites, may be admitted to DSLCC. These students are not eligible for financial aid. High school students are considered under one of the following admission programs.

Co-Attendance: With written permission of parents, principal and the high school counselor, students may enroll in specific college level courses.

Dual Enrollment: Courses under this program are taught to qualified high school students, usually during school hours and fulfill high school graduation requirements. Students must meet DSLCC Admission and Placement Requirements.

Details are available in Student Services.

Admission of Home Schooled Students

DSLCC will consider the admission of “home schooled students” who are at least 16 years old and comply with the following procedures:

1. Applicants must provide a current copy of a completed and signed home schooled agreement between the appropriate school system and the authorizing parent or guardian. Such documentation must be provided to the College counselor prior to admission.
2. An applicant whose home schooling does not require a home schooled agreement must be 18 years of age and able to demonstrate the ability to benefit from a program at the College as determined by an appropriate score on the placement test.
3. Applicants must submit a college application and meet with a college counselor for course approval.
4. Applicants must complete placement testing in mathematics, English and reading.
5. Applicants must meet with a college counselor to make plans concerning enrollment in college courses.

Residency Requirements

Mere physical presence or maintenance of a residence does not confer domiciliary status. State law does not permit discretion in determining Virginia residency status. Classification must be decided solely by reference to a student’s domicile. Domicile is a technical legal concept and is determined objectively by established legal rules which must be applied impartially.

A domicile officer in Student Services is responsible for determining residency and guidance should be sought where there is a question regarding a student’s residency status. Applicants must submit a residence affidavit to determine residency for tuition purposes.

The following general rules are used in determining residency: (1) the term residency means domicile when used in the context of college tuition requirements; (2) a person’s domicile is the place where he or she resides

with the unqualified intention of remaining permanently;

(3) persons must demonstrate that they have been domiciled in Virginia for one year immediately prior to the commencement of the semester for which they are seeking Virginia residency status. **Two** of the following documents must be presented as evidence of the one-year residency status:

- current year Virginia income tax statement
- Virginia driver’s license
- Virginia vehicle registration
- Virginia voter registration card

Parents of students 18 years of age or less must have been domiciled in Virginia for one year. After age 19 residency is normally determined by the individual student’s domicile and not the parents’ because the age of majority in Virginia is 18 unless the student, regardless of age, is a “dependent student” as defined for income tax purposes, in which case the student may claim the domicile of either parent. Students residing in the country on a temporary or education visa are not considered permanent residents of Virginia. These are general rules, to which there are exceptions and qualifications.

When enrollments must be limited for any curriculum or course, first priority is given to qualified students who are residents of the political subdivisions supporting the College, if such students apply for admission to the program a reasonable length of time prior to registration. The priority list is as follows: (1) residents of the political subdivisions supporting the College; (2) other Virginia residents; (3) out-of-state and foreign students.

Disabled Students

Students with current documentation regarding a disability that would affect academic progress should advise the Director of Student Services of requirements for auxiliary aids, readers, interpreters, taped materials and other services.

Transferring from Other Colleges

Usually, a student eligible to return to the college from which he or she is transferring is eligible for admission to DSLCC.

If a person is ineligible to return to a particular curriculum in a previous college, generally he or she will not be allowed to enroll in the same curriculum in DSLCC until one semester has elapsed or until they complete an approved preparatory program at DSLCC. The Dean of Instruction and Student Services or their designee will decide on each case and usually shall impose special conditions for the admittance of such students, including placement on academic probation.

Each student transferring credits from another college must have an official copy of the transcript from each previously attended college sent to the DSLCC registrar prior to consulting an advisor in Student Services for an assessment of credits. DSLCC only accepts credit from regionally accredited colleges. No credit will be given for courses with grades lower than "C." A transfer student may be advised to repeat courses if it is clearly to his or her advantage to do so in order to make satisfactory progress in the chosen curriculum. Only those credits or courses applicable to the DSLCC program will be officially applied to the student's record. The student will be informed of the amount of credit which will transfer as soon as possible, but no later than the end of the first academic term in which they are enrolled.

Waiver of Requirements

Students who have reason to believe that previous educational studies, training programs or work experience may entitle them to an adjustment in the course requirements for a particular curriculum should contact Student Services to determine procedures before registering for classes.

Advanced Standing Information

DSLCC adheres to the philosophy that educational development (knowledge and/or expertise gained), regardless of how or where it occurred, is worthwhile and worthy of recognition. Therefore, curriculum students may receive advanced standing for demonstrated proficiency within a particular program or course sequence. Advanced standing is the administrative placement of a student beyond the basic course(s) in a program, allowing college credit for mastery of subject matter and/or other appropriate

training, upon the submission of transcripts showing previous academic study, evidence of occupational experience or credit by exam. There is no credit-hour charge for credits earned in this manner.

Credits earned by examination may be applied toward meeting degree and/or certificate requirements, but neither grades nor grade points will be awarded. A "credit-by-examination" notation will be included on a student's official transcript for each course completed in this manner.

It should be noted that, although an increasing number of colleges are accepting credits earned by examination for transfer purposes, not all colleges have adopted this policy. It is the responsibility of the student to acquire information on transfer policies at the institution he or she plans to attend.

Advanced placement may be attained in the following ways:

CLEP Examinations for Advanced Standing: The College Level Examination Program from the Educational Testing Service has been approved for obtaining credit by examination. Many subjects, such as English Composition, American History, American Government, General Psychology, Biology and Chemistry, are available. Credit is awarded depending on the score attained. Students interested in participating in CLEP should contact their counselor and/or the appropriate division chairperson. A fee equal to the fee charged by the Educational Testing Service will be charged for each CLEP examination.

Locally Constructed Examinations for Advanced Standing: Tests prepared by DSLCC faculty are available for several DSLCC courses. The College will grant specific course credit for acceptable performance on these locally prepared examinations. Students interested in participating in this credit-by-examination program should consult their counselor and/or the appropriate division chairperson. There is no fee for locally constructed tests.

Certification of Competency: Students entering from a secondary vocational program may be eligible for advanced placement in certain vocational-technical programs based on certification of a competency (skill) level by the previous vocational teacher. Certain fundamental skills in typewriting, keyboarding, technical drafting and welding are taught at the area vocational schools. Advanced placement is based on informal as well as formal articulation agreements with local educational agencies in the DSLCC service area. Students interested in this method of advanced placement should contact the counselors, respective program head or division chair.

Specialized Training: Successful completion of armed forces schooling, industrial apprenticeship programs, Virginia law enforcement training agencies, Certified Professional Secretaries' exam and Certified Legal Secretaries' exam may merit credit. Individuals who can provide official documents certifying successful completion of the above programs (exams), who have declared a major in a DSLCC degree or certificate program and who are currently enrolled in classes applicable to the program may request advanced placement. The number of credit hours awarded is based upon formal documentation and agreements in force through the VCCS or locally. Students interested in this type of advanced placement should contact a counselor, respective program head or division chairperson.

Advanced Placement Credit: Students who have completed advanced work while in high school may apply to the College Entrance Examination Board to take one or more tests offered through the Advanced Placement program. The Board reports the results of the examination to the college. DSLCC awards credit for a grade of 3 or higher, with the final determination of credit hours awarded made on the basis of the exam taken.

Transfer Between Curricula

As students proceed in their studies, they may decide to change a program or curriculum. In such cases, the student should make an appointment with a counselor or faculty advisor to arrange for testing in English,

mathematics and reading prerequisite skills, if needed. No changes in program or curriculum may be made without the recommendation of a counselor or advisor or, in select programs, the division chair.

Transfer to Other Institutions

Depending on the program of study, DSLCC students may transfer credits to a four year institution. A student who is interested in transferring to another college should work closely with that college's advisor to ensure that DSLCC courses will transfer. Students should become familiar with the requirements of their chosen major at the four-year college and should work with the DSLCC transfer advisor in choosing courses. DSLCC maintains a file of catalogs of many four year institutions. While the transfer advisor will attempt to guide a student into the right courses, the ultimate responsibility belongs to the student.

Associate in Arts and Sciences Programs

The Associate in Arts and Sciences Degree Programs are designed for students who plan to complete a baccalaureate degree program at a four year institution. The transfer advisor in Student Services will assist the student in the selection of an appropriate institution and aid in the interpretation of requirements.

Associate in Applied Science Programs

The Associate in Applied Science Degree Programs are designed as two year programs. However, many four-year institutions do accept credits earned in such programs when a student transfers into a comparable technical program. Students interested in transferring to a four-year institution after enrolling in an A.A.S. program should work closely with their advisor to identify four year institutions that will accept these credits and to ensure that they enroll in general education courses which are transferable.

Articulation and Transfer Agreements

DSLCC and the Virginia Community College System have established articulation and transfer agreements with several colleges and universities. These agreements may enable students in certain programs who have planned to transfer to a four year college or university to transfer upon graduation to these schools without

losing credits. In addition, the College transfer advisor works closely with four year colleges and universities to stay current in the requirements of those schools, so that DSLCC students can be advised to take appropriate elective courses for the most efficient transfer of credits.

In recent years, graduates transferred to:

College of West Virginia
College of Health Sciences
Concord College
Hollins University
James Madison University
Longwood College
Mary Baldwin College
North Carolina State University
Oakland University
Old Dominion University
Radford University
Roanoke College
University of Virginia
University of West Virginia
Virginia Tech

Guaranteed Admissions Agreements

Radford University and Roanoke College: DSLCC has entered into Guaranteed Admissions Agreements with Radford University and Roanoke College. Under the terms of these Agreements, students must declare their intention to enroll in one of these institutions prior to completing 30 credit hours.

These agreements entitle students who complete the Associate's Degree with an acceptable grade point average certain benefits including:

- status as a junior similar to students who began as freshmen (native students).
- equal access to financial aid, scholarships and housing programs as native students
- equal access to junior level classes which may have enrollment limits.
- access to RU or RC academic advisors during the freshmen and sophomore years.
- student admission to certain student activities.

Students interested in participating in the Guaranteed Admissions Agreements should contact DSLCC's transfer advisor for additional details and requirements.

Old Dominion University: DSLCC and Old Dominion University have signed a Guaranteed Admissions Agreement. Under this program, arts and sciences students who sign the agreement, maintain a 2.0 GPA and graduate from one of the transfer programs at DSLCC will be guaranteed automatic admission as juniors at ODU. After graduation from DSLCC, students can go on to Norfolk or remain at DSLCC and take ODU classes through the TELETECHNET Program.

DSLCC students will be treated the same as students who start at ODU. They will register for classes at the same time as other students, have the same opportunities to get into competitive majors and have the same opportunities for housing.

Students interested in this program should contact the DSLCC transfer advisor to learn the program details, fill out the proper forms and determine which classes are best suited for this program.

Transcripts

A student may request that a copy of his/her Student Permanent Record from DSLCC be forwarded to other educational institutions, state or federal agencies, employers or any person(s) designated by the student. The request must be made by the student in writing. There is no cost for this service. Request forms may be obtained from Student Services or the Registrar's Office.

Fax requests are honored and must have the full name of the requestor, the Social Security number, complete address where the transcript is to be sent and the student's signature authorizing transcript release. The fax request should be directed to the Registrar's Office.

Due to student information limitations under the Family Educational Rights and Privacy Act of 1974 (Public Law 93-380), telephone and third-party requests for transcripts cannot be honored.

During periods when the Registrar receives a high volume of transcript requests, typically at the beginning and end of a semester, there will be a three (3) day waiting period on requests. Students with immediate needs will be addressed on a case-by-case basis.

Release of Student Information

All requests for official information about students should initially be referred to the registrar. Student records are treated as confidential information as provided by the Family Rights and Privacy Act of 1974, Sec. 438, Pub.L. 90-247 as amended. Information from student records cannot be released (with very limited lawful exceptions) except to the student who may authorize release.

The colleges of the VCCS will share student education records in accordance with current and any future amendments to the Family Educational Records and Privacy Act regulations. Specifically, colleges must receive permission from the student to share information, except for a situation where the student seeks or intends to enroll at another college within the VCCS. The ability to disclose personal data for this situation is allowed under 34 CFR 99.31(a)(2) and 99.34(FERPA). Colleges will insure that all data transfers among colleges of the VCCS, related to this policy, are based on business processes approved by the Chancellor.

Employees of the College may have access to student records when acting in the student's educational interest and within the limitations of their need to know. These persons may include faculty, academic advisors and personnel in the Offices of Admissions and Records, Counseling, Financial Aid, Veterans' Affairs and Special Services.

Directory information including name, address, telephone number, date of birth, major field of study, dates of attendance, degrees and awards received and previous institutions attended may be released without the consent of the student.

A student may request that this directory information or the VCCS Sharing Policy be kept confidential by notifying the registrar each semester by the last day to add/drop.

A student (who does not want to have their record shared in accordance with the aforementioned VCCS policy) will be informed that under 34 CFR 99.31(a)(2) and 99.34(FERPA) certain information will be disclosed to college officials within the VCCS when the student seeks or intends to enroll at another college within the VCCS. For purposes deemed important for operational use of student records, the disclosure will be limited to the following:

- old student identification (last four digits of ID in legacy system)
- date of birth
- current address
- current name
- PeopleSoft identification number

Emergency requests for information will be handled by the registrar after consultation with another appropriate college official.

The student has the right to inspect, review and challenge the information contained in their own records.

Retention of Student Records

The College retains student records in accordance with the policies established by the State Library of Virginia. The College will retain on a permanent basis an official record of a student's academic history (transcript).

The College also will maintain a separate student academic folder which may include, but not be limited to, the following: application forms, standardized test results, drop/add forms and faculty grade reports. Information contained in the student academic folder will be retained in accordance with the aforementioned policy and may be destroyed three years from the date of the student's separation from the College.

Tuition and Fees

General Tuition: Tuition rates are subject to change and do not include student activity fees or technology fees.

A Virginia resident is one who has lived in, is and has been a legal resident of Virginia for a period of at least one year prior to the commencement of the semester for which he or she is enrolling. (See Residency Requirements.)

Payment of tuition also enables the student to use the Learning Resources Center, bookstore, student center and other facilities of the College. There are no special laboratory or library fees, but students are expected to pay charges for any school property (such as laboratory or shop equipment, supplies, library books and materials) that they may damage or lose.

Senior Citizen Tuition Waiver/Credit Courses: By action of the Virginia General Assembly, senior citizens in Virginia may be eligible for free tuition and fees. Under this provision, senior citizens who are legal residents of Virginia, 60 years of age or older and whose taxable income does not exceed \$10,000 during the preceding year, may register for credit courses on a credit or audit basis without paying tuition; those with a taxable income of \$10,000 or more may take a course without payment on an audit basis only. This tuition waiver is on a space available basis only.

Senior Citizen Tuition Waiver/Non-Credit Courses: Senior citizens who have reached 60 years of age, have had their legal domicile in Virginia for one year and have an annual income of \$10,000 or less shall be admitted to noncredit courses at no tuition on a space available basis after all tuition-paying students have been accommodated. Senior citizens are responsible for fees established for the purpose of paying for course materials and lab fees. Senior citizens whose annual income is greater than \$10,000 are not eligible for the waiver.

Veterans: Veterans who wish to receive education benefits must contact the Office of Veterans' Affairs located in Student Services. The Veterans' Tuition

Waiver provides free tuition and fees at state supported institutions for the children of permanently disabled or deceased veterans of the U.S.

Tuition/Financial Aid

Armed

Forces. Requests for applications should be directed to the DSLCC Office of Veterans' Affairs.

Dependents of Firefighters/Police Officers Killed in the Line of Duty: DSLCC provides free tuition to children and spouses of law enforcement officers, firefighters, correctional and jail personnel, Virginia National Guard members or rescue squad members who have been killed in the line of duty. In addition, the College provides free tuition under the Virginia War Orphans Education Program. One of the applicant's parents must have served in a branch of the Armed Forces of the United States and must have been killed or permanently disabled due to injury or disease, a prisoner of war or missing in action during a time of war or armed conflict. Additional qualifications apply and are available from the Financial Aid Office.

Refunds

Students shall be eligible for a refund for those credit hours dropped during the add/drop period. Refunds are made in accordance with state policy. Tuition refunds are processed after the end of the add/drop period. Exceptions must be approved by the Dean of Instruction and Student Services. These refunds are disbursed by the Commonwealth of Virginia Treasury Department and are mailed directly to the student's address of record.

For information on refunds for students on financial aid, see ***Refund and Repayment Policy*** under the Student Financial Aid section.

Other Costs

Student Activity Fee: A student activity/parking fee will be charged in addition to tuition and must be paid by all students. This fee is refundable during the add/drop period.

Technology Fee: A technology fee is charged to all students for each credit hour taken. Monies collected are used to purchase new technology equipment for academic purposes.

Special Items: Some programs may require students to purchase additional program-related items.

Fines

Students who damage or lose school property (laboratory or shop equipment, supplies, library materials, etc.) are expected to pay charges for such losses. In addition, students are expected to pay fines for overdue library books or other such infractions as determined by DSLCC with the approval of the State Board for Community Colleges.

Transcripts, certificates, diplomas or degrees will not be issued, nor will a student be permitted to register until all of the student's accounts at the business office, bookstore or library have been paid in full.

Fines for illegal parking in fire lanes, handicapped parking spaces or "No Parking" designated areas will be imposed by the Allegheny County Sheriff's Department.

Library Fine Policy

Fines of 5¢ per day, including weekends and holidays, are levied on overdue books from the circulating collection. When a book is thirty days overdue, the borrower is considered delinquent and cannot check out more library materials until he or she has paid the fine and has returned or paid for the book. Fines charged cannot exceed the cost of the book. Fines of 25¢ per hour, including the hours that the library is closed, are levied on overdue reserve material. Students may not graduate or register for classes until all obligations are satisfied.

Books and Materials

Students are expected to obtain the books, supplies and materials needed in their studies. It is estimated that these items will cost **\$250-300 per semester** for the average full-time student.

Failure to Meet Financial Obligations

Students failing to meet a financial obligation to the College are placed on financial suspension. Failure to meet financial obligations to the College also may result in placement of the delinquent account with a collection agency, withholding from subsequent tax returns, litigation and other collection procedures as are necessary to settle the account. The student is responsible for any additional costs incurred in the collection of delinquent accounts. Library fines and returned checks similarly affect student status. A service charge of \$10 will be assessed for all returned checks.

Student Financial Assistance

Financial Aid: The purpose of the College's financial aid program is to provide financial assistance to qualified students who, without such aid, would be unable to attend college.

DSLCC offers several programs of financial aid funded by the Federal Government, the Commonwealth of Virginia, the College itself, area organizations, clubs, businesses and private citizens.

How and When to Apply for Financial Aid: The best time to apply for financial aid is during the months of January and February preceding anticipated fall semester entrance into the College. The DSLCC priority application deadline for campus-based aid is March 15. Students who wish to be considered for campus-based funds must apply by this deadline. Eligible students who apply after March 15 may receive an award of campus-based aid if funds are still available. Awards are given on a first-come, first-served basis until the funding is exhausted.

Spring entrants should apply for financial aid before November 15 to allow ample time for financial aid to be processed. Students may apply after this date; however, financial aid may not be processed in time to be available at the start of the semester.

All students interested in applying for financial aid must do all of the following:

1. Apply as a curricular student to DSLCC.
2. Complete the Free Application for Federal Student Aid (FAFSA) and send it to the processing center using one of the following methods:

- Complete and mail the FAFSA paper form. These applications are available in the financial aid office.

-OR-

- Complete the electronic FAFSA directly on the web. This newest electronic option permits students to access the FAFSA on the Internet and enter data and submit the FAFSA on the web. This can be used on a home computer with the domestic version of Netscape. At DSLCC, computers in the Learning Resources Center, Student Services and at the Rockbridge Regional Center offer FAFSA on the web. The address is www.fafsa.ed.gov on the web.

Students are encouraged to utilize the electronic option. This method is simple and user friendly, reduces errors and most importantly, greatly reducing processing time.

When the FAFSA has been processed, the student will receive a Student Aid Report (SAR) by mail. Schools listed by Title IV code on the FAFSA will receive an electronic version of the SAR. Students usually do not need to submit an SAR to the financial aid office.

3. Contact the financial aid office when the SAR is received to be certain the school received the electronic report. This also is a good time to determine if additional information is required for the completion of the student file.
4. Complete the DSLCC Financial Aid Application and return it to the DSLCC Financial Aid Office.

Ability to Benefit Procedure

Students without a high school diploma or GED must demonstrate the ability to benefit from a course of study to receive financial aid. In order to show an ability to benefit, a student must receive a passing score on a DSLCC Placement Test as established by the U.S. Department of Education. Test results will serve as official documentation of the student's ability to benefit.

Students not eligible for financial aid because they cannot demonstrate the ability to benefit may enroll at their own expense.

Satisfactory Progress for Financial Aid Recipients

Federal regulations require that students receiving federal financial aid make satisfactory academic progress in accordance with the standards set by the College. Exclusive of developmental studies, degree seeking students may receive financial aid for no more than 150 percent of the time frame for program completion. These limitations include all terms of enrollment, not only those terms when aid was awarded or received. Developmental studies courses are limited to one academic year, 30 semester hours, of enrollment.

Student aid recipients will also be required to maintain a minimum cumulative grade point average (GPA) and credit completion rates. GPA requirements will be evaluated after each term and credit completion rates will be evaluated after each academic year.

For further information on the DSLCC Satisfactory Academic Progress Standards or to obtain a copy of these standards, contact the Office of Student Financial Aid.

The Student Financial Aid Committee, composed of representatives of the administrative, counseling and instructional staff, is appointed by the President for the purpose of reviewing student appeals concerning financial aid matters.

Refund and Repayment Policy

Complete withdrawals require returning Title IV

Financial aid. Financial aid students who withdraw from ALL classes after beginning attendance MUST return the earned portion of Title IV funds. If the withdrawal occurs after all aid has been disbursed to the student, the unearned portion must be returned to the school within 45 days. After 45 days, students who do not return the required funds must be reported to the U.S. Department of Education. They are reported as having an overpayment which makes them ineligible to receive financial aid until the overpayment is repaid to the Department of Education.

Financial aid students must be aware that financial aid will not pay for classes that the student never attends. If a student signs up for classes, but never begins attendance, financial aid cannot be used and the student is responsible for the tuition and fees unless they withdraw during the add/drop period.

Financial aid students who do not begin attendance in all classes will have their financial aid adjusted. The adjustment will be based on the enrollment level using the classes that were attended. The student will be responsible for paying any difference that results from the adjustment.

Financial Aid Disbursements

Disbursements of financial aid awards (minus appropriate tuition, fees and bookstore charges), excluding loans, are usually available during the fifth week of classes each semester. Financial Aid checks are disbursed from the DSLCC Business Office between 8:00 am and 5:00 pm, Monday through Thursday and 8:00 am to 3:30 pm on Friday. Evening students who are not able to pick up a check during the day should contact the Office of Student Financial Aid for special arrangements.

Bookstore Charges

Eligible financial aid grant recipients may choose to charge textbooks and/or supplies in the DSLCC Bookstore up to the amount of the grant award minus

appropriate tuition and fee charges. Charges may be made during the first two weeks of classes each semester.

Veterans' Services

Applications for VA benefits and assistance in applying are available from the College's Veterans' Affairs Office. All students receiving VA benefits must be enrolled in an approved curriculum that leads to a certificate or degree.

All students receiving VA benefits must report class registrations and adjustments to class schedules (such as add/drop, withdrawal from classes, changes in academic program, etc.) to the College's Veterans' Affairs Office. These changes may affect a student's VA benefits. When certifying the enrollment status of veteran students, only those courses applying to their curricula will be certified to the Veterans' Administration for payment of benefits.

In addition to monthly benefits, the Veterans' Administration will pay tutorial assistance. Veteran students are urged to visit the Achievement Center, which provides free tutoring Students.

Veterans' educational benefits will be suspended when the veteran student fails to maintain minimum standards of academic progress. A copy of the *Veterans' Standards of Academic Progress Policy* may be obtained from the College's Veterans' Affairs Office.

DSLCC is designated as an institutional member of Service Opportunity Colleges (SOC). The SOC, composed of over 1,000 colleges and universities, functions in cooperation with the Department of Defense and the Military Services, including the National Guard and the Coast Guard, to help meet the voluntary higher education needs of service members.

HOPE Scholarship Tax Credit

This tax credit can be taken by eligible students for tuition paid during the freshman and sophomore years, to a maximum of \$1500. To obtain additional

information about the requirements for claiming this tax credit, contact Student Services or visit the financial aid page of the DSLCC web site at www.dl.vccs.edu. To determine specifically if you qualify, you must seek the advice of a tax expert.

Scholarships

The College offers many scholarships to qualified students through the Dabney S. Lancaster Community College Educational Foundation.

The following scholarships are offered through the DSLCC Educational Foundation to graduating high school students. Information about these and other scholarships may be obtained at the DSLCC Development Office or the Office of Financial Aid.

Educational Foundation Scholarships*

Tim Backels Scholarship
BARC Electric Co-Op Scholarship
Edward Pennell Brooks OCC Scholarship
Marjorie G. Carte Scholarship
DSLCC Honors Scholarship
Mr. and Mrs. J.L. Davis Memorial Scholarship
T. Kenneth and Karin R. Ellis Scholarship
First Citizens Bank Small Business/Entrepreneurial Scholarship
Former Agents of the FBI Foundation Scholarship
GAMI Scholarship
(Great American Management and Investment)
Barry Hillsman Loan Fund/Forestry Scholarship
Master Trooper Jerry L. Hines Scholarship
Josh Patterson Forestry Scholarship
Dabney S. Lancaster Memorial Scholarship
LIFT Scholarship
(Leadership Incentive for Tomorrow)
MGW Communications Scholarship
Marion and Cecil May Scholarship
NTELOS Scholarship (CFW Communications)

Katherine V.H. Perret and Horace E. Perret-Gentil Scholarship

Linda Rose Part-Time Scholarship

Betsy Saville Memorial Scholarship

TAPPI Scholarship

(Technical Association of the Pulp and Paper Industry)

Veterans of Foreign Wars Scholarship

(Curtis A. Smith, 116 Infantry, Post 1033)

Westvaco Scholarship

L. Paul Wiggins Memorial Scholarship

Jesse A. Wright Memorial Scholarship

Nursing/Medical Arts Scholarships*

Alleghany Regional Hospital Book Scholarship

Alleghany Regional Hospital Nursing Scholarship

Betty Andrews Memorial Nursing Scholarship

Tammy Caul Carter Book Scholarship

Madge Chandler Carr Book Scholarship

George N. Chucker Scholarship

Raymond L. Claterbaugh, Sr. Memorial Scholarship

Ethel Mae Grimes Dorsey Memorial Scholarship

Durvin Family Scholarship for Nurses

Julia E. Edmunds Scholarship

Madonna Hepler Nursing Scholarship

Martha Hudson Memorial Nursing Scholarship

Johnson Memorial Nursing Scholarship

Louise Kern Lemon Nursing Scholarship

Mark W. Lockhart Memorial Scholarship

Mae S. Tucker Memorial Nursing Scholarship

Lydia M. Woods Memorial Nursing Scholarship

**Not all scholarships are awarded every year.*

Additional scholarships may be offered through civic and business organizations. For more information on scholarships, qualifications and how to apply, contact the Financial Aid Office.

Student Financial Assistance Programs

Aid Program	Who May Apply	Amount of Aid <i>Subject to Change</i>	Eligibility	How to Apply	Additional Information
Federal Pell Grant	All students who are U.S. citizens or lawful permanent residents.	\$400-\$3000	All undergraduates who show a demonstrated financial need, as determined by the Department of Education.	File a Free Application for Federal Student Aid (FAFSA) and a DSLCC Financial Aid Application. Must apply each academic year.	Other sources of aid may be added to this. This is a non-repayable grant.
Federal Work Study (FWS)	All students who are U.S. citizens or lawful permanent residents.	Varies, depending on need.	All undergraduates who show a demonstrated financial need, as determined by the Department of Education.	File a FAFSA and a DSLCC/FAA and a work study application.	The FWS program provides an opportunity for students to work full-time while attending college.
Federal Supplemental Educational Opportunity Grant (FSOEG)	All students who are U.S. citizens or lawful permanent residents.	\$100-\$4000 per academic year.	All undergraduates who demonstrate financial need, as determined by the Department of Education.	File a FAFSA and a DSLCC/FAA.	This is a non-repayable grant for students with exceptional financial need.
Commonwealth Award (COMA)	Virginia residents attending at least half time.	Varies, depending on need.	Virginia residents with remaining need as approved by SCHEV.	File a FAFSA and a DSLCC/FAA.	The VSFAP/COMA is a non-repayable state funded financial aid program.
Virginia Guarantee Assistance Program (VGAP)	Virginia residents who are high school graduates attending college for the first time, full-time.	Varies, depending on need.	Dependent Virginia residents with a high school GPA of 2.5.	File a FAFSA, a DSLCC/FAA and a verification of high school GPA.	VSFAP/VGAF is a non-repayable state funded financial aid program.
College Scholarship Assistance Program (CSAP)	Virginia residents attending at least half time.	\$400-\$2000 per academic year	All Virginia residents who show a demonstrated financial need.	File a FAFSA and a DSLCC/FAA.	CSAP is a non-repayable program for undergraduates who demonstrate exceptional financial need.
Undergraduate Student Financial Assistance (Last Dollar) Program (LDGP)	Degree seeking, financially needy, minority, in-state, first time freshmen students.	\$200 up to actual tuition and fees per academic year.	All minority, first time freshmen who show a demonstrated financial need.	File a FAFSA and a DSLCC/FAA.	The Last Dollar Grant is a non-repayable, state funded aid program.
Part-Time Tuition Assistance Program (PTAP)	Virginia residents enrolled for 3-5 credits per semester.	Maximum of tuition charges (does not include fees) .	All undergraduates who show a demonstrated financial need.	File a FAFSA and a DSLCC/FAA.	This is a non-repayable, state funded program.
Short-Term Loans (limited)	Any DSLCC Student.	Varies.	Emergency need for tuition or help.	File an application with DSLCC Financial Aid Office.	Repayment must be made within 30 days of receipt of the loan.
Educational Foundation Scholarships	High School graduates and second-year nursing students.	Maximum of tuition and fees.	Based on academic achievement and extracurricular activities.	File an application with the Development Office.	Apply in April preceding the year for which the student will enroll.

Veterans Educational Benefits	All Veterans.	Varies.	Determined by Veterans Administration.	File a VA application with the DSLCC Veteran Affairs Office.	May also apply for VA work-study and financial aid.
Local Grants and Scholarships	Any DSLCC Student.	Varies.	Need-based. In some cases, special guidelines must be met.	File FAFSA and DSLCC/FAA. May require other applications.	Funded by the College, civic clubs and private donors.
Virginia War Orphans Education Act	A child of a Virginian who, as a member of the armed forces, was killed or disabled in action.	Tuition and fees.	Must be a Virginia resident between the ages of 16-25 and meet criteria.	File an application with the DSLCC Veterans Affairs Office.	Processing takes 8-10 weeks. Students should file early.
Children of Deceased Police Officers, Firefighters and Rescue Squad Members	A child of a Virginia police officer, firefighter or rescue squad member killed in the line of duty.	Tuition and fees.	Must be a Virginia resident between the ages of 16-25 and meet criteria.	File an application with the DSLCC Financial Aid Office.	Processing takes 8-10 weeks. Students should file early.

NOTE: All selected applicants and those students applying for educational student loans must provide a copy of their parent's and/or their own Federal Income Tax Return (1040, 1040A, 1040EZ) for the prior year. Priority deadline for student aid applications is March ^

Academic Awards

Dabney S. Lancaster Community College offers the following degrees or certificates for students who successfully complete approved programs at the College.

Academic Awards

Associate in Arts and Sciences (A.A. and S.): awarded to students majoring in one of the transfer curricula (Business Administration, Education, General Studies and Science) who plan on transferring to a four-year college or university after completing their respective program.

Associate in Applied Science (A.A.S.): awarded to students majoring in one of the occupational-technical curricula and who may either plan to obtain full-time employment immediately upon graduation from DSLCC or transfer to an appropriate bachelor's degree program.

Certificates: awarded to students who complete an approved curriculum with a minimum of 30 semester hours.

Career Studies Certificates: awarded to students completing approved curricula with nine to 29 semester hours.

Associate Degree Requirements

To be awarded an associate degree from the College, a student must have

1. completed at least 61-62 semester hours in the Associate in Arts and Sciences degree program, 65-69 semester hours in the Associate in Applied Science degree program or 30 semester hours applicable to the Certificate, of which 25 percent (excluding those received through advanced placement or credit by exam) must be acquired at DSLCC.
2. fulfilled all of the course requirements of the particular curriculum as outlined in the College catalog.
3. been recommended for graduation by the appropriate instructional authority in the curriculum.

4. completed at least the required minimum credits applicable to the associate degree, of which 25 percent, excluding those received through credit by examination, must be acquired at DSLCC.
5. completed the general education requirements (course work in English, Health, Mathematics/Science, Orientation, Physical Education, Humanities and Social Science) for an associate degree.
6. earned a grade point average of at least 2.0 on all studies which are applicable toward graduation in the particular curriculum.
7. filed a Graduation Credentials Checklist with a faculty advisor in early December and an Application for Graduation in the Office of Student Services in early March.
8. resolved all financial obligations to the College and returned all materials, including library books.
9. completed all assessment projects including a test(s) of competency in general education.
10. attended graduation exercises.

Certificate Requirements

DSLCC offers several certificate programs, which are described by category in this catalog. To be awarded a certificate, the student must have completed all academic requirements for the particular certificate and also have completed numbers five through nine above.

A student may enroll in a certificate program with that certificate as a goal or may, with the approval of the Dean of Instruction, be awarded a certificate as part of a degree program when the portion of study completed is equivalent to a certificate program offered at DSLCC.

Continuing Education Units

CEUs can be granted for participation in the continuing education experiences provided by the College and do not carry regular academic credit. Further information concerning CEUs may be obtained from the Continuing Education and Workforce Services Division.

Academic Policies and Procedures

Credits: A credit is equivalent to one collegiate semester hour. Each credit given for a course is based on approximately three hours of study in that course weekly by each student. The course may consist of lectures, out-of-class study, laboratory, shop study or a combination thereof as follows:

1. One hour of lecture plus an average of two hours of out-of-class study.
2. Two hours of laboratory or shop study plus an average of one hour of out-of-class study.
-or-
3. Three hours of laboratory or shop study.

Fixed credit and variable hours with behavioral objectives are assigned to each developmental course (courses numbered 01-99). Varying credit is granted for all supervised study, seminar and project and coordinated internship courses.

Grading System for Curriculum Students

The grades of A, B, C, D, P and S are passing grades. Grades of F and U are failing grades. An I is an interim grade. Grades of P, R, S, W and X carry no credits.

Usually, if a student transfers to a four-year college or university, only grades of A, B and C will be accepted for credit in courses equivalent to those offered at the four year college or university.

The quality of performance in any academic course is reported by a letter grade, the assessment of which is the responsibility of the instructor. These grades denote the quality of study and are assigned quality points as follows:

A-Excellent	4 grade points per credit
B-Good	3 grade points per credit
C-Average	2 grade points per credit
D-Poor	1 grade point per credit
F-Failure	0 grade points per credit
P-Passing	0 grade points per credit
S-Satisfactory	0 grade points per credit

Re-enroll (R): No credit is awarded until the course objectives are finished. This grade is to be used for developmental courses (numbered 01-99) or special courses as approved by the Dean of Instruction and Student Services. The "R" grade will be given in only those courses in which the student can

re-enroll the following semester and complete the remaining objectives without taking the entire course over. The dean keeps a list of courses in which the "R" grade may be used and must approve each course eligible for an "R" grade. When a student re-enrolls for a course, they must pay for the course again.

Incomplete (I): No credit is awarded; the grade denotes that the student did not complete the class for verifiable, unavoidable reasons. Since the "Incomplete" extends enrollment in the course, requirements for satisfactory completion will be established through student/faculty consultation. Courses for which the grade of "I" has been awarded must be completed by the end of the subsequent semester or another grade (A, B, C, D, F) must be awarded by the instructor based upon course work which has been completed. Students must complete at least 80 percent of the course requirement to be eligible for an "I" grade. With mitigating reasons, the Dean of Instruction and Student Services may approve the extension of an "I" grade.

Withdrawal (W): A grade of "W" conveys no credit and is awarded to students who withdraw from a course after the add/drop period but prior to the completion of 60 percent of the session. After this time, the student will receive a grade of F except under mitigating circumstances which must be documented. A copy of that documentation is placed in the student's academic file.

Audit (X): A student who audits earns no credit. Permission of the instructor or other appropriate administrator is required to audit a course. An auditing student may be dropped from the course if that student's place is needed for a student taking the course for credit.

Academic Policies

Pass (P) and Unsatisfactory (U): Grades of Pass (P) or Unsatisfactory (U) may be used as a grading option in Developmental Studies and special interest classes. Permission of the division chair or another appropriate academic administrator is required.

Pass grades in courses numbered 10-299 carry academic credit but are not included in grade point average calculations.

A maximum of seven (7) credit hours in courses for which the "P" grade has been awarded may be applied toward completion of a degree, diploma or certificate.

Satisfactory (S): A grade of "S" is assigned for satisfactory completion of each course in Developmental Studies numbered 01-99.

Developmental Studies

The Developmental Studies Program at DSLCC involves classes in basic reading, writing and mathematics. Instructors of these classes give much personal attention to students and frequently work one-on-one with them during class times and office hours.

Students in Developmental Studies may fall into one of several categories. They may be taking a full schedule of developmental courses or taking only one. They may be enrolled in any one of the diploma or certificate programs, working toward fulfilling requirements for entry into a program or pursuing a GED. Developmental Studies courses are available for day and night students who are either part-time or full-time.

The Achievement Center provides facilities for extra support of students in Developmental Studies classes. The A-Center has an impressive collection of reading, writing and math software in a computer lab staffed at specified hours by an assistant. Many of the computers in the Achievement Center also have word processing programs for writing papers. The A-Center offers a blend of modern technology and a genuine concern for the individual student who needs additional support.

Grading Developmental Courses

Courses numbered 01-99

Students making satisfactory progress but not completing all of the instructional objectives for courses in Developmental Studies shall be graded with an R and will be able to re-enroll in the course to complete the instructional objectives.

Students not making satisfactory progress in Developmental Studies shall be graded Unsatisfactory and counselors will recommend consultation with the instructor to determine the subsequent sequence of courses for the student who receives a grade of "U."

Grade Point Average

The grade point average (GPA) is determined by dividing the total number of grade points earned in courses by the total number of credits attempted. While the permanent record must reflect the full history of all courses taken, a curriculum GPA including only those courses applicable to the student's curriculum may be computed if needed for graduation.

When a course is repeated, only the last grade earned is counted by DSLCC in computing the curriculum GPA for graduation purposes. The grades, credits completed, credits attempted and quality points for previous enrollments are no longer used by DSLCC but remain on the student's transcript.

Grade Reports

Final grade reports are mailed at the end of each semester to the student's residence as shown on his or her records. All final grades are part of the student's permanent record and will be recorded on his or her official transcript.

Appealing Final Grade

Students must seek to resolve all grade problems with their instructors. If such problems cannot be resolved at that level, students may further appeal a grade through the Grade Appeals Committee if they believe it has been awarded in other than the prescribed manner. Grounds for the appeal are limited to the following:

1. A computational error in the grade
2. Grade computation in a manner other than that listed in the course of study or as amended with advance notice
3. Computation of grade in a manner other than that used for other students in the class

Grade appeals are resolved in this manner:

1. The grade appeal must be submitted in writing to the division chair within two (2) weeks of the student's receipt of the grade report and must indicate clearly the reason for the grade appeal.
2. A committee of three faculty members, one appointed by the division head (outside the division), one by the student and one by the instructor involved, will determine the facts of the case, which are then to be forwarded to the Dean of Instruction. The committee does not have the authority to change a grade.
3. The decision of the Dean of Instruction may be further appealed to the President, whose decision is final.

Auditing

Students desiring to attend a course without taking the examination or receiving credit for the course may do so by registering to audit that course. Students desiring to audit a course will register in the regular manner and pay the regular tuition. Audited courses carry no credit and do not count as part of the student's course load. Students desiring to change from audit to credit must do so within the official add/drop period. Changes from credit to audit must be made by the official last day for students to withdraw from a class without penalty. Permission of the instructional division chair and the Dean of Instruction is required to audit a course. A student auditing a course may be dropped from the course if that student's place is needed for a student taking the course for credit.

Repeating a Course

Normally, a student is limited to two (2) enrollments in the same credit course. The limitation also includes students receiving grades of R, W or X. A student desiring to take a course more than twice should

formally request permission through a counselor in Student Services. This request will be forwarded to the Dean of Instruction and Student Services or their designee.

Classification of Students

Curricular Student: A curricular student is one who has satisfied all college admission requirements and has been admitted to one of the curricula of the College.

Non-Curricular Student: A non-curricular student is one who is not formally admitted to one of the curricula or developmental studies, but who is classified according to the following student goals or conditions: (1) upgrading employment skills for present job, (2) desiring skills for new job, (3) career exploration, (4) personal satisfaction and general knowledge, (5) transient student, (6) non-degree transfer student, (7) high school student, (8) general or curricular requirements pending and (9) auditing a course.

Developmental Student: A developmental studies student is one enrolled in developmental courses preparing for admission to an occupational/technical or college transfer program.

Full-Time Student: A full-time student is carrying twelve or more credits of course work.

Part-Time Student: A part-time student is carrying less than twelve credits of course work.

Freshman: Students are classified as freshmen until they have completed 30 credits in a designated curriculum.

Sophomore: Students are classified as sophomores after they have completed more than 30 course credits in a designated curriculum. Transferred credits are included, providing they apply toward meeting the requirements of the student's curriculum.

Academic Standing

President's List: Students who carry a minimum of twelve non-developmental credit hours, earn a grade

point average of 3.91 and have no I's, D's or F's will be on the President's List for that semester.

Dean's List: Students who carry a minimum of twelve non-developmental credit hours, earn a grade point average of 3.25 or higher and have no I's, D's or F's will be on the Dean's List for that semester.

Graduation Honors

Appropriate honors are awarded for degrees and certificates based upon the student's cumulative grade point average as follows:

3.8 grade point average—Summa Cum Laude (with highest honors)

3.5 grade point average—Magna Cum Laude (with high honors)

3.2 grade point average—Cum Laude (with honors)

Academic Warning

Any student who fails to maintain a grade point average of 2.0 for any semester or who fails any course will receive an Academic Warning.

Academic Probation

Students who fail to maintain a cumulative GPA of 1.5 shall be on academic probation until such time as their cumulative average is 1.5 or better. The statement "Academic Probation" shall be placed on their permanent records. Generally, students on probation are ineligible for appointed or elected office in student organizations unless special permission is granted by the Director of Student Services or other appropriate college administrator. Students may be required to carry less than a normal course load the following semester and must consult with their counselor about appropriate courses and academic support. Students shall be placed on probation only after they have attempted twelve (12) semester credit hours.

Academic Suspension

Students on academic probation who fail to attain a GPA of 1.5 shall be placed on suspension only after they have attempted twenty-four (24) semester credit

hours. Academic suspension normally shall be for one semester unless the student reapplies and is accepted for readmission to another curriculum of the College. The statement "Academic Suspension" shall be placed on the student's permanent record. Students who have been informed that they are on academic suspension may submit an appeal in writing to the Director of Student Services for reconsideration of their cases. Suspended students may be readmitted after termination of the suspension period and upon formal written petition to the Director of Student Services.

Academic Dismissal

Students who do not maintain at least a 2.0 GPA for the semester of reinstatement to the college when on academic suspension shall be academically dismissed. Students who have returned from academic suspension must achieve a 2.0 GPA for the semester of their reinstatement, at which time they will be placed on academic probation.

Students remain on probation until their cumulative GPA is raised to a minimum of 1.5. Failure to attain a 1.5 GPA in each subsequent semester until the cumulative GPA reaches 1.5 shall result in academic dismissal. Academic dismissal normally is permanent unless, with good cause, students reapply and are accepted under special consideration for readmission by the Director of Student Services. The statement "Academic Dismissal" shall be placed on the student's permanent record.

Readmission Procedures

Students seeking to appeal their academic suspension status or gain readmission after their suspension period must complete the following procedures:

1. Make an appointment with the program counselor and obtain an application for reinstatement
2. Submit a completed application for reinstatement to the Director of Student Services
3. Attend a personal interview or appeal before a committee, at the Director's discretion

The student will be notified of the decision in writing. If the student is readmitted, the notification letter will include a Reinstatement Contract. Students who are denied readmission may appeal to the Dean of Instruction and Student Services.

Academic dismissal is permanent. Students who believe that they have extenuating circumstances may appeal by using the aforementioned proceedings. It should be noted that without clear documentation of special circumstances, appeals of dismissal may be denied without an interview or appearance before a committee.

Academic Renewal

Students whose past academic record may indicate a lack of academic progress and who have not enrolled in the College for five consecutive years, may adjust their grade point average by applying for Academic Renewal. Students interested in Academic Renewal should contact Student Services for more information.

Registration

Students must follow the regular registration procedures as described in the current schedule of classes published each semester. Failure to do so could place a student's academic records in jeopardy.

Registration takes place at the beginning of each semester and during announced periods in the preceding semester. Students should follow established procedures for making any change in their programs after registration. Failure to do so could place academic records in jeopardy.

Academic Advising

Upon full admission to a specific curriculum, most students are assigned a faculty advisor or counselor. That person oversees the student's academic progress, offers consultation on academic schedules, registration and dropping classes and assists the student to meet graduation and/or transfer requirements.

Course Load

The normal academic load carried by students is 15-17 credits. The minimum full-time load is 12 credits and the maximum full-time load is 18 credits. A student wishing to carry an academic load of more than 18 credits should have a B average or higher and must have the approval of both the Dean of Instruction and the appropriate advisor.

If the student has received academic warning or academic probation, he/she may be required to take less than the normal semester course load. Since the maximum academic load is 18 credits, no curriculum may officially list in any publication more than 18 credits per semester.

Addition of a Course

In most cases a student may not enter a new class after the add/drop period of a semester. Any request for entry after that period must be approved by the instructor and the Dean of Instruction.

Attendance

Regular class attendance is required. If absence from a class becomes necessary, it is the responsibility of the student to inform the instructor prior to the absence whenever possible. The student is responsible for the subsequent completion of all study missed during an absence. Any instruction missed and not subsequently completed will necessarily affect the grade of the student, regardless of the reason for the absence.

Frequent unexplained absences may result in dismissal from a course. Instructors may establish a definitive attendance policy for any or all courses for which they are responsible.

Examinations

All students are expected to take course examinations at the regularly scheduled times. No exceptions will be made without the permission of the Dean of Instruction and the class instructor.

Withdrawal from Class

A student may withdraw from a course without academic penalty within the first three-fifths of the semester. Otherwise, the student will receive a grade of "F." Students must withdraw using correct procedures. They must contact instructors prior to requesting withdrawal. Forms are available from counselors/advisors.

A student may be withdrawn administratively for prolonged absence from a course. (See Administrative Withdrawal).

Administrative Withdrawal

As announced by each instructor at the beginning of each course and specified in the course of study, a student can be withdrawn from a course on the written recommendation of the instructor for prolonged, consecutive, unexcused absences. An absence of two weeks is considered prolonged. A student withdrawn from a course in this manner will receive written notification. During a one-week grace period beginning with the date of the administrative withdrawal, the student will be allowed to return to class. At the end of the seven-day period, the student's name will be removed from the class roll. The student may appeal his or her removal to the Dean of Instruction within one week of the effective date.

Withdrawal from the College

A student who wishes to withdraw from the College must contact Student Services to determine the appropriate procedure. Failure to follow established procedures could place the student's college record in jeopardy and prejudice his or her return to this or another college.

Cancellation of Classes

Students registered for classes which are cancelled due to lack of enrollment or other reasons must follow the standard procedures for withdrawal from a class.

Graduation

A Graduate Credentials Checklist, Application for Graduation and the Graduation Information Sheet must be picked up in Student Services and completed by early December. Attendance at the commencement ceremony is required of graduating students unless special permission to be absent is obtained from the Dean of Instruction.

Scholastic Dishonesty

The value of the College's degrees and certificates depends on the academic integrity of the work done by each student; therefore, it is imperative that students maintain a high standard of individual honor in their scholastic work. Scholastic dishonesty, as a general rule, involves one of the following acts:

1. Cheating on an examination or quiz.
2. Giving or receiving, offering or soliciting information on any quiz or examination, including the following classes of dishonesty:
 - (a) Copying from another student's paper.
 - (b) Use during the examination of prepared materials, notes or tests other than those specifically permitted by the instructor.
 - (c) Collaboration with another student during the examination.
 - (d) Buying, selling, stealing, soliciting or transmitting an examination or any material purported to be the unreleased contents of a coming examination or the use of any such materials.
 - (e) Substituting for another person during an examination or allowing such substitutions for one's self.
 - (f) Bribery of any person to obtain examination information.
3. Plagiarism, the appropriation of passages, either word for word or in substance, from the writings of another and the incorporation of these passages as one's own in written work offered for credit.

It is always assumed that the written work offered for credit is the student's own unless proper credit is given the original author by the use of quotation marks or other explanatory

inserts. This includes the copying of laboratory reports and homework or the unchanged use of the essential ideas or conclusions of such work as well as the use of other themes, theses, books or pamphlets without credit.

4. Collusion, collaboration with another person in the preparation or editing of notes, themes, reports or other written work offered for credit.

Examples of collusion include extensive use of another's ideas for preparing a creative assignment or undue assistance in the preparation or editing of written materials. Collusion may be specifically approved in advance by the instructor.

Catalog Requirements

The catalog to be used to determine graduation requirements is the one in effect at the time of initial enrollment in the curriculum from which the student is graduating. However, the student may elect to meet the requirements as published in a subsequent catalog. The graduation requirements as stated in this catalog shall remain in effect for no more than six (6) years.

Assessment

Students may be required to participate in one or more tests, projects or capstone courses designed to measure general education achievement and/or achievement in selected major areas prior to graduation for the purpose of evaluation of academic programs. Program assessment test results will remain confidential and will be used for the sole purpose of improvement of the College. Students may have access to their own test scores upon request. Occupational competency and performance evaluations must be successfully completed for graduation.

VCCS Computer Competency Policy

The Virginia Community College System believes that all students should experience a teaching-learning environment that espouses computer and information literacy in accessing electronic resources and applying knowledge through technology. The VCCS endorses the principle of computer competency for all students

intent on completing a curriculum in excess of 45 semester credits. Students must demonstrate proficiency in specific computer competencies defined within programs and by individual institutions.

Windows-Be able to use the components of the desktop. Be able to create folders and subfolders, copy, move and/or delete files and folders, format floppy disks and use copy disk. Understand the use of the systems tools and their importance.

Word-Be able to create, open, modify and save documents. Use formulas, functions, page setup, format (columns, rows, text and numbers) and print.

Excel-Be able to create, open, modify and save worksheets. Be able to use formulas, functions, page setup, format (columns, rows, text and numbers) and print.

Access-Be able to create, open, modify and save a database. Be able to sort various fields, create a query, form, report and print.

PowerPoint-Be able to create a slide presentation containing text, graphics, sound, animations and transitions. Be able to show and print a presentation.

Internet and E-mail-Be able to access the World Wide Web and use a browser. Be able to perform a search to find specific information and be able to communicate through an E-mail program.

Computer Concepts-Be able to define a computer, hardware and software. Have a basic understanding of input/output devices, peripheral devices, operating systems, productivity software and computer storage. Be familiar with computer terminology. Be able to use prompts, wizards and graphical user interfaces.

Students may also prove their computer competencies by passing the credit-by-exam for IST 113.

DSLCC requires courses in each associate degree curriculum which give students the opportunity to master the above skills.

Student Support Services

Student Support Services is a grant program funded by the U.S. Department of Education through Title IV of the Higher Education Act of 1965 under the TRIO Programs (Student Support Services is one of seven). Housed in The Achievement Center, the program provides academic and personal support services to eligible students in an effort to retain, graduate, and

Student Services

assist the college student in achieving his/her personal and career goals. Student Support Services include:

- career and academic advising for students needing assistance with college or career planning, resume writing, job interviewing skills, and interest inventories
- computer lab usage for word processing needs (reports, essays, and resumes), skill-building tutorial programs (math, reading, and writing), and Internet access (class research, college or career searches, and interest inventories)
- cultural activities, such as reduced-priced or free tickets and transportation to concerts, plays, museums, and historic sites around the region
- mentoring and personal advising for students struggling with academic issues
- specialized services, such as tutoring, note-taking assistance, modified test administration, taped texts, test readers, and scheduled computer usage for students with documented physical or learning disabilities
- study skills instruction in note taking, test taking, time management, and stress management
- transfer assistance in choosing a school, selecting courses, completing admissions applications, financial aid forms, and touring four-year college campuses in the nearby area
- tutorial services are FREE for students needing help with their course work (group and individual sessions are available)

Career Exploration and Job Placement

The College offers career exploration and job placement services. Occupational information is available for those individuals who wish to select or

change a career. Notices of job openings are posted and employment needs of area employers are on file. Special tests and inventories are available for students who desire help in determining their future occupational and educational plans.

Career Exploration and Job Placement Services are located in the Office of Student Services in Backels Hall or in the Achievement Center. Individuals are encouraged to visit these areas and make use of the services available.

Counseling and Advising

As a service to students and to the community, the College maintains a staff of professional counselors and advisors in each instructional program.

Counselors and advisors strive to assist students in making intelligent decisions regarding their vocational, educational and personal/social plans. As a part of this assistance, students have available appropriate tests, inventories, occupational and educational information and information regarding financial assistance or employment.

The counseling available provides individual attention and supplementation to the instructional program of the College.

The College cooperates with the high schools in the region to provide pre-college counseling to those students planning to attend the College. Students in the vicinity will be kept informed of the offerings of the College. In addition, the College works closely with organizations in the community to determine the educational needs and interests of adults in the region. A College representative will respond to requests for information from anyone in the community.

Education for Independence Program

DSLCC receives grant funding to serve single parents (unmarried, divorced or separated), displaced homemakers (homemakers who need a job skill due to disability or layoff of a spouse) and single pregnant women. The grant provides financial assistance for tuition, textbooks and supplies on a semester by

semester basis. Participants may also be eligible for stipends for child care and transportation. In addition to financial assistance, the program provides a support network for all participants through group and individual counseling as well as seminars on life skills, adaptation to the work site, the work ethic and learning independence and self-reliance.

The program is open to all eligible students who have full or joint custody of dependent children. The program is designed to assist students in obtaining a GED and/or a marketable vocational skill in degree or certificate programs.

Student Activities

Student activities cover a wide spectrum, ranging from intramural athletics to presentations in the fine arts. Events at the Moomaw Center planned for students' leisure time on campus include tournaments, lectures, dances and holiday celebrations. DSLCC has an active Student Senate. Programming provided by the Student Activities Office enhances general education goals of the College, especially wellness information and multicultural events.

Intramural and/or Club Sports: Students at DSLCC are welcome to participate in a variety of club and intramural sports, including flag football, baseball, volleyball and softball. All participants in the intramural sports program participate at their own risk and are responsible for treatment of their own injuries.

Orientation: An orientation program is required to acquaint new curriculum students with the procedures and policies of the College. It consists of a required orientation session before classes begin for the semester and a one credit semester course in college survival skills required of all curriculum-placed entering students.

Student Government: The Student Senate serves as a vital link of communication between students, administration and faculty. It works to provide the legislative leadership necessary for the welfare of the students and DSLCC. The Senate has the responsibility of initiating new policies, services and activities for the benefit of the students.

Veterans' Affairs

A Veterans' Affairs Office is maintained to provide veterans and their dependents with information on Veterans' Administration programs, certification for VA educational benefits and counseling and referrals to outside agencies.

Academic Services

Distance Education: Responding to the increasing needs of its students, DSLCC plays an active role in using cutting edge innovations to reach a variety of students in a variety of situations. Through the Virginia Distance Education Network, the Learning Resources Program brings media based, independent learning courses from all VCCS campuses to provide breadth and depth to DSLCC's curriculum. By studying at home and testing at convenient locations, students can attain their educational goals within the flexibility of their personal schedules.

A closed circuit system and facilities are also available to receive teleconferences, international television broadcasts and telecourses via satellite, providing global access and perspective to an ever-changing world.

DSLCC broadcasts courses over state-of-the-art telecommunications equipment to reach off-campus sites and participates in the VCCS statewide compressed video network. These options still maintain the more personal teacher-student interaction in which DSLCC takes great pride.

The statewide computer network adds another component by electronically joining student and instructor and DSLCC is poised to implement that mode of access and delivery to further provide educational opportunity at a distance. Web-based courses are a newly emerging reality on the DSLCC campus.

Learning Resources Center: Located in Scott Hall, the LRC is composed of the Library and the Audio-Visual Department. Its goal is to provide a variety of informational services to students, faculty and the community in a modern, comfortable setting with

state-of-the-art materials, equipment and services; it also provides leadership and assistance in the use of technology to improve the quality of instruction. Normal hours are from 8:00 am to 9:00 pm, Monday through Thursday; 8:00 am to 5:00 pm on Friday; and 2:00 pm to 6:00 pm Sunday.

The LRC contains a collection of over 47,000 volumes to support DSLCC's curriculum as well as provide for a wide range of interests. It subscribes to over 450 serials and has extensive holdings of video cassettes, computer software, compact discs and other non-print materials. Equipment for the use of media is available to viewers in the library. A professional staff is ready to assist with research, library orientations and a variety of skill programs, including training on the World Wide Web via Internet.

The Audio-Visual Department is located adjacent to the library. The department supports modern, creative instruction through supplying a large variety of AV equipment and services to classrooms, library users and nonprofit organizations. All media are acquired, cataloged and distributed by the department and help is available for instructors who would like to create their own media.

Audio-Visual materials and testing services for "independent learning" and distance education courses are also available. The LRC coordinates teleconferencing and instruction via satellite, interactive video, compressed video or other telecommunication formats.

Special Programs

Cooperative Education and Coordinated Internships: The concept of learning through paid or volunteer work in community organizations related to a student's area of study is an integral part of the curriculum offerings at DSLCC. Cooperative Education may serve as elective courses in the respective degree or certificate program or may be a requirement, as in the Forestry degree program. Depending on the nature and number of hours per week involved in the paid employment or volunteer service, students may earn from one to five college

credits per semester. Students are assigned a site supervisor who evaluates job performance and job duties. Students become involved in the program through their respective counselor or faculty advisor.

Foreign Travel Program: DSLCC often has students who wish to expand their education by experiencing other cultures and other people, and has had a number of faculty and staff traveling to these destinations. While keeping the costs reasonable, each year the College will offer a trip to places outside our own boundaries, hearing and speaking other languages, eating different foods and seeing first hand the wonders each destination offers. Please note that the following are PLANNED trips and may be postponed or cancelled at the discretion of the College or the travel industry or due to national and/or international events.

Environmental Explorations: July 8 through 16, 2002. Participants will join the students from the Jackson River Governor's School as they explore the biological diversity and tropical rain forests of Costa Rica. Leaving from Roanoke, participants will tour the Monteverde Biological Preserve, hike the Arenal volcanic area and enjoy the pacific beaches of the Puntarenas region. This tour includes round-trip airfare, lodging, most meals, transportation and entry fees to the various parks.

England and France: During the summer of 2003, DSLCC students, faculty and staff will be traveling to London, Normandy and Paris. Stroll from Trafalgar Square to Convent Gardens, see Buckingham Palace and St. Paul's Cathedral. Across the English Channel, they will visit the islet monastery of Mont-St. Michel. While spending two days in Paris they will see the Arc de Triomphe, Eiffel Tower and the Louvre.

Spring Break 2004 in Cancun: On the Yucatan Peninsula is the largest concentration of Pre-Columbian cities. During the first part of the tour students will visit the Mayan ceremonial centers of Chichen Itza, Uxmal and Tulum, as well as tour the capital city of the Yucatan State, Merida. During the last two days of the tour students can relax on the beaches of Cancun and visit the MTV beach house, eat real Mexican food

and partake of all the facilities that this resort has to offer.

For additional information, tour brochures and applications, please call Chuck Bartocci at 540/863-2892 or e-mail him at cbartocci@dl.vccs.edu.

Auxiliary Services

Bookstore: Textbooks and school supplies are sold in the bookstore, located in the Moomaw Center. Miscellaneous items are also in stock, including DSLCC clothing and gift items.

Students may purchase computer software through the bookstore at special academic pricing during enrollment and up to six months after graduation.

Bookstore Return and Exchange Policy

1. The original sales receipt is required for all refunds and exchanges.
2. No refund will be given if the shrink-wrap is removed from the text.
3. A full refund will be given if the return is made within one week of purchase or the first day of class. No refund will be given after that time.

Food Service: Snacks, hot meals and a variety of sandwiches are available in the grill in the Moomaw Center. Vending machines for snacks and drinks are located in Moomaw Center and in the Armory/Convocation Center.

Continuing Education and Workforce Services

The Continuing Education and Workforce Services Division administers programs at DSLCC to provide continuous educational opportunities and experiences for all college area residents and a comprehensive workforce services program for business and industry.

Continuing Education: Continuing Education is a process of **Continuing Education** lifelong learning for

individuals who are not enrolled in a formally structured curriculum. Continuing Education includes credit courses offered independent of a curriculum to enable individuals to continue their learning experiences, as well as noncredit courses and specialized services providing for the educational needs of the region. These services are offered in formalized classroom instruction, conferences, workshops and seminars and are held on-campus or at convenient off-campus locations.

Workforce Development: DSLCC offers a comprehensive package of workforce services designed to enhance the ability of business and industry to gain and maintain the competitive edge in the marketplace. These services range from training needs assessment to training delivery and evaluation. DSLCC can customize training programs to fit the needs of individuals and organizations that can be offered at the business site or one of the College's training centers. DSLCC is committed to developing partnerships with business, government and the community that promote the economic vitality of the region and improve the overall quality of life.

Economic Development: DSLCC plays an active role in economic development by collaborating with local and state economic development offices to recruit new business and industry to the service region and encourage the expansion of existing business and industry. As a partner in economic development, DSLCC is focused on the goal of enhancing productivity and employment in the college service area by providing a comprehensive workforce services program.

Miscellaneous Information

Accident and Health Insurance: Certain courses at the College include field/laboratory experiences which require safe and prudent behavior on behalf of students and instructors during travel to and from activities, as well as at on-site activities.

DSLCC does not provide accident or health insurance for individual students in these activities. The College assumes no financial responsibility for medical care or emergency services required due to accident or

Misc Information

illness of enrolled students.

Students are encouraged and may be required to obtain accident or health insurance or to provide certified proof of such coverage before participating in certain classes and activities.

Bulletin Boards: Glass-enclosed bulletin boards are official bulletin boards. All notices posted must have the approval of the President or, in his absence, the Dean of Instruction and Student Services. All notices posted on the board will stay for a period of no more than one week. Unofficial bulletin boards in the Moomaw Center are used by the Office of Student Services. Students may place notices on these boards after securing approval from the Coordinator of Student Activities.

Children: Children are not permitted to accompany their parents to classes and are not to be left unattended on campus. Arrangements should be made for off-campus child care.

HIV/AIDS Policy: Discrimination against persons who are HIV positive or who may have AIDS is incompatible with the goals of DSLCC and will not be tolerated. Students, staff and faculty who are HIV positive or who have AIDS will be able to remain in the College as long as they are physically and mentally able to perform their role.

Persons in the college community who need assistance in dealing with issues of HIV/AIDS are encouraged to seek the confidential services of the counselor in Student Services and a variety of community agencies. Information concerning an individual's HIV status will not be provided to anyone without the expressed written permission of the individual.

Inclement Weather Policy: Decisions concerning the closing or late opening of DSLCC due to inclement weather will be made by a college official early each day. The following radio and TV stations will be contacted as soon as it is decided to close school or delay opening (in all probability, prior to 6:30 am for day classes and 3:30 pm for night classes):

Radio Stations

WKEY/WIQO-Covington

WXCF-Clifton Forge

WSLC 610 AM/WSLQ 99 FM-Roanoke

WSLW/WKCJ-White Sulphur Springs, WV

WXLK 92 FM-Roanoke

WRON FM 98-AM 140-Ronceverte, WV

WVTF (NPR) 89.1 FM-Roanoke

Television Stations

WDBJ 7-Roanoke

WSLS 10-Roanoke

Students are urged to listen for information concerning school closing. Each student must ultimately decide whether it is possible or safe to come to class when the College is open. Every attempt will be made to work with students who are forced to be absent due to weather.

Day Classes: During inclement weather the College either will be closed or on a delayed class snow schedule. If newscasts state that DSLCC is opening on a delayed schedule, the following schedule will be observed:

Monday, Wednesday and Friday Classes

Regular Schedule

8:00-8:50 am
9:00-9:50 am
10:00-10:50 am
11:00-11:50 am
12:00-12:50 pm
1:00-1:50 pm
2:00-2:50 pm
3:00-4:15 pm
4:30-5:45 pm

Snow Schedule

10:00-10:40 am
10:45-11:25 am
11:30 am-12:10 pm
12:15-12:55 pm
1:00-1:40 pm
1:45-2:25 pm
2:30-3:10 pm
3:15-4:15 pm
4:30-5:45 pm

Tuesday and Thursday Classes

Regular Schedule

8:00-9:15 am
9:30-10:45 am
11:00 am-12:15 pm
12:30-1:45 pm
2:00-3:15 pm
3:30-4:45 pm

Snow Schedule

10:00-11:10 am
11:15 am-12:25 pm
12:30-1:45 pm
1:50-3:05 pm
3:10-4:20 pm
4:25-6:00 pm

Evening Classes: Decisions concerning cancellation of DSLCC on-campus and off-campus evening classes will be made between 3:00 and 3:30 pm and will be announced on the radio and television.

Non-Academic Grievances: In nonacademic matters when a student's own efforts to solve a grievance fail, he or she will present the grievance, in writing, to the Student Senate at a regularly scheduled meeting. After investigation, the Student Senate will report its findings in writing to the student. If further action is required, the student will be referred to the appropriate dean who, upon request, will select a committee to consider the matter. The committee will consist of two faculty members (one appointed by the appropriate dean and one appointed by the student) and the president of Student Senate. The committee findings will be forwarded to the College President, whose decision is final.

Parking Regulations: Parking space is provided for the students subject to the following regulations:

1. All motorized vehicles regularly operated on the campus by faculty, staff and students must be registered in Student Activities and be suitably marked with the registration decal.
2. No vehicles shall be parked on the campus more than 12 consecutive hours without prior written permission.
3. All motorized vehicles shall be operated in compliance with Virginia state law.
4. The maximum safe speed on campus is indicated by speed limit signs.
5. Illegal parking will be monitored by the Alleghany County Sheriff's Department and ticketed as appropriate.

Photographs: Photographs taken of individual students or groups of students in buildings or outdoors on campus may be used by the College for release to newspapers or other media and for reproduction in the College's publications. If a student does not want a photograph to be used in promotion of the College, that student must notify the photographer at the time the photo is taken or notify the College Public Relations Officer within 24 hours after the photograph is taken.

Room Use: In order to avoid confusion in the use of rooms for extracurricular activities, all student groups requesting facilities should make application through the Dean of Instruction for Backels, Scott and Warren Halls and the Center for Continuing Education and Workforce Services; through the Business Office for Moomaw Center; and through the Maintenance Office for the Armory/Convocation Center. The request should include the name of the group, time, room number and any special facilities required. There is no charge for campus and course-related usage.

Sexual Harassment and Assault: DSLCC will not tolerate sexual harassment or sexual assault in any form. Sexual assault is a flagrant violation of the values and behavioral expectations for the college community and all reported violations will be investigated. Sexual assault is punishable through civil and criminal proceedings, as well as through college disciplinary processes.

Since sexual harassment and assault may involve students, staff and faculty, specific policies have been developed that affect each group. These policies can be found in the this catalog, in the Classified Staff Handbook, the Faculty Handbook and the VCCS Policy Manual (Sec. 3.11). For more information on these policies, contact the Director of Student Services.

Smoking: Smoking is prohibited by state law in all buildings on campus.

Substance Abuse: Unauthorized manufacture, distribution and/or possession of alcoholic beverages, illegal drugs or controlled substances are prohibited from campus or campus-related functions by both state and federal laws. Students who violate state or federal laws may be referred by college authorities for criminal prosecution.

Whether or not a criminal charge is brought, a student is subject to college discipline for illegally manufacturing, distributing, possessing or using any alcoholic beverage, illegal drug or controlled substance. Any student found to have engaged in such conduct is subject to the entire range of sanctions specified by the College, including suspension or expulsion.

Telephones: Pay telephones for student use are located in Moomaw Center, Scott Hall, Backels Hall and the Armory/Convocation Center. Office telephones should not be used by students.

Weapons Policy: Firearms and other dangerous weapons are not permitted on campus unless secured in a locked vehicle. Under no circumstances are such items to be removed from a vehicle and carried on the grounds or into the buildings.

Transfer Programs
Two-Year Associate Degree

Associate in Arts and Sciences

The Associate in Arts and Sciences (A.A. and S.) curricula are designed for students who plan to complete a baccalaureate degree program at a four-year college or university. Courses permitting concentration in areas of particular interest are included in each student's program. The Associate in Arts and Sciences programs each take four semesters or two years of full-time study.

In addition to admission requirements established by the College, satisfactory completion of the following high school units or their equivalent is required:

- 4 units of English
- 3-4 units of college preparatory mathematics, depending on major
- 1 unit of laboratory science
- 1 unit of social science

Specific course requirements for the Associate in Arts and Sciences degree are intended to provide a balanced transferrable foundation in general education. Approximately one-third of the program consists of elective courses which the student chooses in accordance with the course of study he or she plans to pursue at a four-year school. Students planning to transfer to a particular institution should work with both the DSLCC transfer counselor and an advisor at the four year college or university of their choice to assure that all courses taken at DSLCC are necessary and transferable to their chosen four year major.

The specific curricula for the Business Administration, Education, Engineering, General Studies and Science programs are located on the following pages.

The following is a list of typical Humanities Electives and Social Science Electives from which to choose:

		<i>Humanities Electives</i>	
ART	201, 202		History of Art I, II
ENG	150		Children's Literature
ENG	211, 212		Creative Writing I, II
ENG	215, 216		Creative Writing: Fiction I, II
ENG	217, 218		Creative Writing: Poetry I, II
ENG	219		Creative Writing: Drama
ENG	241, 242		American Literature I, II
ENG	243, 244		English Literature I, II
ENG	261, 262		Advanced Creative Writing I, II
ENG	273, 274		Women in Literature I, II
FRE	101, 102		Beginning French I, II
FRE	201, 202		Intermediate French I, II
GER	101, 102		Beginning German I, II
GER	201, 202		Intermediate German I, II
MUS	221, 222		History of Music I, II
PHI	101		Introduction to Philosophy
PHI	111, 112		Logic I, II
PHI	220		Ethics
REL	200, 210		Survey Old/New Testament
REL	231, 232		Religions of the World I, II
SPA	101, 102		Beginning Spanish I, II
SPA	201, 202		Intermediate Spanish I, II
SPD	151, 152		Film Appreciation I, II

		<i>Social Science Electives</i>	
ECO	201, 202		Principles of Economics I, II
HIS	111, 112		History of World Civilization I, II
HIS	121, 122		U.S. History I, II
PLS	135		American National Politics
PLS	136		American State and Local Politics
PSY	200		Principles of Psychology
PSY	215		Abnormal Psychology
PSY	216		Social Psychology
PSY	235		Child Psychology
PSY	236		Adolescent Psychology
PSY	237		Adult Psychology
PSY	238		Developmental Psychology
SOC	200		Principles of Sociology
SOC	215		Sociology of the Family
SOC	268		Social Problems

Additional "Distance Learning" Humanities and Social Science electives may be offered.

Business Administration

The Business Administration program is the first two years of a four-year discipline that combines an intensive general education approach with broad programs in business to provide the fundamentals of sound business theories and practices. It is designed to allow students to transfer into the third year of a four-year college or university business program. It is not intended to prepare students for clerical or similar occupations.

Transfer Major Objectives: Students who transfer after completing this program may wish to major in one of the following fields:

Accounting
Economics
Finance
Management
Marketing

¹IST 113 is an accelerated course designed for students who already have experience with software for word processing, spreadsheets, database and presentation. An eligibility test will be administered. Students not passing the test must enroll for IST 114 to meet the DSLCC computer competency requirement.

²A list of humanities/social science electives is on page 42.

Education

The Education program represents the first two years of a four-year college or university degree in education. This curriculum provides a concentrated general education background in a program leading to a career in teaching at the kindergarten, elementary, middle school, secondary and/or post-secondary levels. After completing the first two years at DSLCC, the student will be able to transfer into the third year of a four-year college or university education discipline designed to prepare students to teach in varied educational settings.

Transfer Major Objectives: Students who transfer after completing this program may wish to pursue licensure in one of the following fields:

Early Childhood Education

Elementary Education

Secondary Education

First Semester (Fall)

Engineering

VWCC/DSLCC Joint Program

Award: Associate in Science Degree from Virginia Western Community College.

Purpose: Engineers are the planners and designers of the technological systems that are the backbone of our modern society. They apply principles of science and mathematics to meet the needs or solve the problems of humankind. These problems typically are multifaceted and involve the interplay of technological, economic, environmental, sociological and political components. For this reason, the engineer requires a background in the humanities and social sciences as well as in mathematics and the natural sciences.

The Associate in Science Degree program in Engineering offered by VWCC/DSLCC is designed for persons who plan to transfer to a four-year school to complete a baccalaureate degree. The following engineering fields are supported by this program: **chemical and mechanical.**

In order to prepare for junior class standing at a four-year school, the student usually must complete a program at the community college that is comparable in length and course content to the first two years of the program at the four-year institution. Students are urged to acquaint themselves with the requirements of the department in the institution to which transfer is contemplated and also to consult with the counseling office of the community college in planning their program and selecting electives.

Curriculum Admission Guidelines: 4 units of English, 5 units of mathematics (2 units of algebra, 1 unit of geometry and 1 unit of advanced math or trigonometry and 1 unit of precalculus); 1 unit of laboratory science; and 1 unit of social studies. Developmental courses may be recommended for students with deficiencies in English and mathematics.

Note: The Virginia Tech engineering curriculum continuously undergoes changes which may result in the need to make adjustments to the VWCC/DSLCC engineering curriculum for students who desire to transfer to that university.

	Hours:	Lec.	Lab	Course
Fall Semester (First)				
CHM 111	College Chemistry	3	3	4
EGR 115	Engineering Graphics*	1	3	2
EGR 124	Intro to Engine/Engine Methods*			
		3	0	3
ENG 111	College Composition I	3	0	3
MTH 173	Calc/Analytic Geo I'	5	0	5
STD 100	Orientation	1	0	1
		16	6	18

¹Students must complete the entire sequence of MTH 173 and 174 in order to satisfy VWCC's MTH 175 Calculus of One Variable I (3 credits), MTH 176 Calculus of One Variable II (3 credits), MTH 177 Introductory Linear Algebra (2 credits) and MTH 178 Topics in Analytic Geometry (2 credits).

²Students should work with their course advisors to select a humanities elective that will be applicable at the senior institution's baccalaureate program to which they wish to transfer. One three-credit humanities elective is required; however, the completion of a sequence would insure transferability. Recommended electives: ENG 241-242, ENG 243-244. Additional transfer electives may be chosen from the list on page 45. However, students should consult with an advisor before making any selections.

Spring Semester (Second)				
CHM 112	College Chemistry II	3	3	4
EGR 126	Comp Prog for Engineers (C++) *			
		3	0	3

**Minimum Credits for Degree:
75 for CE, 71 for ME**

General Studies

The General Studies program provides the first two years of many four year college or university liberal arts majors. A challenging core of requirements is augmented by selected general electives which will be chosen from the humanities, social sciences, natural sciences and mathematics. After completing the first two years at DSLCC, the student will be able to transfer into the third year of a four year college or university liberal arts major.

Transfer Major Objectives: Students who transfer after completing this program may wish to major in one of the following fields:

Criminal Justice
Economics
English
Foreign Language
Government
History
Humanities
Journalism
Philosophy
Political Science
Pre-Law
Psychology
Sociology

¹IST 113 is an accelerated course designed for students who already have experience with software for word processing, spreadsheets, database and presentation. An eligibility test will be administered. Students not passing the test must enroll for IST 114 to meet the DSLCC computer competency requirement.

²A list of humanities/social science electives is on page 42.

Science

The Science program represents the first two years of a four year college or university degree in one of the many natural sciences. In this program a student will engage in the rigorous study of initial courses in mathematics and sciences which lead to the more advanced courses to be taken when the student transfers into the third year of a four year college or university. Also during the first two years, the student will complete humanities and social science requirements and electives, allowing more time in his or her final two years for intensive study in a science major.

Transfer Major Objectives: Students who transfer after completing this program may wish to major in one of the following fields:

Agriculture
Biology
Chemistry
Environmental Protection
Forestry
Geology
Mathematics
Nursing
Pharmacology
Physical Therapy
Physics
Pre-Dental
Pre-Medicine

¹IST 113 is an accelerated course designed for students who already have experience with software for word processing, spreadsheets, database and presentation. An eligibility test will be administered. Students not passing the test must enroll for IST 114 to meet the DSLCC computer competency requirement.

Occupational/Technical Programs

Two-Year Associate Degree

Occupational and Technical Programs

Associate in Applied Science (A.A.S.) Degree Programs

Dabney S. Lancaster Community College awards Associate in Applied Science degrees in eight occupational/technical areas. The Associate in Applied Science degree programs are designed primarily for immediate employment and are based upon occupational needs and trends within the service area of the College. The semester credit hours required in most programs range from 65 to 69 credit hours.

Each A.A.S. program contains a general education component which includes courses in written and oral communications, health or physical education, social sciences, humanities and mathematics, as well as an orientation to the higher education environment. Each degree program includes one or more courses which support computer competency.

Students may aspire to transfer to a four-year institution. Students planning to transfer should work with their counselor and faculty advisor to substitute transferable arts and sciences courses.

Students entering from high school vocational education programs may receive advanced placement (See Advanced Placement). In addition, several programs are Tech Prep Associate Degree (A.A.S.) majors which allow entering students credit for course work previously completed, as stipulated in the official Tech Prep curriculum agreement with feeder high schools. The College is a member of the Tech Prep Educational Consortium of Western Virginia with eight area school divisions.

The major components of the A.A.S. Degree Programs are built upon the knowledge, skills and attitudes that students need to perform successfully in their chosen field. Careful attention should be paid to academic standards which are needed to progress in each of the degree programs, including sequenced courses and prerequisites or corequisites.

TECH PREP

Tech Prep offers a secondary/postsecondary educational career path that provides avenues for students to obtain a technical education, beginning in high school and continuing through college.

Tech Prep links academic and technical studies and uses input from business, industry, government and the community to build a curriculum that leads to successful employment. Tech Prep students may be eligible to earn credit for work completed in high school under existing articulation agreements.

If you are interested in DSLCC Tech Prep options, you should consult your high school counselor, a DSLCC admissions counselor or the Tech Prep Office at 540/863-2923.

Administration of Justice

Purpose: The degree program in Administration of Justice is designed

Related Certificates

Corrections	65
Law Enforcement	67

to prepare individuals for careers in law enforcement and related occupations. Supported by general education, enrollees develop professional competence in the areas of law enforcement administration, police science, the prevention and control of juvenile delinquency, criminal investigation and in-depth drug awareness. The program is primarily for the preparatory student but the experienced officer may receive advanced placement. Students who provide documentation of graduation from accredited law enforcement and correctional academies may be eligible for advanced placement according to the guidelines established by the VCCS articulation agreements with the Virginia State Police and other accredited Department of Criminal Justice Services academies.

Admission Requirements: In addition to general requirements for admission to the College, applicants are advised that virtually all criminal justice agencies set physical and behavioral standards and investigate the moral character of all applicants prior to employment.

Students enrolled in prerequisite courses beyond the first semester should anticipate enrolling in summer session classes to complete the required courses by the end of the second school year. Normally, students enrolled in two or more developmental classes (English, reading or math) need three years to complete the degree requirements. Students wishing to transfer should contact the program advisor and the transfer counselor.

Program Requirements: Approximately two-thirds of the program consists of courses in law enforcement, with remaining courses in related areas, general education and electives. Instruction will include both the theoretical concepts and practical applications needed for future success in law enforcement or related

activities. Upon satisfactory completion of the curriculum with an overall grade point average of 2.0 in all applicable courses, individuals will be awarded the A.A.S. Degree with a major in Administration of Justice.

Administrative Support Technology

Purpose: With the constant growth of business, industry and government offices in our area, there is a continuing demand for qualified men and women in office technologies. This degree program is designed to prepare individuals for full-time employment upon graduation or to upgrade skills of those who are seeking promotion or specialization.

Admission Requirements: In addition to the general requirements of the College, entry into this program requires proficiency in writing and reading skills. Students not proficient in these skills will be required to enroll in appropriate developmental classes. Students who have had training in keyboarding, computer use or other skill areas may be granted advanced placement or elective course credit. Students wishing to transfer should contact the program advisor and the transfer counselor.

Program Requirements: This curriculum combines instruction in general education and those subjects required for competency as an administrative office assistant. Students must receive a grade of "C" or better in Keyboarding I or repeat the course to earn a grade of "C" or better before continuing to the next sequenced course. The student should consult with the faculty advisor in planning a program and approving electives. Upon completion of the program and maintaining an overall grade point average of 2.0 in all applicable classes, the student will be awarded the Associate in Applied Science Degree with a major in Administrative Support Technology.

Business Management

Purpose: With the constant development of business and industry in Virginia, there is a demand for qualified personnel to assist in this economic growth. The program leading to an Associate in Applied Science Degree with a major in Business Management is designed for persons who seek full-time employment immediately upon completion of the program. Both persons seeking their first job in a business and those seeking promotion will benefit from the program.

The required courses in this program are offered on a rotating basis during evening hours so employed persons can complete all degree requirements.

Admission Requirements: In addition to the admission requirements established for the College, entry into this program requires proficiency in English, mathematics and reading. Students who do not meet entry requirements or whose test scores indicate a need for further preparation, will be placed in prerequisite skills courses.

Students enrolled in prerequisite courses beyond the first semester should anticipate enrolling in summer session classes to complete the required courses by the end of the second school year. Normally, students enrolled in two or more developmental classes (English, reading and math) need three years to complete the degree requirements. Students wishing to transfer should contact the program advisor and the transfer counselor.

Program Requirements: Students must achieve an overall grade point average of 2.0 in the curriculum's required courses to be awarded a degree. Upon satisfactory completion of the curriculum, the student will be awarded the Associate in Applied Science Degree with a major in Business Management.

General Business Management: All courses prefixed ACC, AIR, AST, BUS, DRF, ECO, ETR, ENV, FIN, FOR, IND, IST, MKT, PPT, SAF or WEL may qualify as restrictive electives with approval of the advisor/counselor. Cooperative Education 197 and 297 and Coordinated Internship 190 or 290 are acceptable electives, with a maximum of seven credit hours applicable toward the degree. Enrollment is subject to approval of the instructor for Cooperative Education and the advisor.

Computer and Electronics Technology

Purpose: The rapid growth of electronics and related industries has created a steady demand for qualified electronic technicians.

Related Certificate	
Electronics	66
Related Career Studies	
Electronics	73

This program is designed to train persons for full-time employment immediately upon completion. The program also helps employed electronics technicians in local industry to upgrade their skills in this rapidly changing field. Evening courses in electronics are often scheduled to meet the needs of those employed full-time. The program is also a Tech Prep Associate Degree Curriculum in cooperation with area high schools.

Admission Requirements: In addition to the admission requirements of the College, entry into the Associate in Applied Science program with a major in Computer and Electronics Technology requires proficiency in reading, English and mathematics, including one unit of algebra and one unit of geometry or the equivalent. Students who do not meet these requirements or whose test scores indicate a need for further preparation will be placed in prerequisite skills courses. Students should complete prerequisite math courses in the summer session prior to starting the program in the fall. Failure to do this will extend studies one year. Students wishing to transfer should contact the program advisor and the transfer counselor.

Program Requirements: The first year of the program is designed to establish a general base in mathematics, electronic circuits and networks. The second year expands to a number of important areas of electronics, such as computers, microprocessors, programmable logic controllers and analog communication. Approximately one-half of the program includes courses in electronics technology. The remaining courses are in related subjects, general education and electives. Each student must consult with a faculty advisor in planning a program and selecting electives.

Students must achieve an overall grade point average of 2.0 in the required courses of the curriculum to be awarded a degree. Upon satisfactory program

completion, the student will be awarded the Associate in Applied Science Degree with a major in Computer and Electronics Technology and will be prepared to take the A+ Certification Test.

Any ETR class may be cancelled in any given semester if there are insufficient enrollments.

Forestry Technology

Purpose: Forestry and forest-related industries are vital to the economy of Virginia, where 60 percent of the total land area is forested. The use of these resources by forest industries and land management agencies requires forest technicians trained in forest management, protection, timber harvesting and utilization.

This program, the only one of its kind in Virginia, is designed for persons who seek full-time employment in forestry occupations. Graduates from the program will be qualified for positions in forestry, urban tree care and as forest products technicians. This program is recognized nationally by the Society of American Foresters.

Admission Requirements: In addition to the general admission requirements for the College, entry into the program requires proficiency in English, mathematics and reading. The applicants should have completed at least one unit of algebra and one unit of high school geometry or its equivalent. One unit of biology is helpful. Students whose records or test scores indicate a need for prerequisite skills courses will be placed in these courses until such deficiencies are eliminated. Any student who needs prerequisite math courses should anticipate a three-year program of study. This program serves residents throughout the Commonwealth. Students may complete preliminary general education studies at another Virginia community college and transfer to DSLCC to complete the forestry courses needed for the A.A.S. Degree. Two years at DSLCC will still be necessary to complete the forestry courses.

Transfer to the DSLCC forestry technology program necessitates close coordination of required courses or their equivalent with the DSLCC counselors/forestry advisors. To enter the DSLCC forestry technology program, admission should be requested in the fall semester of the student's first year at his/her local community college. Students wishing to transfer should contact the program advisor and the transfer counselor.

Program Requirements: The first year of the forestry technology curriculum provides general education as well as basic forestry subjects.

During the summer, students are required to complete approximately 225 clock hours of paid work/field experience or 180 hours of volunteer experience. The College will assist with placement; however, the student is ultimately responsible for locating and retaining the position as a volunteer or paid employee. The employment must be approved by a forestry instructor and registration must be completed prior to beginning the assignment.

Students must achieve an overall grade point average of 2.0 in the curriculum's required courses to be awarded a degree. Upon successful completion of the program, the student will be awarded the Associate in Applied Science Degree in Forestry Technology.

¹Students considering transfer to a bachelor degree program may need to take specific social science electives. Contact the program advisor and the transfer counselor. A list of social science/humanities electives is on page 42.

Information Systems Technology

Purpose: With the rapid development of computer information systems occupations in business, government and industry in Virginia, there is an increasing demand

for qualified personnel to provide information for management decision making. This program is designed to serve the needs of those seeking initial employment within the information systems technology field plus upgrading and in-service training for those employed in related occupations.

Admission Requirements: In addition to the admission requirements established for the College, this program requires a strong background in mathematics, writing and reading skills. Students who lack proficiency in these areas will be required to enroll in appropriate prerequisite skills courses. Students who do not have computer keyboarding skills of 25 words per minute will be required to enroll in the appropriate class to achieve this competency prior to moving into the second semester. Students wishing to transfer should contact the program advisor and the transfer counselor.

Program Requirements: The curriculum includes technical courses in information systems, business and a core of general education. The first year of the curriculum includes general education courses and introductory courses in information systems and computer programming concepts. The second year expands into microcomputer applications and computer information systems development. Students must receive an overall grade point average of 2.0 in all degree requirements in order to receive the A.A.S. Degree in Information Systems Technology.

Nursing

The LPN to RN Ladder Program	Related Certificate
Level I: Licensed Practical Nursing	Advanced Health Care 63
	Related Career Studies
	Introductory Health Care 73

Accreditation: The Practical Nursing Program is accredited by the Virginia State Board of Nursing.

Purpose: The three semester program leading to a Certificate in Practical Nursing is designed to prepare students to deliver safe and competent nursing care to patients with usual or expected outcomes. Practical nurses work under the supervision of practitioners with higher degrees in acute and non-acute care settings. After successful completion of Level I, students will be eligible to take the National Council Licensing Examination leading to licensure as a licensed practical nurse (LPN). Students may also choose to continue into Level II of the program and earn an Associate in Applied Science Degree and be eligible to take the National Council Licensing Examination leading to licensure as a registered nurse (RN).

Occupational Objectives: Employment opportunities for the licensed practical nurse include staff positions with hospitals, physicians' offices and nursing homes.

Level II: Associate in Applied Science in Nursing Degree

Accreditation: The Associate Degree Nursing Program is accredited by the Virginia State Board of Nursing and the National League for Nursing, which may be reached at 800/669-9656, extension 227.

Purpose: This portion of the LPN to RN Ladder Program is designed for students who have already earned a Certificate in Practical Nursing and who wish to continue their education for an additional two semesters to earn an Associate in Applied Science Degree. Students will be prepared to serve as qualified members of the health team, rendering safe, direct patient care as beginning practitioners of nursing in a variety of health care settings. After successful

completion of the program, students will be eligible to take the National Council Licensing Examination leading to licensure as a registered nurse (RN). Students wishing to transfer should contact the program advisor and the transfer counselor.

Occupational Objectives: Employment opportunities for the registered nurse include staff positions with hospitals, nursing homes, physicians' offices, community agencies, schools, industry and home health care providers.

Admission Requirements for the LPN to RN Ladder: Early application is suggested since space is limited. Applications for the new class beginning in the fall semester may be made to the nursing department beginning in November of the preceding year.

In addition to requirements for general admission to the College, entry into the nursing curriculum is based on the following requirements:

1. Applicants must have graduated from high school or hold a GED.
2. Applicants must have taken high school courses in biology, algebra and chemistry. High school records of achievement must reflect a "C" average in academic subjects.
3. Students' DSLCC records must show a GPA of 2.0 or higher.
4. Students must achieve satisfactory placement test scores in reading, writing, basic math and algebra. Applicants with deficiencies may qualify for admission through satisfactory completion of a prescribed developmental and/or pre-nursing program. All developmental courses must be completed prior to applying to the program. Students must complete physical and dental examinations following admission. Immunization and laboratory testing are included. Applicants must be free of any physical or psychosocial problems which adversely affect their performance as practitioners of nursing.
5. Applicants must satisfy the point system qualification. Students are admitted based on a point system. Information on the point system may be obtained in the nursing office or in Student

Services. Preference is given to residents of the service region.

6. Students must have no legal impediment. The State Board of Nursing has the authority to deny licensure to any applicant who has violated any of the provisions of 54-367.32 of the Code of Virginia. Any student entering the nursing program who has committed any illegal offenses other than minor traffic violations should discuss these matters with the Nursing Program Head for clarification prior to admission.
7. Students must hold current CPR certification by the end of the first semester.

Admission with Advanced Standing: Admission for former nursing students, transfers and others with previous nursing experience is considered for advanced placement on an individual basis. LPN's may apply to the LPN Bridge Program.

Program Requirements: It is the responsibility of the student to refer to the Nursing Student Handbook for clarification of nursing program policies and legal limitations for licensure.

The student must complete all support courses either preceding or concurrently with the appropriate nursing course as indicated in the curriculum plan. This requirement does not apply to electives.

A student receiving a final grade lower than a "C" in any nursing course, biology courses, psychology courses or in nutrition will be ineligible to continue in the nursing courses.

The student is required to complete a plan of courses and learning experiences provided at the College and selected community agencies, such as special and general hospitals, nursing homes, clinics, physicians' offices and comparable facilities. The nursing faculty will observe and evaluate the student's suitability for nursing and direct patient care.

Transportation to and from institutions and clinical agencies is each student's personal responsibility.

Clinical Contracts: Individual contracts are in effect with each affiliate clinical agency and these contracts differ in requirements made of students. The general stipulations are as follows:

1. Clinical agencies reserve the right to dismiss a student from their agency at any time with due cause. This will be done with advance notice except in an emergency.
2. Proper uniform must be worn.
3. Students must adhere to published policies of the hospitals.
4. Immunizations must be current.
5. The student releases the hospital, its agents and employees from liability for injury or death to themselves or damage to their property arising out of agreement or use of the hospital's facilities.
6. The student releases the hospital and DSLCC from medical expenses arising from injuries that occur during clinical rotations.

Contracts for each agency are available in the nursing office and may be reviewed by students upon request.

Program Cost: In addition to the regular college tuition and cost of books, students in the program are required to buy uniforms and accessories.

Technical Studies in Welding

The A.A.S. degree in Technical Studies has been developed in cooperation with various firms and the community colleges.

This is a unique degree proposal, in as much as it will provide a structure for developing major areas of study identified by local industry and formal experiential learning experiences into a cohesive degree program to meet immediate and often short-term education and training needs.

Related Certificate

Welding.....70

Related Career Studies

Certificate Programs

In addition to Associate in Applied Science Degree Programs, DSLCC offers Certificate Programs which provide entry-level job skills based upon local employment needs. The Certificate Programs are also appropriate for employed individuals who wish to upgrade their present job skills or prepare for promotion.

Many Certificate Programs are related to an Associate in Applied Science Degree Program, while others are self-contained. When the program is part of an Associate in Applied Science Degree Program, credits will be applied toward the degree program requirements, should the student pursue further study. ***Other Certificate Programs may qualify for the Associate in Applied Science Degree in Technical Studies. Students should see their counselor to***

see if their Certificate Program can be applied toward the Technical Studies program.

The DSLCC Continuing Education and Workforce Services Division provides certificates which are not related to associate degree programs. These are designed to provide students with programs in specific work-related skills. The College works with local employers to design programs which will lead to employment in local businesses and industries.

A certificate program requires a minimum of 30 semester credit hours. The majority of the courses relate specifically to employment skills, but each Certificate Program contains a general education component that includes a course in English.

Advanced Health Care

Purpose: The Certificate in Health Care includes courses which are valuable for those who plan to enter a health care career. These courses would also prove useful for those students who wish to pursue a nursing degree since many of them are required in that curriculum as well.

<i>Related Assoc Degree</i>	
Nursing	58
<i>Related Career Studies</i>	
Introductory Health Care	73

Admissions Requirements: In addition to the general admission requirements of the College, entry into the health care curriculum is based on the following requirements:

1. Graduation from high school or GED
2. High school courses in biology, algebra and chemistry
3. GPA of 2.0 or higher
4. Satisfactory scores on placement tests in reading, algebra, basic math and writing

Students not achieving satisfactory scores may enroll in additional courses to correct deficiencies.

Program Requirements: A student must achieve a grade of "C" or better in health, psychology and biology.

First Semester

Business and Industrial Communications

Purpose: The program is designed to emphasize areas of business in which communication skills are paramount. Employers have stressed the need for strong employee communication skills in order to perform needed team functions and to advance in job responsibilities.

Admission Requirements: Admission to the program is based upon the general requirements for admission to the College. Deficiencies in general education may require prerequisite skills courses.

Program Requirements: The program requires completion of selected specialized courses. All electives must be approved prior to enrollment. A Certificate is awarded upon completion of the program with an overall 2.0 GPA.

Core Component¹

BUS	100	Introduction to Business	3
BUS	110	Business Protocol	-or-
BUS	201	Organizational Behavior	3

IND	137	Team Concepts/Problem Solving	3
EEE	***	Restrictive Electives ²	6

Minimum credit hours for certificate: 30

¹Completion of the core component results in the award of a Career Studies Certificate in Business Communications.

²Students will select six (6) credit hours of electives approved for the program. Other courses may be substituted as restrictive electives on a case-by-case basis after the review and recommendation of the advisory committee. The restrictive electives should be selected to provide training that will fill gaps in the individual's knowledge required to maintain job level or advancement.

Clerical Support

Purpose: This program is designed to provide entry level employment skills for occupations in clerical support areas.

<i>Related Assoc Degree</i>	
<i>Admin Support Tech.....</i>	<i>52</i>
<i>Related Career Studies</i>	
<i>Word Processing</i>	<i>76</i>

Admissions Requirements: In addition to the general admission requirements of the College, this program requires proficiency in mathematics, writing and reading of English. Students not proficient in these areas will be required to enroll in prerequisite skills courses. Students who have some training in keyboarding, computer use or other clerical skill areas may be granted advanced placement or elective course credit.

Program Requirements: The curriculum requires the student to complete office skills courses, including communications and mathematics, needed to function in an office. Students must receive a "C" or better in the Keyboarding I and Word Processing I before proceeding to the next sequenced course. Upon completion of the program and maintaining an overall GPA of 2.0 in all applicable classes, the student will be awarded the Clerical Support Certificate.

Pulp and Paper Technology

DSLCC offers a wide range of courses to individuals seeking a greater understanding of the papermaking process. DSLCC offers classes and training programs for individuals that are new to the industry, as well as those that are experienced in the papermaking business. Individuals interested in pursuing a formal program should contact Chuck Bartocci, Program Head for Pulp and Paper Technology.

Westvaco Pre-Employment Training Program

To be considered for employment with Westvaco, it is necessary for candidates to complete a Pre-Employment Training Class offered by DSLCC. Individuals must first meet the prerequisites for the class through placement testing or previous completion of appropriate course work. The PETC covers information relevant to the papermaking process and work in an industrial environment.

Individuals who successfully complete the PETC will be awarded three college credits and be referred to the local Virginia Workforce Center for registration. The VWC will forward candidate information to Westvaco for consideration in the Westvaco selection process.

Welding

Purpose: With the trend toward a global economy and the introduction of new exotic materials with welding processes

<i>Related Assoc Degree</i>
<i>Tech Studies in Welding 61</i>
<i>Related Career Studies</i>
<i>Welding..... 76</i>

and procedures to weld them, there is a demand for highly skilled, highly trained welders possessing decision making and hands-on skills. The program is designed to prepare welders for this exciting challenge and certification tests.

Admission Requirements: Students must meet the general admission requirements of the College. Successful completion of the curriculum requires proficiency in communications, an understanding of applied mathematics, a moderate level of dexterity and average mechanical aptitude.

Persons who have completed a high school welding program or industrial courses in welding may receive credit and/or advanced placement upon demonstration of proficiency.

The curriculum provides an introduction to various types of welding equipment and materials. The curriculum includes math, blueprint reading, completion skills, safety and numerous skill areas of welding, i.e., gas tungsten arc welding, shielded metal-arc welding, gas metal arc welding, pipe welding and oxyacetylene and plasma cutting.

Program Requirements: Students must achieve an overall 2.0 GPA in the curriculum's applicable courses to be awarded a Welding Certificate.

Career Studies Certificate Programs ***Short Term Programs***

The Career Studies Certificate Program is a response to the nontraditional, short-term program educational needs of many adults. Many of the courses are offered during evening hours so that it is possible for an individual to earn a certificate while remaining employed. Career Studies Certificates require between nine and 29 semester credit hours. While some career studies certificates are related to certificate or Associate in Applied Science Programs, others are self-contained.

The DSLCC Continuing Education and Workforce Services Division provides career studies certificates which are not related to associate degree programs. These are designed to provide students with programs

in specific work-related skills. The College works with local employers to design programs which will lead to employment in local businesses and industries.

Admission to the program is based upon the general requirements for admission to the College. Deficiencies in general education may require prerequisite skills courses.

Program Requirements: The program requires completion of selected specialized courses. All electives must be approved prior to enrollment. A Career Studies Certificate is awarded upon completion of the program with an overall GPA of 2.0 and may be earned in more than one option.

Wilderness Recreation

Curriculum

EQUIPED/RPK		Electives	9
HLT	105	Health (CPR and First Aid)	1
HLT	106	First Aid and Safety	2
RPK	120	Outdoor Recreation	3
RPK	135	Program Planning	3
			18

Electives

EQU	140	Fund of Equitation (Horseback Riding)	3
PED	127	Mountain Cycling	1
PED	133	Golf I	1
PED	141	Swimming	1
PED	148	Snowboarding	1
PED	178	Whitewater Canoeing	1
PED	180	Orienteering	1
PED	181	Downhill Skiing	1
PED	188	Freshwater Fishing	1
RPK	205	Rock Climbing	1
RPK	206	High Ropes Course	1
RPK	216	Recreational Backpacking	2
RPK	225	Canoe Camping	2

Minimum credits required for CSC: 18

Course Numbers: Courses numbered 01-09 are in the developmental program. The credits earned in these courses are not applicable toward certificate programs or an associate degree. Students may retake these courses two (2) semesters until the course objectives are completed. Permission of the Dean of Instruction is required to re-enroll beyond the two semester limit.

Courses numbered 10-99 are basic occupational courses for certificate programs and not applicable toward an associate degree.

Courses numbered 100-199 are freshman level courses applicable toward an associate degree or certificate program.

Courses numbered 200-299 are sophomore level courses applicable toward an associate degree program.

Course Credits: The credit for each course is indicated after the title in the course description. One credit is equivalent to one collegiate semester hour.

Course Hours: The number of lecture hours in class each week (including lecture, seminar and discussion hours) and/or the number of laboratory hours in class each week (including laboratory, shop, supervised practice and cooperative work experience) are indicated for each course in the course description. The number of lecture and laboratory hours in class

each week are also called "contact hours" because the time is spent under the direct supervision of a faculty member. In addition to the lecture and laboratory hours in class each week as listed in the course description, each student also must spend some time on out-of-class assignments under his or her own direction. Usually a student may expect to spend two to three hours on out-of-class work each week for each hour spent in class.

Prerequisites: If any prerequisites are required to enroll in a course, they will *usually* be identified in the course description. Courses in special sequences (usually identified by the numerals I-II) require that prior courses or their equivalent be completed before enrolling in the advanced courses in the sequence.

Course Descriptions

When corequisites are required, this means that two courses identified in the description may be taken at the same time.

Courses Offered: The following is a listing of courses which may be offered during any calendar year. Additional courses may be offered as demand dictates. Many courses (required or electives) are offered in the evening program.

Accounting

ACC 211 Principles of Accounting I (3-4 cr)

Presents accounting principles and their application to various businesses. Covers the accounting cycle, income determination and financial analysis. Includes an introduction to cost and managerial accounting. A laboratory co-requisite (ACT 213) may be required as identified by the college. Prerequisite MTH 03. Lecture 3-4 hours per week.

ACC 212 Principles of Accounting II (3-4 cr)

Continues Accounting Principles 211 with emphasis on the application to partnerships, corporations and the study of financial analysis. Includes an introduction to cost and managerial accounting. Prerequisite MTH 03. A laboratory co-requisite (ACT 214) may be required as identified by the college. Lecture 3-4 hours per week.

Administration of Justice

ADJ 100 Survey of Criminal Justice (3 cr)

Presents an overview of the United States criminal justice system; introduces the major system components—law enforcement, judiciary and corrections. Lecture 3 hours per week.

ADJ 105 The Juvenile Justice System (3 cr)

Presents the evolution, philosophy, structures and processes of the American juvenile delinquency system; surveys the rights of juveniles, dispositional alternatives, retention methods and current trends. Prerequisites ENG 01 and 05. Lecture 3 hours per week.

ADJ 128 Patrol Administration and Operations (3 cr)

Studies the goals, methods and techniques of police patrol with focus on the norms which govern work behavior in a police career. Examines the responsibilities of administrators and field supervisors of patrol in the local and state law enforcement agencies. Lecture 3 hours per week.

ADJ 140 Introduction to Corrections (3 cr)

Focuses on societal responses to the offender. Traces the evolution of practices based on philosophies of retribution, deterrence, and rehabilitation. Reviews contemporary correctional activities and their relationships to other aspects of the criminal justice system. Lecture 3 hours per week.

ADJ 145 Corrections and the Community (3 cr)

Studies and evaluates the relationships and interactions between correctional organizations and free society. Focuses on the shared responsibility of the community and corrections agencies to develop effective programs for management and treatment of criminal offenders. Lecture 3 hours per week.

ADJ 146 Adult Correctional Institutions (3 cr)

Describes the structures, functions, and goals of state and federal correctional institutions (prisons, farms, community-based units, etc.) for adult inmates. Lecture 3 hours per week.

ADJ 147 Local Adult Detention Facilities (3 cr)

Studies security procedures in adult detention facilities, the criteria for effective supervision of inmates, the correctional aspects of inmate discipline, and the handling of "special inmates." Presents concepts, programs, and planning considerations for jail management and the operation of adult detention facilities. Lecture 3 hours per week.

ADJ 190 Coordinated Internship (1-3 cr)

Allows the student to be placed in a criminal justice agency (police, courts, corrections) for a practical exposure and experience with a working department. Usually requires 12 credit hours of ADJ prior to placement. See the ADJ advisor.

ADJ 195 Special Topics In Criminal Justice (3 cr)

Considers contemporary issues, problems and controversies in modern law enforcement. Prerequisites ENG 01 and 04. Lecture 3 hours per week.

ADJ 198 Techniques of Interviewing (3 cr)

This course will provide the student with essential skills and techniques necessary to obtain quality information from victims, witnesses and suspects, regarding criminal activity. Emphasis will be placed upon locations and settings for interviews, kinesics, proxemics and paralinguistics of both the interviewer and interviewee.

ADJ 201 Criminology (3 cr)

Studies current and historical data pertaining to criminal and other deviant behavior. Examines theories that explain crime and criminal behavior in human society. Prerequisites ENG 01 and 04. Lecture 3 hours per week.

ADJ 211-212 Criminal Law, Evidence and Procedures I-II (3 cr)(3 cr)

Teaches the elements of proof for major and common crimes and the legal classification of offenses. Studies the kinds, degrees and admissibility of evidence and its presentation in criminal proceedings with emphasis on legal guidelines for methods and techniques of evidence acquisition. Surveys the procedural requirements from arrest to final disposition in the various U. S. court systems with focus on the Virginia jurisdiction. Prerequisites ENG 01 and 05. Lecture 3 hours per week.

ADJ 228 Narcotics and Dangerous Drugs (3 cr)

Surveys the historical and current usage of narcotics and dangerous drugs. Teaches the identification and classification of such drugs and emphasizes the symptoms and effects on their users. Examines investigative methods and procedures utilized in law enforcement efforts against illicit drug usage. Prerequisites ENG 01 and 04. Lecture 3 hours per week.

ADJ 236 Principles of Criminal Investigation (3 cr)

Surveys the fundamentals of criminal investigation procedures and techniques. Examines crime scene search, collecting, handling and preserving of evidence. Prerequisites ENG 01 and 04. Lecture 3 hours per week.

ADJ 237 Advanced Criminal Investigation (3 cr)

Introduces specialized tools and scientific aids used in criminal instruction. Applies investigative techniques to specific situations and preparation of trial evidence. Prerequisite ENG 01, ENG 04 and ADJ 236 or permission of instructor. Lecture 3 hours per week.

ADJ 241 Correctional Law (3 cr)

Studies the legal rights and obligations of the convict-probationer, inmate, and parolee. Surveys methods of enforcing both rights and obligations and the responsibilities of corrections agencies and personnel under correctional law (constitutional, statutory and regulatory provisions). Lecture 3 hours per week.

ADJ 245 Management of Correctional Facilities (3 cr)

Describes management options and operational implications for staffing, security, safety, and treatment. Considers impact of changes in public policy on corrections. Lecture 3 hours per week.

ADJ 246 Correctional Counseling (3 cr)

Presents concepts and principles of interviewing and counseling as applied in the correctional setting. Lecture 3 hours per week.

ADJ 247 Criminal Behavior (3 cr)

Introduces and evaluates the concepts of normal and abnormal behavior. Focuses on the psychological and sociological aspects of criminal and other deviant behavior patterns. Prerequisites ENG 01 and 04. Lecture 3 hours per week.

ADJ 248 Probation, Parole and Treatment (3 cr)

Surveys the philosophy, history, organization, personnel and functioning of traditional and innovative probation and parole programs; considers major treatment models for clients. Lecture 3 hours per week.

Administrative Support Technology

AST 101 Keyboarding I (3 cr)

Teaches the alpha/numeric keyboard with emphasis on correct techniques, speed and accuracy. Teaches formatting of basic personal and business correspondence, reports and tabulation. Lecture 3 hours per week.

AST 102 Keyboarding II (3 cr)

Develops keyboarding and document production skills with emphasis on preparation of specialized business documents. Continues skill-building for speed and accuracy. Prerequisite AST 101. Lecture 3 hours per week.

AST 107 Editing/Proofreading Skills (3 cr)

Develops skills essential to creating and editing business documents. Covers grammar, spelling, diction, punctuation, capitalization and other usage problems. Prerequisite ENG 01. Lecture 3 hours per week.

AST 117 Keyboarding for Computer Usage (1 cr)

Teaches the alphabetic and numeric keys; develops correct techniques and competency in the use of computer keyboards. May include basic correspondence and report formats. Lecture 1 hour per week.

AST 132 Word Processing I (1 cr)

Introduces students to a word processing program to create, edit, save and print documents. Lecture 1 hour per week.

AST 133 Word Processing II (1 cr)

Presents formatting and editing features of a word processing program. Lecture 1 hour per week.

AST 137 Records Management (3 cr)

Teaches filing and records management procedures for hard copy, electronic and micrographic systems. Identifies equipment, supplies and solutions to records management problems. Lecture 3 hours per week.

AST 142 Word Processing (3 cr)

Teaches advanced software applications. Prerequisite AST 141 or equivalent. Lecture 3 hours per week.

AST 147 Introduction to Presentation Software (1-2 cr)

Introduces presentation options including slides, transparencies and other forms of presentations. Lecture 1-2 hours per week.

AST 150 Desktop Publishing I (1 cr)

Presents desktop publishing features including page layout and design, font selection and use of graphic images.

AST 206 Professional Development (3 cr)
Develops professional awareness in handling business and social situations. Emphasizes goal setting, critical thinking, decision making and employment skills. Lecture 3 hours per week.

AST 243 Office Administration I (3 cr)
Develops an understanding of the administrative support role and the skills necessary to provide oral and technical support in a contemporary office setting. Emphasizes the development of critical-thinking, problem solving and job performance skills in a business office environment. Prerequisite AST 102, IST 114. Lecture 3 hours per week.

AST 244 Office Administration II (3 cr)
Enhances skills necessary to provide organizational and technical support in a contemporary office setting. Emphasizes administrative and supervisory role of the office professional. Includes travel and meeting planning, office budgeting and financial procedures, individual issues and career development. Prerequisite AST 243 or equivalent. Lecture 3 hours per week.

AST 253 Advanced Desktop Publishing (3 cr)
(Specify Software)
Introduces specific desktop publishing software. Teaches document layout and design, fonts, type styles, style sheets and graphics. Prerequisite AST 142 or equivalent and experience in using a word processing package. Lecture 3 hours per week.

AST 260 Presentation Software (2-4 cr)
Teaches creation of slides including use of text, clip art and graphs. Includes techniques for enhancing presentations with on-screen slide show as well as printing to transparencies and handouts. Incorporates use of sound and video clips. A laboratory co-requisite (AST 261) may be required. Lecture 2-4 hours per week.

Air Conditioning and Refrigeration

AIR III-II2 Air Conditioning and Refrigeration Controls I-II (2-3 cr)(2-3 cr)
Presents electron theory, magnetism, Ohm's Law, resistance, current flow, instruments for electrical measurement, A.C. motors, power distribution controls and their application. Lecture 1-2 hours per week; laboratory 2-3 hours per week.

AIR I21-I22 Air Conditioning and Refrigeration I-II (3-4 cr)(3-4 cr)
Studies refrigeration theory, tools and equipment, soldering, brazing, refrigeration systems, system components, compressors, evaporators, metering devices. Provides laboratory application of refrigerators and freezers. Lecture 2 hours per week; laboratory 2 hours per week. Total 4-6 hours per week.

AIR I23-I24 Air Conditioning and Refrigeration III-IV (3 cr)(3 cr)
Explores psychometric properties of air, heat load and gain calculation, heated and chilled water systems, duct design, air distribution and air comfort requirements. Prerequisite AIR I22. Lecture 2 hours per week; laboratory 2 hours per week.

AIR I34-I35 Circuits and Controls I-II (3-4 cr)(3-4 cr)
Presents circuit diagrams for air conditioning units, reading and drawing of circuit diagrams, types of electrical controls. Includes analysis of air conditioning circuits, components, analysis and characteristics of circuits and controls, testing and servicing. Introduces electricity for air conditioning which includes circuit elements, direct current circuits and motors, single and three-phase circuits and motors, power distribution systems and protective devices. Studies the electron and its behavior in passive and active circuits and components. Demonstrates electronic components and circuits as applied to air conditioning systems. Lecture 2-3 hours per week; laboratory 2-6 hours per week.

AIR I54-I55 Heating Systems I-II (3-4 cr)(3-4 cr)
Introduces types of fuels and their characteristics of combustion; types, components and characteristics of burners and burner efficiency analyzers. Studies forced air heating systems including troubleshooting, preventive maintenance and servicing. Lecture 2-3 hours per week; laboratory 2-6 hours per week. Total 4-8 hours per week.

Art

ART 201-202 History of Art I-II (3 cr)(3 cr)
Studies the historical context of the art of the ancient, medieval, renaissance and modern worlds. Includes research project. Prerequisite ENG 01 and 04; corequisites ENG 03 and 05. Lecture 3 hours per week.

Astronomy

NAS 130 Elements of Astronomy (4 cr)
Covers the history of astronomy and its recent developments. Stresses the use of astronomical instruments and measuring techniques and includes the study and observation of the solar system, stars and galaxies. Prerequisite ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week; recitation and laboratory 3 hours.

NAS 131-132 Astronomy I-II (4 cr)(4 cr)
Studies the major and minor bodies of the solar system, stars and nebulae of the milky way and extra galactic objects. Examines life and death of stars origin of the universe, history of astronomy and instruments and techniques of observation. Prerequisite ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week; recitation and laboratory 3 hours per week

Biology

BIO 100 Basic Human Biology (3 cr)
Presents basic principles of human anatomy and physiology. Discusses cells, tissues and selected human systems. Prerequisites ENG 01 and 04. Corequisite ENG 05. Lecture 3 hours per week.

BIO 101-102 General Biology I-II (4 cr)(4 cr)
Explores fundamental characteristics of living matter from the molar level to the ecological community with emphasis on general biological principles. Introduces the diversity of living organisms and their structure, function and evolution. Prerequisites ENG 01, ENG 04 and MTH 03. Corequisites ENG 03 and 05 lecture 3 hours per week; recitation and laboratory 3 hours per week.

BIO 141-142 Human Anatomy and Physiology I-II (4 cr)(4 cr)
Integrates anatomy and physiology of cells, tissues organs and systems of the human body. Integrates concepts of chemistry, physics and pathology. Lecture 3 hours per week; laboratory 2-3 hours per week.

BIO 149 Microbiology for Allied Health (1 cr)
Studies the characteristics of microorganisms that are especially important to programs in the allied health fields. This course also emphasizes these characteristics in regard to individual and community health. Prerequisites: ENG 03, ENG 05, MTH 04 and NAS 05. Lecture 1 hour per week.

BIO 150 Introductory Microbiology (4 cr)
Studies the general characteristics of microorganisms. Emphasizes their relationships to individual and community health. Prerequisites ENG 03, ENG 05, MTH 04 and NAS 05. Lecture 3 hours per week; recitation and laboratory 3 hours per week.

BIO 215 Plant Life of Virginia (3 cr)
Focuses on identification and ecological relationships of the native plants of Virginia. Emphasizes shrubs, vines, weeds, wildflowers, ferns and mushrooms. Prerequisites ENG 01 and 04. Lecture 2 hours per week. Recitation and laboratory 3 hours per week.

BIO 270 General Ecology (2 cr)
Studies interrelationships between organisms and their natural and cultural environments with emphasis on populations, communities and ecosystems. Prerequisite ENG 01, ENG 04 and BIO 101-102 or divisional approval. Lecture 1 hours per week; recitation and laboratory 3 hours.

BIO 275 Marine Ecology (4 cr)
Applies ecosystem concepts to marine habitats. Includes laboratory and field work. Prerequisite BIO 101-102 or divisional approval. Lecture 3 hours per week; recitation and laboratory 3 hours per week.

Building

BLD 111 Blueprint Reading and the Building Code (3 cr)
Introduces reading and interpreting various kinds of blueprints and working drawings with reference to local, state and national building codes.

Business

BUS 100 Introduction to Business (3 cr)
Presents a broad introduction to the functioning of business enterprise within the U.S. economic framework. Introduces economic systems, essential elements of business organization, production, human resource management, marketing, finance and risk management. Develops business vocabulary. Lecture 3 hours per week

BUS 110 Business Protocol (3 cr)
Presents basic business etiquette, customs and protocol for individuals desiring to succeed in the global business environment. Presents information on new manners relating to diversity, plurality, family values, sexual freedom, substance abuse, hiring and firing practices. Discusses dress, language, communication traditions, socializing, traveling and meeting protocol. Lecture 3 hours.

BUS 111 Principles of Supervision I (3-4 cr)
Teaches the fundamentals of supervision, including the primary responsibilities of the supervisor. Introduces factors relating to the work of supervisor and subordinates. Covers aspects of leadership, job management, work improvement, training and orientation, performance evaluation and effective employee/supervisor relationships. Lecture 3-4 hours per week.

BUS 116 Entrepreneurship (3 cr)

Presents the various steps considered necessary when going into business. Includes areas such as product-service analysis, market research evaluation, setting up books, ways to finance startup, operations of the business, development of business plans, buyouts versus starting from scratch and franchising. Uses problems and cases to demonstrate implementation of these techniques. Lecture 3 hours per week.

BUS 117 Human Relations and Leadership Development (3 cr)

Covers interpersonal relations in hierarchical structures. Examines the dynamics of teamwork, motivation, handling change and conflict and how to achieve positive results through others. Lecture 3 hours per week.

BUS 121 Business Mathematics I (3 cr)

Applies mathematical operations to business and problems. Reviews operations, equations, percents, sales and property taxes, insurance, checkbook and cash records, wage and payroll computations, depreciation, overhead, inventory turnover and valuation, financial statements, ratio analysis, commercial discounts, markup and markdown. Lecture 3 hours per week.

BUS 122 Business Mathematics II (3 cr)

Applies mathematical operations to business processes and problems. Reviews basic statistics, distribution of profit and loss in partnerships, distribution of corporate dividends, simple interest, present value, bank discount notes, multiple payment plans, compound interest, annuities, sinking funds and amortization. Lecture 3 hours per week.

BUS 165 Small Business Management (3 cr)

Identifies management concerns unique to small businesses. Introduces the requirements necessary to initiate a small business, and identifies the elements comprising a business plan. Presents information establishing financial and administrative controls, developing a marketing strategy, managing business operations, and the legal and government relationships specific to small businesses. Lecture 3 hours per week.

BUS 200 Principles of Management (3 cr)

Teaches management and the management functions of planning, organizing, leading and controlling. Focuses on application of management principles to realistic situations managers encounter as they attempt to achieve organizational objectives. Lecture 3 hours per week.

BUS 201 Organizational Behavior (3 cr)

Presents a behaviorally oriented course combining the functions of management with the psychology of leading and managing people. Focuses on the effective use of human resources through understanding human motivation and behavioral patterns, conflict management and resolution, group functioning and process, the psychology of decision making and the importance of recognizing and managing change. Lecture 3 hours per week.

BUS 205 Human Resource Management (3 cr)

Introduces employment, selection, and placement of personnel, forecasting, job analysis, job descriptions, training methods and programs, employee evaluation systems, compensation, benefits, and labor relations. Lecture 3 hours per week.

BUS 206 Public Relations in Management (3 cr)

Presents public relations as a management responsibility and introduces the theory of public relations. Focuses on public relations techniques and their application to gaining and maintaining understanding and support for an organization from the employee, community, customer, supplier and stockholder. Uses lectures, demonstrations and case problems. Lecture 3 hours per week.

BUS 207 Interviewing and Counseling Skills for Business (3 cr)

Examines various types of interviewing situations that generally arise in the workplace such as hiring orienting, coaching, motivating, problem solving, disciplining, appraising performance and terminating an employee. Includes variables that affect interviews and increase confidence in this type of interpersonal communication. Prerequisite BUS 115. Lecture 3 hours per week.

BUS 209 Continuous Quality Improvement (3 cr)

Presents the different philosophies in quality control. Introduces students to process improvement, team development, consensus building and problem solving strategies. Identifies methods for process improvement in manufacturing and service organizations, which includes statistical process control when used in the quality control function of business and industry. Lecture 3 hours per week.

BUS 221 Business Statistics I (3 cr)

Focuses on statistical methodology in the collection organization, presentation and analysis of data; concentrates on measures of central tendency, dispersion, probability concepts and distribution, sampling, statistical estimation, normal and T distribution and hypotheses for means and proportions. Prerequisite MTH 163 or division approval. Lecture 3 hours per week.

BUS 222 Business Statistics II (3 cr)

Continues study of inferential statistics and application of statistical techniques and methodology in business. Includes analysis of variance, regression and correlation measurement of business and economic activity through the use of index numbers, trend, cyclical and seasonal effects and the Chi-Square distribution and other non-parametric techniques. Prerequisite BUS 221 or division approval. Lecture 3 hours per week.

BUS 236 Communication in Management (3 cr)

Introduces the functions of communication in management with emphasis on gathering organizing and transmitting facts and ideas. Teaches the basic techniques of effective oral and written communication. Lecture 3 hours per week.

BUS 241 Business Law I (3 cr)

Presents a broad introduction to legal environment of U.S. business. Develops basic understanding of contract law, agency and government regulation. Lecture 3 hours per week.

Chemistry

CHM 100 Introduction to Chemistry (3 cr)

Introduces chemical concepts to students not intending to specialize in a chemistry field. Emphasizes basic inorganic principles. Lecture 2 hours. Laboratory 2 hours.

CHM III-II2 College Chemistry I-II (4 cr)(4 cr)

Explores the fundamental laws, theories and mathematical concepts of chemistry. Designed primarily for science and engineering majors. Prerequisites ENG 04 and MTH 03. Corequisite ENG 05. Lecture 3 hours per week; laboratory 3 hours per week.

CHM 241-242 Organic Chemistry I-II (3 cr)(3 cr)

Introduces fundamental chemistry of carbon compounds, including structure, physical properties, syntheses and typical reactions. Emphasizes reaction mechanisms. Prerequisite CHM 112 or divisional approval. Corequisites CHM 243-244. Lecture 3 hours per week.

CHM 243-244 Organic Chemistry Laboratory I-II (1 cr)(1 cr)

Is taken concurrently with CHM 241 and CHM 242. Prerequisites CHM 112 or division approval. Laboratory 3 hours per week.

Child Care

CHD 118 Language Arts for Young Children (3 cr)

Presents techniques and methods for encouraging the development of language and perceptual skills in young children. Stresses improvement of vocabulary, speech and methods to stimulate discussion. Surveys children's literature, examines elements of quality story telling and story reading and stresses the use of audiovisual materials. Lecture 2 hours per week; laboratory 2 hours per week.

CHD 120 Introduction to Early Childhood Education (3 cr)

Introduces early childhood development through activities and experiences in nursery, pre-kindergarten, kindergarten and primary programs. Investigates classroom organization and procedures and uses of classroom time and materials, approaches to education for young children, professionalism and curricular procedures. Lecture 3 hours per week.

CHD 125 Creative Activities for Children (3 cr)

Prepares individuals to work with young children in the arts and other creative age-appropriate activities. Investigates affective classroom experiences and open-ended activities. Lecture 2 hours per week; laboratory 2 hours per week.

CHD 205 Guiding the Behavior of Children (3 cr)

Explores positive ways to build self-esteem in children and help them develop self-control. Presents practical ideas for engineering pro-social behavior in children and emphasizes basic skills and techniques in classroom management. Lecture 3 hours per week.

Drafting

DRF III-II2 Technical Drafting I-II (3 cr)(3 cr)

Introduces technical drafting from the fundamentals through advanced drafting practices. Teaches lettering, geometric construction, technical sketching, orthographic projection, sections, intersections, developments, fasteners, theory and applications of dimensioning and tolerances. Includes pictorial drawing and preparation of working and detail drawings. Lecture 2 hours per week; laboratory 3 hours per week.

DRF 161 Blueprint Reading I (2 cr)

Teaches the application of basic principles, visualization orthographic projection, detail of drafting shop processes and terminology, assembly drawings and exploded views. Considers dimensioning, changes and corrections, classes of fits, tolerances and allowances, sections and convention in blueprint reading. Lecture 1 hour per week; laboratory 3 hours per week.

DRF 166 Welding Blueprint Reading (2 cr)
Teaches welding procedures and applications. Stresses structural steel, design, layout. Explains industrial symbols. Lecture 1 hour per week; laboratory 3 hours per week.

DRF 201 Computer Aided Drafting and Design I (3-4 cr)
Teaches computer-aided drafting concepts and equipment designed to develop a general understanding of components of a typical CAD system and its operation. Lecture 2-3 hours. Laboratory 2-3 hours. Total 4-6 hours per week.

DRF 202 Computer Aided Drafting and Design II (3-4 cr)
Teaches production drawings and advanced operations in computer aided drafting. Lecture 2-3 hours. Laboratory 2-3 hours. Total 4-6 hours per week.

Economics

ECO 201 Principles of Economics I: Macroeconomics (3 cr)
Introduces macroeconomics including the study of Keynesian, classical, monetarist principles and theories, the study of national economic growth, inflation, recession, unemployment, financial markets, money and banking, the role of government spending and taxation, along with international trade and instruments. Prerequisites ENG 01 and 04 and MTH 03; Corequisite ENG 03 and 05. Lecture 3 hours per week.

ECO 202 Principles of Economics II: Microeconomics (3 cr)
Introduces the basic concepts of microeconomic. Explores the free market concepts with coverage of economic models and graphs, scarcity and choices, supply and demand, elasticities, marginal benefits and costs, profits and production and distribution. Prerequisites ENG 01 and 04 and MTH 03; Corequisite ENG 03 and 05. Lecture 3 hours per week.

Education

EDU 110 Introduction to Child Care (3 cr)
Prepares students for participation in child care setting. Stresses adjusting to institutional life, family and cultural background factors and understanding physical, social and emotional needs of children. Lecture 3 hours per week.

EDU 118 Methods and Materials in the Language Arts for Young Children (3 cr)
Presents techniques and methods for encouraging the development of language and perceptual skills in young children. Stresses improvement of vocabulary, speech and methods to stimulate discussion. Surveys children's literature, examines elements of quality story telling and story reading and stresses the use of audiovisuals materials. Lecture 2 hours per week; laboratory 2 hours per week.

EDU 120 Introduction to Early Childhood Education (3 cr)
Introduces early childhood development through activities and experiences in nursery, pre-kindergarten, kindergarten and primary program. Investigates classroom organization and procedures, use of classroom time and materials, approaches to education for young children, professionalism and curriculum procedures. Lecture 3 hours per week.

EDU 200 Introduction to Teaching as a Profession (3 cr)
Provides an orientation to the teaching profession in Virginia, including historical perspectives, current issues, and future trends in education on the national and state levels. Emphasizes information about teacher licensure examinations, steps to certification, teacher preparation and induction programs, and attention to critical shortage areas in Virginia. Includes supervised field placement (recommended: 40 clock hours) in a K-12 school. Prerequisite: Successful completion of 24 credits of transfer courses. Lecture 2 hours. Laboratory 2 hours. Total 4 hours per week.

EDU 235 Health, Safety and Nutrition Education (3 cr)
Focuses on the physical needs of children and explores strategies to meet these needs. Emphasizes positive health routines, hygiene, nutrition, feeding and clothing habits, childhood diseases and safety. Places emphasis on the development of food habits and concerns in food and nutrition. Variable lecture/laboratory hours per week.

Electrical Technology

ELE 115 Basic Electricity (2-3 cr)
Covers basic circuits and theory of fundamental concepts of electricity. Presents a practical approach to discussion of components and devices. Prerequisite: MTH 02 or equivalent. Lecture 2-3 hours per week.

ELE 131 National Electrical Code I (3 cr)
Provides comprehensive study of the purpose and interpretations of the National Electric Code as well as familiarization and implementation of various charts, code rulings and wiring methods, including state and local regulations. Lecture 3 hours per week.

ELE 239 Programmable Controllers (3 cr)
Deals with installation, programming, interfacing and concepts of troubleshooting programmable controllers. Co/Prerequisite ELE 211 or equivalent or permission of instructor. Lecture 2 hours per week; laboratory 2 hours per week.

Electronics

ETR 115 DC and AC Circuits (3-4 cr)
Studies current flow in direct and direct and alternating current circuits with emphasis upon practical problems. Reviews mathematics used in circuit calculations. Introduces concepts of resistance, capacitance, inductance and magnetism. Focuses on electronics/circuits application. Lecture 3-4 hours per week.

ETR 141-142 Electronics I-II (3 cr)(3 cr)
Introduces electronic devices as applied to basic electronic circuits and systems. Lecture 3 hours per week. Must be taken in sequence.

ETR 149 PC Repair (2-3 cr)
Teaches the maintenance, troubleshooting and repair of personal computer systems. Uses IBM or compatible computer systems to provide fault isolation drill and practice. Lecture 1-2 hours per week; laboratory 2-6 hours. Total 3-7 hours per week.

ETR 260 Electronic Circuits and Instrumentation (4-5 cr)
For Non-Electrical/Electronic Majors
Covers electronic circuits, devices and instrumentation, A.C. and D. C. circuit theory, electronic circuits involving amplifiers, oscillators and their applications. Includes troubleshooting practices. Lecture 3-4 hours per week; laboratory 3 hours per week.

ETR 267-268 Microprocessor Applications I and II (3 cr)(3cr)
Includes interfacing the CPU to peripheral equipment, displays, control circuits and systems. Teaches sequential operation, the programming, and analysis of microprocessor and complementary chips. Emphasizes instrumentation and microprocessor. May require preparation of a report as an out-of-class activity. Lecture 2 hours. Laboratory 2 hours. Total 4 hours per week.

ETR 279 Digital Principles, Terminology and Applications (4 cr)

Studies digital principles, terminology and applications covering number systems, arithmetic, Boolean algebra, Karnaugh maps and advanced logic circuits such as A/D, D/A displays and others. Prerequisite ETR 113 or equivalent. Lecture 3 hours per week; laboratory 3 hours per week.

ETR 280 Introduction to Digital Logic Circuits and Computers (4 cr)

Studies digital logic, Boolean algebra and arithmetic circuits, using standard integrated circuits and the functional block approach. May include the study of registers, encoding and decoding and multiplexing. Introduces concepts of computers, the internal option and control language. Prerequisite ETR 279 or equivalent. Lecture 3 hours per week; laboratory 3 hours per week.

ETR 285 Fundamentals of Microcomputer Repair (4 cr)

Provides the student with an exposure to the various techniques and procedures used to troubleshoot a microcomputer. May include an overview of a particular microprocessor system, use of isolation flow charts, test point charts, prints, diagnostic routines, component testing and fault isolation labs. Lecture 3 hours per week; laboratory 3 hours per week.

Engineering

EGR 100 Engineering Technology Orientation (1 cr)
Focuses on the roles and responsibilities of the engineering team, professional ethics, problem solving with hand calculator and computer applications. Laboratory 2 hours per week.

EGR 115 Engineering Graphics (2-3 cr)
Applies principles of orthographic projection, and multi-view drawings. Teaches descriptive geometry including relationships of points, lines, planes and solids. Introduces sectioning, dimensioning and computer graphic techniques. Includes instruction in Computer Aided Drafting. Lecture 1-2 hours. Laboratory 3 hours. Total 4-5 hours per week.

EGR 124 Introduction to Engineering and Engineering Methods (3 cr)

Introduces the engineering profession, professionalism and ethics. Covers problem presentation, engineering calculations, digital computer applications, word processing, worksheets, programming in FORTRAN or C++ and elementary numerical methods. Lecture 3 hours per week.

EGR 126 Computer Programming for Engineers (3 cr)

Introduces computers, their architecture and software. Teaches program development using flowcharts. Solves engineering problems involving programming in languages such as FORTRAN, PASCAL, or C++. Lecture 2-3 hours. Laboratory 0-2 hours. Total 3-4 hours per week.

EGR 140 Engineering Mechanics-Statics (3 cr)

Introduces mechanics of vector forces and space, scalar mass and time, including S.I. and U.S. customary units. Teaches equilibrium, free-body diagrams, moments, couples, distributed forces, centroids, moments of inertia analysis of two-force and multi-force members. Lecture 3 hours per week.

EGR 245 Engineering Mechanics-Dynamics (3 cr)

Presents approach to kinematics of particles in linear and curvilinear motion. Teaches Newton's second law, work-energy and power, impulse and momentum and problem solving using computers. Lectures 3 hours per week.

EGR 246 Mechanics of Materials (3 cr)

Teaches concepts of stress, strain, deformation, internal equilibrium and basic properties of engineering materials. Analyzes axial loads, torsion, bending, shear and combined loading. Studies stress transformation and principle stresses, column analysis and energy principles. Lecture 3 hours per week.

English

ENG 01 Preparing for College Writing I (3 cr)

Helps students discover and develop writing processes needed to bring their proficiency to the level necessary for entrance into their respective curricula. Guides students through the process of starting, composing, revising and editing. Variable hours per week.

ENG 03 Preparing for College Writing II (3 cr)

Emphasizes strategies within the writing process to help students with specific writing situations. Develops techniques to improve clarity of writing and raise proficiency to the level necessary for entrance into particular curricula. Prerequisite ENG 01. Variable hours per week.

ENG 04 Reading Improvement I (3 cr)

Helps students improve their reading processes to increase their understanding of reading materials. Includes word forms and meanings, comprehension techniques and ways to control reading pace. Variable hours per week.

ENG 05 Reading Improvement II (3 cr)

Helps students read critically and increase application of reading. Guides students in making inferences, drawing conclusions and developing relationships between generalizations and supporting details. Prerequisite ENG 04. Variable hours per week.

ENG 100 Basic Occupational Communication (3 cr)

Develops ability to communicate in occupational situations. Involves writing, reading, speaking, and listening. Builds practical skills such as handling customer complaints, writing various types of letters, and preparing for a job interview. (Intended for certificate and diploma students.) Prerequisite ENG 01 and 04. Lecture 3 hours per week.

ENG 101-102 Practical Writing I-II (3 cr)(3 cr)

Develops writing ability for study, work and other areas of life with emphasis on occupational correspondence and reports. Guides students in learning writing as a process: understanding audience and purpose, exploring ideas and information, composing, revising and editing. Supports writing by integrating experiences in thinking, reading, listening and speaking. Prerequisites ENG 03 and 04. Corequisite ENG 05. Lecture 3 hours per week.

ENG 107 Critical Reading (3 cr)

Helps students refine their reading processes. Emphasizes applying and synthesizing ideas. Includes ways to detect organization, make inferences, draw conclusions, evaluate generalizations, recognize differences between facts and opinions and other advanced comprehension strategies. Prerequisite ENG 05. Lecture 3 hours per week.

ENG 111-112 College Composition I-II (3 cr)(3 cr)

Develops writing ability for study, work and other areas based on experience, observation, research and reading of selected literature. Guides students in learning writing as a process: understanding audience and purpose, exploring ideas and information, composing, revision and editing. Supports writing by including, composing, retaining and editing. Supports writing by including experiences in thinking, reading, listening and speaking. Prerequisites ENG 03 and 04. Corequisite ENG 05. Lecture 3 hours per week.

ENG 115 Technical Writing (3 cr)

Develops ability in technical writing through extensive practice in composing technical reports and other documents. Guides students in achieving voice, tone, style and content in formatting, editing and graphics. Introduces students to technical discourse through selected reading. Prerequisites ENG 05 and III. Lecture 3 hours per week.

ENG 135 Applied Grammar (3 cr)
Develops ability to edit and proofread correspondence and other documents typically produced in business and industry. Instructs the student in applying conventions of grammar, usage, punctuation, spelling and mechanics. Prerequisites ENG 05 and III. Lecture 3 hours per week.

ENG 150 Children's Literature (3 cr)
Surveys the history of children's literature, considers learning theory and developmental factors influencing reading interests and uses bibliographic tools in selecting books and materials for recreational interests and educational needs of children. Prerequisites ENG 05 and III. Lecture 3 hours per week.

ENG 210 Advanced Composition (3 cr)
Helps students refine skills in writing nonfiction prose. Guides development of individual voice and style. Introduces procedures for publication. Prerequisite ENG 112 or divisional approval. Lecture 3 hours per week.

ENG 211-212 Creative Writing I-II (3 cr)(3 cr)
Introduces the student to the fundamentals of writing imaginatively. Students write in forms to be selected from poetry, fiction, drama and essays. Prerequisite ENG 112 or divisional approval. Lecture 3 hours per week.

ENG 215-216 Introduction to Fiction I-II (3 cr)(3 cr)
Introduces the fundamentals and techniques of writing short and long fiction. Lecture 3 hours per week. English 112 or divisional approval are prerequisites.

ENG 217-218 Creative Writing-Poetry I-II (3 cr)(3 cr)
Introduces the fundamentals and techniques of writing poetry. English 112 or divisional approval are prerequisites. Lecture 3 hours per week.

ENG 219 Creative Writing-Drama (3 cr)
Introduces the fundamentals and techniques of writing plays. English 112 or divisional approval are prerequisites. Lecture 3 hours per week.

ENG 241-242 Survey of American Literature I-II(3 cr)(3 cr)
Examines American literary works from Colonial times to the present, emphasizing the ideas and characters of our national literature. Involves critical reading and writing. Prerequisite ENG 112 or divisional approval. Lecture 3 hours per week.

ENG 243-244 Survey of English Literature I-II (3 cr)(3 cr)
Studies major English works from the Anglo-Saxon period to the present, emphasizing ideas and characters of the British literary tradition. Involves critical reading and writing. Prerequisite ENG 112 or divisional approval. Lecture 3 hours per week.

ENG 251-252 Survey of World Literature I-II (3 cr)(3 cr)
Examines major works of world literature. Involves critical reading and writing. Prerequisite ENG 112 or divisional approval. Lecture 3 hours per week.

ENG 253-254 Survey of African-American Literature I-II (3 cr)(3 cr)
Examines selected works by Black American writers from the colonial period to the present. Involves critical reading and writing. Prerequisite ENG 112 or divisional approval. Lecture 3 hours per week.

ENG 261-262 Advanced Creative Writing I-II (3 cr)(3 cr)
Guides the student in imaginative writing in selected genres on advanced level. Prerequisite ENG 112 or divisional approval. Lecture 3 hours per week.

ENG 273-274 Women in Literature I-II (3 cr)(3 cr)
Examines literature by and about women. Involves critical reading and writing. Prerequisite ENG 112 or divisional approval. Lecture 3 hours per week.

Environmental Science

ENV 220 Environmental Problems (3 cr)
Studies the relationship of man to his environment; ecological principles, population dynamics, topics of current importance including air, water and noise pollution; poisoning and toxicity, radiation, conservation and management of natural resources. Lecture 3 hours per week.

Equine Management

**EQU 140 Fundamentals of Equitation (3 cr)
(Horseback Riding)**
Introduces the basics of proper position at the walk, trot and canter for the beginning rider. Lecture 2 hours per week. Laboratory 2 hours per week.

Finance

FIN 107 Personal Finance (3 cr)
Presents a framework of personal money management concepts, including establishing values and goals, developing sources of income, managing income, preparing a budget, developing consumer buying ability, using credit, understanding savings and insurance, providing for adequate retirement and estate planning. Lecture 3 hours per week.

FIN 110 Principles of Banking (3 cr)
Presents nearly every aspect of banking, providing a comprehensive introduction to the diversified services and operations of the banking industry. Focuses on new trends gaining attention in banking circles. Recommended for all banking students. (AIB approved.) Lecture 3 hours per week.

FIN 115 Personal Investments (2-3 cr)
Examines personal financial investments, money management and risk reward strategies. Covers most widely employed investment instruments, including current information on stocks, bonds, mutuals, real estate, limited partnerships and tax sheltering devices. Lecture 2-3 hours per week.

FIN 215 Financial Management (3 cr)
Introduces basic financial management topics including statement analysis, working capital, capital budgeting and long-term financing. Focuses on Net Present Value and Internal Rate of Return techniques, lease vs. buy analysis and Cost of Capital computations. Uses problems and cases to enhance skills in financial planning decision making. Lecture 3 hours per week.

FIN 240 Money and Banking (3 cr)
Introduces the concept of money supply and the role of banks as money creators and as participants in the nation's payments mechanism. Explores the working of fiscal and monetary policy, the functions and powers of the Federal Reserve system and various monetary theories. Also highlights major trends and issues in banking and international banking. (AIB approved.) Lecture 4 hours per week.

Forestry

FOR 105 Forest and Wildlife Ecology (4 cr)
Studies the interrelationships of organisms and the natural and cultural environments with emphasis on human influences, ecological structures, survey of populations, communities and ecosystems. Prerequisites ENG 01, ENG 04. Corequisites ENG 03, ENG 05. Lecture 3 hours per week; laboratory 3 hours per week.

FOR 115 Dendrology (4 cr)
Studies classification, identification and silvical characteristics of trees and shrubs botanically and commercially important to the forests of eastern United States. Emphasizes field characteristics of trees and common shrubs of the eastern United States. Prerequisites ENG 01, ENG 04. Lecture 3 hours per week; laboratory 3 hours per week.

FOR 125 Forest Fire Control (1 cr)
Examines forest fire behavior. Includes factors causing ignition and spread, methods of fire prevention, presuppression and suppression and forest fire control organizations. Lecture 1 hour per week.

FOR 135 Wildlife and Fisheries Management (4 cr)
Introduces the principles of wildlife and fisheries management. Emphasizes practices in the eastern United States. Lecture 3 hours per week; laboratory 3 hours per week.

FOR 201 Forest Mensuration I (4 cr)
Teaches principles of forest measurements including basic elements of property boundary, location, forest mapping, techniques of tree measurement and saw log and pulp wood scaling. Prerequisites ENG 05 and MTH 115 or equivalent. Lecture 3 hours per week; laboratory 3 hours per week.

FOR 202 Forest Mensuration II (4 cr)
Teaches principles of timber cruising, including both fixed and variable size plot techniques. Utilizes aerial photographs and global positioning system (GPS) to locate land features, cruise tracts, timber types and plot sample locations. Prerequisite FOR 201. Lecture 3 hours per week; laboratory 3 hours per week.

FOR 215 Applied Silviculture (4 cr)
Focuses on theory and practices involved in controlling the forest establishment, composition and growth. Laboratory emphasizes observation and application of various silviculture procedures, including site preparation, regeneration and intermediate treatments. Prerequisite FOR 201. Lecture 3 hours per week; laboratory 3 hours per week.

FOR 226 Woodlot Management (2 cr)
Applies the principles and practices of forestry to the establishment and management of the public or private woodlot. Lecture 2 hours per week.

FOR 227 Timber Harvesting (5 cr)
Teaches harvesting methods, including physical layout, economics, contracts, water management, protection consideration, equipment operation and maintenance and woods safety. Prerequisite FOR 201. Lecture 3 hours per week; laboratory 6 hours per week.

FOR 229 Sawmilling (5 cr)
Studies arrangement, installation and safe operation of a sawmill. Introduces the basic principles of hardwood lumber and log grades. Prerequisite FOR 227. Lecture 3 hours per week; laboratory 6 hours per week.

FOR 245 Forest Products (2 cr)
Introduces forest products. Teaches tree growth, structure and composition of wood for use in wood products. Emphasizes the relationship between wood and water. Prerequisite FOR 201. Lecture 2 hours per week.

FOR 246 Urban Forestry (4 cr)
Examines the care, maintenance, establishment and management of trees and related plants in an urban environment. Emphasizes non-commodity values of trees in an urban environment. Prerequisite FOR 201. Lecture 3 hours per week; laboratory 3 hours per week.

FOR 290 Coordinated Internship In Forestry (3 cr)
Supervised on-the-job training without pay in selected business, industry or service organizations coordinated by the college. Permission of the instructor is required. Laboratory 40 hours per week. Prerequisite FOR 201, FOR 125. 180 hours total for the term.

FOR 297 Cooperative Education in Forestry (3 cr)
Supervised on-the-job training with pay in selected business, industry or service organizations coordinated by the college. Permission of the instructor is required. Laboratory 40 hours per week. Prerequisite FOR 201, FOR 125. 225 hours total for the term.

French

FRE 101-102 Beginning French I-II (4 cr)(4 cr)
Introduces understanding, speaking, reading and writing skills and emphasizes basic French sentence structure. Lecture 4 hours per week. May include one additional hour of oral practice per week.

FRE 201-202 Intermediate French I-II (4 cr)(4 cr)
Continues to develop understanding, speaking, reading and writing skills. French is used in the classroom. Prerequisite French 102 or equivalent. Lecture 4 hours per week. May include one additional hour of oral practice per week.

Geography

GEO 200 Introduction to Physical Geography (3 cr)
Studies major elements of the natural environment including earth sun relationship, land forms, weather and climate, natural vegetation and soils. Introduces the student to types and uses of maps. Lecture 3 hours per week.

German

GER 101-102 Beginning German I-II (4-5 cr)(4-5 cr)
Introduces understanding, speaking, reading and writing skills and emphasizes basic German sentence structures. Lecture 4-5 hours per week. May include one additional hour oral practice per week.

GER 201-202 Intermediate German I-II (3-4 cr)(3-4 cr)
Continues to develop understanding, speaking, reading and writing skills. German is used in the classroom. Prerequisite GER 102 or equivalent. Lecture 3-4 hours per week. May include one additional hour oral practice per week.

Health

HLT 105 Cardiopulmonary Resuscitation (CPR) (1 cr)
Provides training in coordinated mouth-to-mouth artificial ventilation and chest compression. Teaches responses to choking, life-threatening emergencies and sudden illness. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 1 hour per week.

HLT 106 First Aid and Safety (2 cr)
Focuses on the principles and techniques of safety and first aid. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 2 hours per week.

HLT 109 CPR Recertification (1 cr)
Provides training in coordinated mouth-to-mouth artificial ventilation and chest compression, choking, life-threatening emergencies and sudden illness. Lecture 1 hour per week.

HLT 110 Concepts of Personal and Community Health (3 cr)
Studies the concepts related to the maintenance of health, safety and the prevention of illness at the personal and community level. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 2 hours per week.

HLT 117 Individual Health Awareness (3 cr)
Introduces the student to the systems of the body and the major structures and functions of each system. Students will learn the common disorders which affect each system and how the disorders may be diagnosed and treated. Through an understanding of preventive measures and medical resources, the student will be able to assume a greater responsibility for the health and wellness of self and others. Lecture 3 hours per week.

HLT 121 Drug Use and Abuse (3 cr)
Explores the use and abuse of drugs in contemporary society with emphasis upon sociological, physiological and psychological effects of drugs. Lecture 3 hours per week.

HLT 138 Principles of Nutrition (1 cr)
Studies nutrient components of food, including carbohydrates, fats, proteins, vitamins, minerals and water. Provides a behavioral approach to nutrient guidelines for the development and maintenance of optimum wellness. Lecture 1 hour per week.

HLT 143-144 Medical Terminology I-II (3 cr)(3 cr)
Provides an understanding of medical abbreviations and terms. Includes the study of prefixes, suffixes, word stems and technical terms with emphasis on proper spelling, pronunciation and usage. Emphasizes more complex skills and techniques in understanding medical terminology. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

HLT 170 Introduction to Massage (1 cr)
Introduces the student to the field of massage therapy. Student practices basic Swedish massage strokes, aromatherapy, effleurage, petrossage and friction, as well as indications and contraindication for massage. Laboratory 3 hours per week.

HLT 180 Therapeutic Massage I (3 cr)
Introduces the student to the history and requirements for massage therapy. Covers the terms and practice of massage with introduction to equipment, safety and ethics as well as massage movements and techniques. Includes information about the benefits of massage, contraindications, client interviews, client-therapist relationship, draping, good body mechanics and anatomical landmarks. Basic massage techniques are blended into a relaxing, health enhancing full-body session preparing the student for their student clinic experience. Lecture 1 hour per week; laboratory 6 hours per week.

HLT 230 Principles of Nutrition and Human Development (3 cr)
Teaches the relationship between nutrition and human development. Emphasizes nutrients, balanced diet, weight control and the nutritional needs of an individual. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

HLT 280 Therapeutic Massage II (3 cr)
Relates human anatomy and physiology to massage and bodywork. Training continues with various joint movements that may be integrated into a massage session and with an introduction to sports massage. Hands-on skills include a system of body mobilization techniques, as well as various stretching techniques. Sports massage is taught as an application for physically active clients and includes principles of health related fitness, core exercises, pre-and post-event massage and hydrotherapy. Lecture 1 hour per week; laboratory 6 hours per week.

HLT 281 Therapeutic Massage III (3 cr)
Introduces the concept of consultation, client management, session design and integration of specific therapeutic approaches into a full-body session. Students learn to give specific therapeutic attention to the regions of the back, neck and torso. Using knowledge of muscle anatomy, students perform more advance massage techniques to address hypertonicity, chronic ischemia, trigger points, fibrotic tissue, adhesions and scar tissue. Myofascial technique forms of deep-tissue massage are added to the students' skill base. Includes common clinical applications in the body regions covered and the integration of specific techniques into a full-body session. Lecture 1 hour per week; laboratory 6 hours per week.

HLT 290 Pharmacy Technician Lab and Clinical Practice (4 cr)
Teaches specific skills needed in the pharmacy including basics of general pharmacy, packages, measuring compounds of drugs, dosage forms, drug laws and clinical considerations. Provides practical experience in a pharmacy. Lecture 6 hours per week. Lab 9 hours per week.

Health Information Technology

HIT 253 Health Records Coding (4-5 cr)
Examines the development of coding classification systems. Introduces ICD-9-CM coding classification system, its format and conventions. Stresses basic coding steps and guidelines according to body systems. Provides actual coding exercises in relation to each system covered. Lecture 3-4 hours; laboratory 0-3 hours.

History

HIS 111-112 History of World Civilization I-II (3 cr)(3 cr)
Surveys Asian, African, Latin American and European civilizations from the ancient period to the present. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

HIS 121-122 United States History I-II (3 cr)(3 cr)
Surveys United States history from its beginning to the present. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

Horticulture

HRT 117 Tools and Equipment (2 cr)
Introduces tools and equipment used in commercial horticulture. Emphasizes power-operated equipment including spreaders, sprayers, saws and tractors. Stresses safety, maintenance, minor repair and appropriate tool selection. Lecture 1 hour; laboratory 2 hours.

HRT 119 Irrigation Systems for Turf and Ornamentals (3 cr)

Explains why, when, and how irrigation systems are used by the grounds management industry. Includes component selection, system design, installation, operation, and maintenance. Lecture 2 hours; laboratory 2 hours.

HRT 125 Chemicals in Horticulture (3 cr)

Emphasizes basic chemical principles and their application to horticulture. Introduces principles of inorganic and organic chemicals. Studies chemical activities of insecticides, fungicides, herbicides, fertilizers, and growth regulators. Lecture 2 hours; laboratory 2 hours.

HRT 205 Soils (3 cr)

Teaches theoretical and practical aspects of soils and other growing media. Examines media components, chemical and physical properties, and soil organisms. Discusses management and conservation. Lecture 2 hours; laboratory 2 hours.

HRT 207 Plant Pest Management (3 cr)

Teaches principles of plant pest management. Covers morphology and life cycles of insects and other small animal pests and plant pathogens. Lab stresses diagnosis, chemical and non-chemical control of specific pests, and pesticide safety. Lecture 2 hours; laboratory 2 hours.

HRT 269 Professional Turf Care (3 cr)

Covers turfgrass identification selection, culture, propagation, and pest control. Surveys commercial turf care operations and use of common equipment. Lecture 2 hours; laboratory 2 hours.

Hotel-Restaurant-Institutional Management

HRI 115 Food Service Managers Sanitation Certification (1 cr)

Presents an accelerated survey of principles and applications of sanitary food service, designed to promote the skills of managers in food service establishments licensed by the Commonwealth of Virginia. (Upon successful completion of the course, a certificate of achievement is awarded by the Educational Foundation of the National Restaurant Association and the student's name is entered in the Foundation Registry.) Lecture 1 hour per week.

HRI 119 Applied Nutrition for Food Service (3cr)

Studies food composition, nutrition science and application of nutrition principles by the food service professional. Provides the student with a basic understanding of human nutrition and application of nutrition in the service of commercially prepared meals. Lecture 3 hours per week.

HRI 128 Principles of Baking (3 cr)

Instructs the student in the preparation of breads, pastries, baked desserts, candies, frozen confections and sugar work. Applies scientific principles and techniques of baking. Promotes the knowledge/skills required to prepare baked items, pastries and confections. Prerequisite: HRI 159 or equivalent. Lecture 2 hours per week; laboratory 3 hours per week.

HRI 140 Fundamentals of Quality for the Hospitality Industry (3 cr)

Teaches quality in the hospitality industry, including material on the total quality management movement. Emphasizes quality from the customer's perspective. Lecture 3 hours per week.

HRI 154 Principles of Hospitality Management (3 cr)

Presents basic understanding of the hospitality industry by tracing the industry's growth and development, reviewing the organization and management of lodging, food and beverage operations and focusing on industry opportunities and future trends. Lecture 3 hours per week.

HRI 158 Sanitation and Safety (3 cr)

Covers the moral and legal responsibilities of management to insure a sanitary and safe environment in a food service operation. Emphasizes the causes and prevention of food borne illnesses in conformity with federal, state and local guidelines. Focuses on OSHA standards in assuring safe working conditions. Lecture 3 hours per week.

HRI 159 Introduction to Hospitality Industry Computer Systems (4 cr)

Studies computer applications in food service and lodging management. Provides laboratory practice in use of the computer, using application software. Lecture 3 hours per week; laboratory 2 hours per week.

HRI 218 Fruit, Vegetable and Starch Preparation (3 cr)

Instructs the student in the preparation of fruits, vegetables, grains, cereals, legumes and farinaceous products. Promotes the knowledge/skills necessary to prepare menu items from fruits, vegetables and their by-products and to select appropriate uses as meal components. Lecture 2 hours per week; laboratory 3 hours per week.

HRI 219 Stock, Soup and Sauce Preparation (3 cr)

Instructs the student in the preparation of stocks, soups and sauces. Promotes the knowledge/skills to prepare stocks, soups and sauces and to select appropriate uses as meal components. Lecture 2 hours per week; laboratory 3 hours per week.

HRI 220 Meat, Seafood and Poultry Preparation (3 cr)

Provides the study and preparation of meat, poultry, shellfish, fish and game. Promotes the knowledge/skills required to select appropriate use of these foods as meal components. Lecture 2 hours per week; laboratory 3 hours per week.

HRI 228 Food Production Operations (3 cr)

Teaches management principles as applied to a food production setting. Integrates skills areas including planning organizing, coordination, checking, insuring, training, establishing standards, assisting and controlling. Promotes the knowledge/skills required to manage food production operations in a commercial and/or institutional kitchen. Lecture 3 hours per week.

HRI 235 Marketing of Hospitality Services (3 cr)

Studies principles and practices of marketing the services of the hotel and restaurant industry. Emphasizes the marketing concept with applications leading to customer satisfaction. Reviews methods of external and internal stimulation of sales. May include a practical sales/marketing exercise and computer applications. Lecture 3 hours per week.

HRI 255 Human Resource Management and Training for Hospitality and Tourism (3 cr)

Prepares the students for interviewing, training and developing employees. Covers management skills (technical, human and conceptual) and leadership. Covers the establishment and use of effective training and evaluative tools to improve productivity. Emphasizes staff and customer relations. Lecture 3 hours per week.

Industrial Engineering

IND 106 Industrial Engineering Technology (3 cr)

Introduces basic skills required for a career in industrial engineering technology. Includes basic statistics for engineering technicians, the SI system, graphic analysis and careers as an industrial engineering technician. Lecture 3 hours per week.

IND 113 Materials and Processes of Industry (2 cr)

Studies industrial/engineering materials and contemporary processes for the manufacture of products. Investigates materials' nature, structure and properties. Examines processes and their effects on materials. Corequisite MTH 03 or equivalent. Lecture 2 hours per week.

IND 137 Team Concepts and Problem Solving (3 cr)

Studies team concepts and problem solving techniques to assist project teams in improving quality and productivity. Provides knowledge of how to work as a team, plan and conduct good meetings, manage logistics and details, gather useful data, communicate the results and implement changes. Lecture 3 hours per week.

IND 165 Principles of Industrial Technology I (4 cr)

Introduces principle concepts of technology involving mechanical, fluid, electrical and thermal power as they relate to force, work and rate. Lecture 3 hours. Laboratory 2 hours.

IND 230 Applied Quality Control (3 cr)

Studies principles of inspection and quality assurance with emphasis on statistical process control. May include the setting up, maintaining and interpreting of control charts and review of basic metrology. Lecture 2 hours per week; laboratory 2 hours per week.

IND 237 Fundamentals of ISO 9000 (3 cr)

Presents the basics of ISO 9000 standards. Focuses on the latest improvements of the standards and the redesigned quality concepts set forth by the International Organization for Standardization (ISO). Includes a historical overview of the evolution of quality systems and explains the purpose of ISO quality systems certification. Discusses implementation approaches. Lecture 3 hours per week.

Information Systems Technology

IST 102 Introduction to Microcomputers (1-2 cr)

Examines concepts and terminology related to microcomputers. Introduces the specific uses of microcomputers. Lecture 1-2 hours per week.

IST 110 Microcomputer Software: Beginning Windows (1-2 cr)

Provides first-time users with sufficient information to make practical use of the Windows software package. Presents the basics of many of the features and applications included in the Windows package. Lecture 1-2 hours per week.

IST 111 Microcomputer Software: Intermediate Windows (1-2 cr)

Delves more deeply into the Windows package software with software installation, PIF file overview and object linking and embedding. Lecture 1-2 hours per week.

IST 113 Computers and Information Systems (1 cr)

Introduces terminology, concepts and methods of using computers in information systems. Teaches computer literacy, not intended for Information Systems Technology majors. A successful pretest is required. Lecture 1-2 hours per week.

- IST 114 Fundamentals of Computer Information Systems (3 cr)**
Provides a technical approach to concepts and terminology of computer information systems. Includes the study of computer information systems: hardware, software, functions, capabilities and limitations of computer systems. Exposes students to techniques used in programming and system development. Prerequisites ENG 03, 05. Lecture 3 hours per week.
- IST 120 Microcomputer Software: Spreadsheets I (1-2 cr)**
Provides first-time users with sufficient information to make practical use of spreadsheet software. Presents basics of building spreadsheets. Lecture 1-2 hours per week.
- IST 123 Spreadsheet Software I (3 cr)**
Provides a working knowledge of a commercial spreadsheet package to include designing a variety of worksheets, preparing graphs, working with database query, macro writing and menu techniques. Prerequisites ENG 03, 04. Corequisites ENG 05, IST 114. Lecture 3 hours per week.
- IST 127 Survey of Internet Services (1 cr)**
Introduces students to basic Internet terminology and services including e-mail, WWW browsing, search engines, ftp telnet and other services. Lecture 1 hour per week.
- IST 128 Introduction to Internet Services (3 cr)**
Provides students with a working knowledge of Internet terminology and services including e-mail, WWW browsing, search engines, ftp, telnet and other services. Introduces students to a variety of software packages for these services. Introduces web page construction with pages generated by web page editors and applications software. Lecture 3 hours per week.
- IST 129 Web Page Design I (3 cr)**
Provides a working knowledge of web page design and construction using headings, lists, links, images, image maps, tables, forms, and frames. Prerequisite: IST 127 or equivalent. Lecture 3 hours per week.
- IST 130 Microcomputer Software: Database Management I (1-2 cr)**
Provides first-time users with sufficient information to make practical use of database management software. Presents basics of building databases. Covers specific business applications. Lecture 1-2 hours per week.
- IST 133 Database Management Software (3 cr)**
Provides a working introduction to software for database management. Teaches planning, defining and using a database; performing queries; producing reports; working with multiple files; and concepts of database programming. Offers a working knowledge of a commercial database package. Prerequisite IST 114. Lecture 3 hours per week.
- IST 153 Computer Program Design (3 cr)**
Teaches design of programming solutions to common processing problems in information systems. Surveys methods and styles of structured modular design, using recognized design tools. Co requisites IST 114, MTH 151 or 115. Lecture 3 hours per week.
- IST 200 Local Area Networks (3 cr)**
Teaches network topologies, protocols, network components, cabling, network operating systems, directories, security, printing, data backup, installation of file servers, workstations and applications. Prerequisite IST 114 or ETR 166. Lecture 3 hours per week.
- IST 201 Local Area Networks Laboratory (1 cr)**
Provides problem solving experience to supplement instruction in IST 200. Should be taken concurrently with IST 200, in appropriate curricula, as identified by the college. Laboratory 2 hours per week.
- IST 202 Networking Technologies (3 cr)**
Focuses on the theory of network operation. Teaches topologies, network topology selection, networking protocols, the OSI model, the DOD model, IP subnetting, network media transmission techniques. Lecture 3 hours per week.
- IST 212 Introduction to Telecommunications (2-4 cr)**
Surveys data transmission systems, communication lines, data sets, network, modes of transmission, protocols and interfacing. Emphasizes network structure and operation. Focuses on application of telecommunications to real-world problems. A laboratory co-requisite (IST 213) may be required. Lecture 2-4 hours per week.
- IST 218 Multimedia Production (2-4 cr)**
Teaches integration of transparencies, slides, handouts, video, and audio clips into a software presentation using an authoring language. A laboratory co-requisite (IST 219) may be required. Lecture 2-4 hours per week.
- IST 220 Microcomputer: Operating Systems, Architecture and Hardware (2-4 cr)**
Focuses on microcomputer operating systems, architecture, internal functions and peripheral equipment interfaces. Teaches memory management, instruction and data formats, basic operating system architecture and interaction with user software. A laboratory co-requisite (IST 221) may be required. Lecture 2-4 hours per week.

IST 223 Web Page Development and Scripting (3-4 cr)

Provides in-depth knowledge of appropriate tools and information required to effectively create a Web page on the World Wide Web. Covers HTML and a scripting language. Prerequisites determined by local college. Lecture 3-4 hours. Laboratory 0-2 hours. Total 3-5 hours per week.

IST 226 Web Page Design II (3 cr)

Provides students with skills to construct and enhance web sites. Topics include advanced web page design, multimedia, animation, web site publishing, and web site administration. Prerequisite: IST 129 or equivalent. Lecture 3 hours per week.

IST 258 System Development Project (3 cr)

Applies life cycle system development methodologies in a case study. Incorporates feasibility study, system analysis, system design, program specification and implementation planning. Involves assigning a project to students as members of system development teams. Lecture 3 hours per week.

IST 278 Computer Programming C++ Object Oriented Programming (2-4 cr)

Teaches advanced techniques for designing, programming, and implementing object-oriented programs, using C++. A laboratory co-requisite (IST 279) may be required. Lecture 2-4 hours per week.

IST 279 Computer Programming: C++ Object Oriented Programming Lab (1 cr)

Provides problem solving experience to supplement instruction in IST 278. Should be taken concurrently with IST 278, in appropriate curricula, as identified by the college. Laboratory 2 hours per week.

IST 290 Internship (X cr)

IST 297 Co-Op (X cr)

Latin

LAT 101-102 Elementary Latin I-II (3 cr)(3 cr)

Teaches Latin grammar and composition. Introduces the translation of Latin literature, with special selections from Caesar and other writers. Lecture 3 hours per week.

Machine Technology

MAC 150 Introduction to Computer Aided Manufacturing (3 cr)

Introduces computer aided manufacturing (CAM) with emphasis on programming of numerical control machinery. Teaches program writing procedure using proper language and logic and a CAM programming system to produce numerical control code for machines. Teaches basic computer usage, 2 1/2-D and 3-D CAD-CAM integration and code-to-machine transfer. Lecture 2 hours per week; laboratory 2 hours per week.

Marketing

MKT 100 Principles of Marketing (3 cr)

Presents principles, methods and problems involved in the marketing of goods, services and ideas to consumers and organizational buyers. Discusses present-day problems and policies connected with distribution and sales of products, pricing, promotion and buyer motivation. Examines variations of the marketing mix and market research, plus legal, social, ethical and international considerations in marketing. Lecture 3 hours per week.

MKT 216 Retail Organization and Management (3 cr)

Examines the organization of the retail establishment to accomplish its goals in an effective and efficient manner. Includes study of site location, internal layout, store operations and security. Examines the retailing mix, the buying or procurement process, pricing and selling. Studies retail advertising, promotion and publicity as a coordinated effort to increase store traffic. Lecture 3 hours per week.

Mathematics

MTH 02 Arithmetic (3 cr)

Covers arithmetical principles and computations including whole numbers, fractions, decimals, percents, measurement, graph interpretation, geometric forms and applications. Develops the mathematical proficiency necessary for selected curriculum entrance Credits not applicable toward graduation. Lecture 3 hours per week.

MTH 03 Algebra I (3 cr)

Covers the topics of Algebra I including real numbers, equations and inequalities, exponents, polynomials, Cartesian coordinate system, rational expressions and applications. Develops the mathematical proficiency necessary for selected curriculum entrance. Credits not applicable toward graduation. Prerequisites: a placement recommendation for MTH 03 and Arithmetic or equivalent. Lecture 3 hours per week.

MTH 04 Algebra II (3 cr)

Expands upon the topics of Algebra I including rational expressions, radicals and exponent, quadratic equations, systems of equations and applications. Develops the mathematical proficiency necessary for selected curriculum entrance. Credits not applicable toward graduation. Prerequisites: a placement recommendation for MTH 04 and Algebra I or equivalent. Lecture 3 hours per week.

MTH 06 Basic Geometry (3 cr)

Covers topics in Euclidean geometry including similarity and congruency, plane and solid figures, right triangles, parallel and perpendicular lines, constructions and applications. Develops the mathematical proficiency necessary for selected curriculum entrance. Credits not applicable toward graduation. Prerequisites: a placement recommendation for MTH 06 and Algebra I or equivalent. Lecture 3 hours per week.

MTH 21 Survey of Technical Mathematics I (2-5 cr)

Provides a foundation in mathematics with emphasis in arithmetic, algebra, geometry, and trigonometry. Presents applications directed to specialty options. Prerequisite: a placement recommendation for MTH 21. Lecture 2-5 hours per week.

MTH 103-104 Applied Technical Math I-II (3 cr)(3 cr)

Presents a review of arithmetic, elements of algebra, geometry and trigonometry. Directs applications to specialty areas. Prerequisites: a placement recommendation for MTH 103 and one unit of high school mathematics or equivalent. Lecture 3 hours per week.

MTH 115-116 Technical Mathematics I-II (3 cr)(3 cr)

Presents algebra through exponential and logarithmic functions, trigonometry, vectors, analytic geometry and complex numbers. Prerequisites: a placement recommendation for MTH 115 and Algebra I and Geometry or Algebra I and Algebra II or equivalent. Lecture 3 hours per week.

MTH 120 Introduction to Mathematics (3 cr)

Introduces number systems, logic, basic algebra and descriptive statistics. Prerequisites: a placement recommendation for MTH 120 and one unit of high school mathematics or equivalent. (Intended for occupational/technical programs.) Lecture 3 hours per week.

MTH 151 Mathematics for the Liberal Arts I (3 cr)

Presents topics in sets, logic, numeration systems, geometric systems and elementary computer concepts. Prerequisites: a placement recommendation for MTH 151 and Algebra I, Algebra II and Geometry or equivalent. Lecture 3 hours per week.

MTH 152 Mathematics for the Liberal Arts II (3 cr)

Presents topics in functions, combinatorics, probability, statistics and algebraic systems. Prerequisites: a placement recommendation for MTH 152 and Algebra I, Algebra II and Geometry or equivalent. Lecture 3 hours per week.

MTH 157 Elementary Statistics (3 cr)

Presents elementary statistical methods and concepts including descriptive statistics, estimation, hypothesis testing, linear regression and categorical data analysis. (Credit will not be awarded for both MTH 157 and MTH 240 or Bus 221.) Prerequisites: Algebra I, Algebra II and Geometry and a placement recommendation for MTH 157. Lecture 3 hours per week.

MTH 163 Pre-Calculus I (3 cr)

Presents college algebra, matrices and algebraic, exponential and logarithmic functions. Prerequisites: a placement recommendation for MTH 163 and Algebra I, Algebra II and Geometry or equivalent. (Credit will not be awarded for both MTH 163 and MTH 166.) Lecture 3 hours per week.

MTH 164 Pre-Calculus II (3 cr)

Presents trigonometry, analytic geometry and sequences and series. Prerequisite: MTH 163 or equivalent. (Credit will not be awarded for both MTH 164 and MTH 168.) Lecture 3 hours per week.

MTH 173 Calculus with Analytic Geometry (5 cr)

Presents analytic geometry and the calculus of algebraic and transcendental functions including the study of limits, derivatives, differentials and introduction to integration along with their applications. Designed for mathematical, physical and engineering science programs. Prerequisites: a placement recommendation for MTH 173 and four units of high school mathematics, including Algebra I, Algebra II, Geometry and Trigonometry or equivalent. (Credit will not be awarded for more than one of MTH 173, MTH 175 or MTH 273.) Lecture 5 hours per week.

MTH 174 Calculus with Analytic Geometry (5 cr)

Continues the study of analytic geometry and the calculus of algebraic and transcendental functions including rectangular, polar and parametric graphing, indefinite and definite integrals, methods of integration and power series along with applications. Designed for mathematical, physical and engineering science programs. Prerequisite: MTH 173 or equivalent. (Credit will not be awarded for more than one of MTH 174, MTH 176 or MTH 273.) Lecture 5 hours per week.

MTH 240 Statistics (3 cr)

Presents an overview of statistics, including descriptive statistics, elementary probability, probability distributions, estimation, hypothesis testing and correlation and regression. Prerequisite: a placement recommendation for MTH 240 and MTH 163, MTH 166 or equivalent. (Credit will not be awarded for both MTH 240 and MTH 241.) Lecture 3 hours per week.

MTH 271 Applied Calculus I (3 cr)

Presents limits, continuity, differentiation of algebraic and transcendental functions with applications and an introduction to integration. Prerequisite: MTH 163 or MTH 166 or equivalent. (Credit will not be awarded for both MTH 270 and MTH 271.) Lecture 3 hours per week.

MTH 273 Calculus I (4 cr)

Presents topics in differential calculus of one variable including the theory of limits, derivatives, differentials, definite and indefinite integrals and applications to algebraic and transcendental functions. Designed for mathematical, physical, and engineering science programs. Prerequisites: a placement recommendation for MTH 273 and four units of high school mathematics including Algebra I, Algebra II, Geometry and Trigonometry or equivalent. (Credit will not be awarded for more than one of MTH 173, MTH 175 or MTH 273.) Lecture 4 hours per week.

MTH 274 Calculus II (4 cr)

Covers vectors in three dimensions, definite integrals, methods of integration, indeterminate forms, partial differentiation, and multiple integrals. Designed for mathematical, physical, and engineering science programs. Prerequisite: MTH 273 or equivalent. (Credit will not be awarded for more than one of MTH 174, MTH 176 or MTH 274.) Lecture 4 hours per week.

MTH 275 Multivariable Calculus and Linear Algebra (4 cr)

Presents vector valued functions, partial derivatives, multiple integrals, matrices, vector spaces, determinants, solutions of systems of linear equations, basis and dimension, Eigen values and Eigen vectors. Designed for mathematical, physical and engineering science programs. Prerequisite: MTH 174 or equivalent. Lecture 4 hours per week.

MTH 277 Vector Calculus (4 cr)

Presents vector valued functions, partial derivatives, multiple integrals and topics from the calculus of vectors. Designed for mathematical, physical and engineering science programs. Prerequisite MTH 174. Lecture 4 hours per week.

MTH 279 Ordinary Differential Equations (4 cr)

Introduces ordinary differential equations. Includes first order differential equations, second and higher order ordinary differential equations with application. Designed for mathematical, physical, and engineering science programs. Prerequisite: MTH 174 or equivalent. Lecture 4 hours per week.

MTH 291 Differential Equations (3 cr)

Introduces first order differential equations, linear differential equations, numerical methods and applications. Designed for mathematical, physical and engineering science programs. Prerequisite: MTH 174 or equivalent. Lecture 3 hours per week.

Mechanical Engineering

MEC 116 Jig and Fixture Design (3 cr)

Focuses on fundamentals of the construction and design of various types of jigs and fixtures, including milling, reaming, tapping and drilling fixtures. Studies preparation of complete working drawings from layouts, for interchangeable manufacture, computation of fits, limit dimensions, tolerances, tool drawing principles and methods, fundamentals of cutting tools and gauges. Lecture 1-2 hours per week; laboratory 3 hours per week.

MEC 225 Metallurgy (3 cr)

Teaches fundamentals of metallurgy, grain size, effect on carbon content and hardness testing devices. Tests different alloys to determine the effect of heat treatment. Lecture 2-3 hours per week; laboratory 0-2 hours. Total 3-4 hours per week.

MEC 161 Basic Fluid Mechanics (3-4 cr)
Hydraulics/Pneumatics

Introduces theory, operation and maintenance of hydraulic/pneumatics devices and systems. Emphasizes the properties of fluids, fluid flow, fluid statics, and the application of Bernoulli's equation. Lecture 2-3 hours; laboratory 2-3 hours.

MEC 266 Applications of Fluid Mechanics (3-4 cr)

Teaches theory of hydraulic and pneumatic circuits including motors, controls, actuators, valves, plumbing, accumulators, reservoirs, pumps, compressors and filters. Lecture 3-4 hours per week.

Music

MUS 221-222 History of Music I-II (3 cr)(3 cr)

Presents the chronology of musical styles from antiquity to the present time. Relates the historical development of music to parallel movements in art, drama and literature. Develops techniques for listening analytically and critically to music. Prerequisites ENG 01 and 04. Corequisites: ENG 03 and 05. Lecture 3 hours per week.

Natural Science

NAS 05 Sciences I (3 cr)

Focuses on the basic principles of chemistry, physics and biology. Prerequisites ENG 01 and 04. Lecture 2 hours per week; recitation and laboratory 2 hours per week.

NAS 130 Elements of Astronomy (3 cr)

Covers history of astronomy and its recent developments. Stresses the use of astronomical instruments and measuring techniques and includes the study and observation of the solar system, stars and galaxies. Prerequisite ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week. Recitation and laboratory 3 hours.

NAS 131-132 Astronomy I-II (4 cr)(4 cr)

Studies the major and minor bodies of the solar system, stars and nebulae of the Milky Way and extra galactic objects. Examines life and death of stars origin of the universe, history of astronomy and instruments and techniques of observation. Prerequisites: ENG 05 and MTH 03. Lecture 3 hours per week; recitation and laboratory 3 hours per week.

Nursing

NUR 27 Geriatric Nurse's Aide (4 cr)

Teaches care of older patients with emphasis on the social, emotional and spiritual needs of geriatric patients; procedures; communication and interpersonal relations; observation, charting and reporting; safety and infection control; anatomy and physiology; personal care; nutrition and patient feeding; death and dying. Variable hours per week.

PNE 145 Trends in Practical Nursing (1 cr)

Studies the role of the Licensed Practical Nurse. Covers legal aspects organizations and opportunities in practical nursing. Assists students in preparation for employment. Prerequisites PNE 186, NUR 105, 136. Lecture 1 hour per week.

PNE 186 Nursing Concepts I (6 cr)

Introduces principles of nursing including concepts of health, wellness, illness and the nursing process. Develops nursing skills to meet the multidimensional needs of individuals across the life span. Includes computer skills related to the delivery of nursing care. Provides supervised learning experiences in college nursing laboratories and/or cooperating agencies. Prerequisites ENG 03, ENG 107, MTH 02 and MTH 03 (grade of "R.") Lecture 5 hours per week; laboratory 3 hours. Total 8 hours per week.

PNE 187 Nursing Concepts II (9 cr)

Explores the use of the nursing process to meet the multidimensional needs of individuals and developing families. Includes computer and math computational skills related to the delivery of nursing care. Provides supervised learning experiences in college nursing laboratories and/or cooperating agencies. Prerequisites PNE 186, NUR 105, ENG III, NUR 136. Lecture 5 hours per week; laboratory 12 hours. Total 17 hours per week. Corequisite: NUR 137.

PNE 188 Nursing Concepts III (6 cr)

Teaches nursing care of individuals and/or families experiencing alterations in health, utilizing the nursing process. Includes computer and math computational skills related to the delivery of nursing care. Provides supervised learning experiences in college nursing laboratories and/or cooperating agencies. Prerequisite PNE 187 and NUR 137. Lecture 3 hours per week; laboratory 9 hours. Total 12 hours per week.

NUR 105 Nursing Skills (2 cr)

Develops nursing skills for the basic needs of individuals and introduces related theory. Provides supervised learning experiences in cooperating agencies. Prerequisites ENG 03, ENG 107, MTH 02 and MTH 03 (grade of "R.") Laboratory 6 hours per week. Corequisite: PNE 186.

NUR 116 Selected Nursing Concepts (1 cr)

Introduces selected basic skills and concepts in the discipline of nursing and their incorporation into care to meet the changing standards of nursing practice. Intended as a transition/refresher course for transfer and returning students. Lecture 1 hour. Prerequisite: LPN Licensure. See nursing information packet for additional requirements.

NUR 135 Drug Dosage Calculations (1-2 cr)

Teaches apothecary, metric and household conversion and reading of drug orders and labels. Provides a practical approach to learning to calculate and prepare medications and solutions. Includes calculating intravenous flow rates and pediatric dosages. Prerequisites MTH 02 and MTH 03 (grade of "R.") Lecture 2 hours per week.

NUR 136-137 Principles of Pharmacology I-II (1 cr) (2 cr)
Teaches principles of medication administration which include dosage calculations, major drug classifications, drug legislation, legal aspects of medication administration, drug action on specific body systems and basic computer applications. Prerequisites MTH 02 and MTH 03 (grade of "R.") Lecture 1-2 hours per week.

NUR 205 Introduction to Second Level Nursing (6 cr)
Teaches principles and concepts of nursing care for individuals, families and/or groups in the community and hospital setting. Focuses on health team membership and various nursing care delivery systems. Includes math computational skills and basic computer instruction related to the delivery of nursing care. Provides supervised learning experiences in college laboratories and/or cooperating agencies. Prerequisite: PNE 188. Lecture 3 hours per week; laboratory 9 hours. Total 12 hours per week.

NUR 208 Acute Medical Surgical Nursing (6 cr)
Focuses on the use of nursing process to provide care to individuals/families with acute medical or surgical problems or to prevent such problems. Includes math computational skills and basic computer instruction related to the delivery of nursing care. Provides supervised learning experiences in cooperating agencies. Prerequisite NUR 205. Lecture 3 hours per week; laboratory 9 hours. Total 12 hours per week.

NUR 226 Health Assessment (2 cr)
Teaches the systematic approach to obtaining a health history and performing a physical assessment. Prerequisite PNE 186. Lecture 2 hours; laboratory 3 hours.

NUR 254 Dimensions of Professional Nursing (2 cr)
Explores the role of the professional nurse. Emphasizes nursing organizations, legal and ethical implications and addresses trends in management and organizational skills. Explores group dynamics, relationships, conflicts and leadership styles. Prerequisites PNE 188, NUR 137. Lecture 1 hour per week.

Philosophy

PHI 101 Introduction to Philosophy I (3 cr)
Introduces a broad spectrum of philosophical problems and perspectives with an emphasis on the systematic questioning of basic assumptions about meaning, knowledge, reality and values. Lecture 3 hours per week.

PHI III-III2 Logic I-II (3 cr)(3 cr)
PHI III introduces inductive and deductive reasoning, with an emphasis on common errors and fallacies. PHI III2 evaluates deductive arguments utilizing methods of symbolic logic. Prerequisites ENG 03 and 05. Lecture 3 hours per week.

PHI 220 Ethics (3 cr)
Provides a systematic study of representative ethical systems. Prerequisites ENG 03 and 05. Lecture 3 hours per week.

Physical Education

PED 103 Aerobic Fitness (1 cr)
Develops cardiovascular fitness through activities designed to evaluate and sustain heart rates appropriate to age and physical condition. Variable hours per week.

PED 109 Yoga (1-2 cr)
Focuses on the forms of yoga training emphasizing flexibility. Lecture 1-2 hours per week; laboratory 0-2 hours per week. Total 1-3 hours per week.

PED 111 Weight Training I (1 cr)
Focuses on muscular strength and endurance training through individualized workout programs. Teaches appropriate use of weight training equipment. Variable hours per week.

PED 116 Lifetime Wellness and Fitness (1-2 cr)
Provides a study of fitness and wellness and their relationship to a healthy lifestyle. Defines fitness and wellness, evaluates the student's level of fitness and wellness, and motivates the student to incorporate physical fitness and wellness into daily living. A personal fitness/wellness plan is required for the 2-credit course. Lecture 1-2 hours. Laboratory 0-2 hours. Total 1-4 hours per week.

PED 123 Tennis I (1 cr)
Teaches tennis skills with emphasis on stroke development and strategies for individual and team play. Includes rules, scoring, terminology and etiquette. Variable hours per week.

PED 127 Cycling (1-2 cr)
Introduces cycling techniques, equipment selection, care and maintenance, safety and physical conditioning. Lecture 1-2 hours per week; laboratory 0-2 hours per week. Total 1-3 hours per week.

PED 129 Self-Defense (1-2 cr)
Examines history, techniques and movements associated with self-defense. Introduces the skills and methods of self-defense emphasizing mental and physical discipline. Lecture 1-2 hours per week; laboratory 0-2 hours per week. Total 1-3 hours per week.

PED 133 Golf I (1 cr)
Teaches basic skills of golf, rules, etiquette, scoring, terminology, equipment selection and use and strategy. Variable hours per week.

PED 135 Bowling I (1 cr)
Teaches basic bowling skills and techniques, scoring, rules, etiquette and terminology. Variable hours per week.

PED 139 Ice Skating (1 cr)
Introduces the skills of figure skating with emphasis on form. Includes equipment selection and safety. Variable hours per week.

PED 141 Swimming I (1-2 cr)
Introduces skills and methods of swimming strokes. Focuses on safety and physical conditioning. Lecture 1-2 hours; laboratory 0-2 hours.

PED 148 Snowboarding (1 cr)
Teaches the basic skills of snowboarding, selection and use of equipment, terminology, and safety rules. Laboratory 2 hours per week.

PED 154 Volleyball (1 cr)
Introduces skills, techniques, strategies, rules and scoring. Laboratory 2 hours per week.

PED 180 Orienteering (1 cr)
Teaches a brief history of the sport, equipment use, map reading, compass uses and techniques and types of orienteering. Variable hours per week.

PED 181 Downhill Skiing I (1 cr)
Teaches the basic skills of downhill skiing, selection and use of equipment, terminology and safety rules. Includes field experience. Variable hours per week.

Physical Therapy

PTH 151 Musculoskeletal Structure and Function (4-5 cr)

Studies the human musculoskeletal system. Covers terms of position and movement, location and identification of specific bony landmarks, joint structure and design, ligaments, muscle origin, action and innervation and emphasizes types of contraction. Lecture 2-3 hours per week; laboratory 2-6 hours per week. Total 5-8 hours per week.

Physics

PHY 131-132 Applied Physics I-II (3 cr)(3 cr)
Emphasizes application of topics such as precision measurement, statics, dynamics, energy, momentum, properties of matter, heat, sound, optics, and electricity and magnetism. Prerequisites high school algebra, geometry and trigonometry, or equivalent or divisional approval. Lecture 2 hours. Laboratory 2 hours. Total 4 hours per week.

PHY 201-202 General College Physics I-II (4 cr)(4 cr)
Teaches fundamental principles of physics. Covers mechanics, thermodynamics, wave phenomena, electricity and magnetism and selected topics in modern physics. Prerequisite MTH 163 or equivalent. Lecture 3 hours per week; laboratory 3 hours per week.

PHY 241-242 University Physics I-II (4 cr)
Teaches principles of classical and modern physics. Includes mechanics, wave phenomena, heat, electricity, magnetism, relativity and nuclear physics. Prerequisite for PHY 241-MTH 173 or MTH 273 or divisional approval. Prerequisite for PHY 242-MTH 174 or MTH 274 or divisional approval. Lecture 3 hours per week; laboratory 3 hours per week.

Political Science

PLS 135 American National Politics (3 cr)
Teaches political institutions and processes of the national government of the United States. Focuses on Congress, the Presidency and the Courts and on their interrelationships. Gives attention to public opinion, suffrage, elections, policy, political parties, interest groups, civil rights, domestic policy and foreign relations. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

PLS 136 State and Local Politics (3 cr)
Teaches structure, power and functions of state and local government in the United States. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

Psychology

PSY 200 Principles of Psychology (3 cr)
Examines human and animal behavior, relating experimental studies to practical problems. Includes topics such as sensation/perception, learning, memory, motion, emotion, stress, development, intelligence, personality, psychopathology, therapy and social psychology. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

PSY 215 Abnormal Psychology (3 cr)
Explores historical views and current perspectives on abnormal behavior. Emphasizes major diagnostic categories and criteria, individual and social factors of maladaptive behavior and types of therapy. Includes methods of clinical assessment and research strategies. Prerequisites PSY 200, ENG 03 and ENG 05. Lecture 3 hours per week.

PSY 216 Social Psychology (3 cr)
Examines individuals in social contexts, their social roles, group processes and intergroup relations. Includes topics such as small group behavior, social behavior, social cognition, conformity, attitudes and motivation. Prerequisites ENG 01 and 04 and PSY 200. Corequisites ENG 03 and 05. Lecture 3 hours per week.

PSY 235 Child Psychology (3 cr)
Studies development of the child from conception to adolescence. Investigates physical, intellectual, social and emotional factors involved in the child's growth. Prerequisites ENG 01 and 04 and PSY 200. Corequisites ENG 03 and 05. Lecture 3 hours per week.

PSY 236 Adolescent Psychology (3 cr)
Studies development of the adolescent. Investigates physical, intellectual, social and emotional factors of the individual from late childhood to early adulthood. Prerequisites ENG 01 and 04 and PSY 200. Corequisites ENG 03 and 05. Lecture 3 hours per week.

PSY 237 Adult Psychology (3 cr)
Studies development of the adult personality. Investigates physical, intellectual, social and emotional aspects of aging from early adulthood to death. Prerequisites ENG 01 and 04 and PSY 200. Corequisites ENG 03 and 05. Lecture 3 hours per week.

PSY 238 Developmental Psychology (3 cr)
Studies the development of the individual from conception to death. Follows a life-span perspective on the developmental tasks of the person's physical, cognitive and psychosocial growth. Prerequisites ENG 01 and 04 and PSY 200. Corequisites ENG 03 and 05. Lecture 3 hours per week.

Pulp and Paper Technology

PPT 171 Introduction to Pulp and Paper Technology I (4 cr)

Provides an introduction to the processes of a pulp and paper mill and the operations of its systems and equipment. Integrates industrial safety, mathematics, plant science, chemistry and blueprint reading into the process. Provides a basic understanding of instrumentation and control; introduces aspects of the environmental protection. Presents a brief historical overview of paper and packaging as well as future industry trends. Lecture 3 hours per week; laboratory 2 hours per week.

PPT 172 Pulp and Paper Operation II (4-5 cr)
Provides fundamental skills in the operation of various types of equipment used in the pulp and paper operations, including the utilization of compressors, pumps, valves, heat exchanges, electrical equipment, drive components and hand tools. Prerequisite PPT 171. Lecture 3-4 hours per week; laboratory 2 hours per week. Total 5 hours per week.

PPT 250 Paper Recycling Technologies (3 cr)
Provides an introduction to the processes of paper recycling found in various pulp and paper operations. Integrates industrial safety, additives, wet-end chemistry and specialized equipment in the different recycling processes. Provides a basic understanding of instrumentation and control; introduces aspects of environmental protection. Prerequisite: PPT 171. Lecture 3 hours per week.

PPT 275 Pulp and Paper Mill Maintenance (3 cr)
Provides the student with a knowledge of the maintenance crafts and trades necessary to keep a modern paper mill operational. Presentations will include lubrication, vibration analysis and predictive maintenance. Topical reading from trade journals will serve as resource material. Field trips will focus on the paper mill maintenance department and its scope of responsibilities. Prerequisite PPT 171. Lecture 3 hours per week.

PPT 276 Processes of Pulping (3 cr)
An in-depth view of the varied pulping and recovery processes. Topics will include the Kraft, NSSC, Groundwood Processes; as well as specialized technologies such as solvent pulping. Wood types as they affect pulping will be illustrated. Several liquor recovery cycles will be presented. Prerequisite PPT 171, 173. Lecture 2 hours per week; laboratory 2 hours per week.

PPT 277 Papermaking Processes (3 cr)
Designed to provide an in-depth understanding of the papermaking process. Topics will include stock preparation, headbox operations, the "wet end", size press and on-machine coating areas. Off machine super calendering, coating and rewinding will also be presented. Prerequisite PPT 171. Lecture 2 hours per week; laboratory 2 hours per week.

PPT 278 Instruments and Controls (3 cr)
Surveys of various instruments and controls in the pulp and paper processing mill. Introduces the topics of control loops, modes of signal transmission and will discuss the three types of controller adjustments. Interaction between controller and control element will be discussed and analyzed. Prerequisite PPT 171. Lecture 2 hours per week; laboratory 2 hours per week.

PPT 279 Converting and Printing Processes (3 cr)

This course focuses on the end-user of paper products. Three major printing processes will be studied, as well as problems and testing methods common to the printing industry. Packaging industry equipment will be introduced, with special emphasis on the corrugator. Lecture 2 hours per week; laboratory 2 hours per week.

PPT 280 Recycling (3 cr)

Provides an introduction to the processes of paper recycling found in various pulp and paper operations. Integrates industrial safety, additives, wet-end chemistry and specialized equipment in the different recycling processes. Provides a basic understanding of instrumentation and control; introduces aspects of environmental protection. Prerequisite PPT 171. Lecture 3 hours per week.

Real Estate

REA 100 Principles of Real Estate (4 cr)

Examines practical applications of real estate principles. Includes a study of titles, estates, land descriptions, contracts, legal instruments and concepts, real estate mathematics, financing, agency, appraisal, fair housing and management of real estate. Lecture 4 hours per week.

Religion

REL 200 Survey of the Old Testament (3 cr)

Surveys books of the Old Testament with emphasis on prophetic historical books. Examines the historical and geographical setting and place of the Israelites in the ancient Middle East as background to the writings. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

REL 210 Survey of the New Testament (3 cr)

Surveys books of the New Testament with special attention upon placing the writing within their historical and geographical setting. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

REL 225 Selected Topics In Biblical Studies (3 cr)

Examines a selected body of literature, a specific book of the Bible or a pervasive theme. Lecture 3 hours per week.

REL 231-232 Religions of the World I-II (3 cr)(3 cr)

Studies religions of the world with attention to origin, history and doctrine. Prerequisites: ENG 03 and ENG 04. Corequisite: ENG 05. Lecture 3 hours per week.

Safety

SAF 126 Principles of Industrial Safety (3 cr)

Teaches principles and practices of accident prevention, analysis of accident causes, mechanical safeguards, fire prevention, housekeeping, occupational diseases, first aid, safety organization, protection equipment and general safety principles and promotion. Lecture 3 hours per week.

SAF 127 Industrial Safety (2 cr)

Provides basic understanding of safety and health in an industrial situation. Includes hazardous materials, substances, conditions, activities and habits as well as the prescribed methods and equipment needed for the apprentice to protect himself/herself and others. Lecture 2 hours per week.

Sign Communication

SCM 100 Introduction to American Sign Language (3 cr)

Teaches the fundamentals of finger spelling, American sign language structure and sign language vocabulary. Develops skills for communication with the hearing impaired. Introduces the non-language aspects of communications, including eye movement, facial expression and body posture. Explores and develops skills in gesture pantomime and body language. Lecture 2-3 hours per week; laboratory 0-2 hours per week. Total 3-4 hours per week.

SCM 110 Intermediate American Sign Language (3 cr)

Provides students with additional American sign language vocabulary. Teaches idiomatic expressions, colloquialisms and receptive skills. Prerequisite: SCM 100 or consent of the instructor. Lecture 2-3 hours per week; laboratory 0-2 hours per week. Total 3-4 hours per week.

Sociology

SOC 200 Principles of Sociology (3 cr)

Introduces fundamentals of social life. Presents significant research and theory in areas such as culture, social structure, socialization, deviance, social stratification and social institutions. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

SOC 215 Sociology of the Family (3 cr)

Studies topics such as marriage and family in social and cultural context. Addresses the single scene, dating and marriage styles, child-rearing, husband and wife interaction, single parent families, alternative lifestyles. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

SOC 268 Social Problems (3 cr)
Applies sociological concepts and methods to analysis of current social problems. Includes delinquency and crime, mental illness, drug addiction, alcoholism, sexual behavior, population crisis, race relations, family and community disorganization, poverty, automation, wars and disarmament. Prerequisites ENG 01 and 04. Corequisites ENG 03 and 05. Lecture 3 hours per week.

Spanish

SPA 101-102 Beginning Spanish I-II (4 cr)(4 cr)
Introduces understanding, speaking, reading and writing skills and emphasizes basic Spanish sentence structure. May include additional hour of oral drill and practice per week. Prerequisites ENG 03 and 05. Lecture 4 hours per week.

SPA 201-202 Intermediate Spanish I-II (4 cr)(4 cr)
Continues to develop understanding, speaking and writing skills. Spanish is used in the classroom. Prerequisite SPA 102 or equivalent. May include an additional hour of oral drill and practice per week. Lecture 4 hours per week.

Speech and Drama

SPD 110 Introduction to Speech Communications (3 cr)
Examines the elements affecting speech communication at the individual, small group and public communication levels with emphasis on practice of communication at each level. Prerequisites ENG 03 and 04. Corequisite ENG 05. Lecture 3 hours per week.

SPD 151-152 Film Appreciation I-II (3 cr)(3 cr)
Aims to increase the student's knowledge and enjoyment of film and film criticism through discussion and viewing of movies. Prerequisites ENG 03 and 04. Corequisite ENG 05. Lecture 3 hours per week.

Student Development

STD 100 Orientation (1 cr)
Assists students in transition to colleges. Provides overviews of college policies, procedures, curricular offerings. Encourages contacts with other students and staff. Assists students toward college success through information regarding effective study habits, career and academic planning and other college resources available to students. May include English and placement testing. Strongly recommended for beginning students. Required for graduation. Lecture 1 hour per week.

STD 105 Personal Development from a Woman's Perspective (2 cr)

Addresses the psychological and educational adjustment needs of the female college student. Covers three segments: personal development, career education and study skills. Emphasizes the special needs of the reentry woman. Provides education and support for the individual. Lecture 2 hours per week.

STD 107 Career Education (1-3 cr)

Surveys career options available to students. Stresses career development and assists in the understanding of self in the world of work. Assists students in applying decision making to career choice. Lecture 1-3 hours per week.

Telecommunications Management

TEL 150 Internetworking I (3 cr)

Introduces the functions of each layer of the ISO/OSI reference model, data link and network addresses, data encapsulation, different classes of IP addresses and subnetting and the functions of the TCP/IP network-layer protocols. Lecture 2-3 hours per week; laboratory 2-3 hours per week.

TEL 151 Internetworking II (3 cr)

Teaches features of the Cisco ISO software, including log in, context-sensitive help, command history and editing, loading software, configuring and verifying IP addresses, preparing the initial configuration of a router and adding routing protocols to the router configuration. Prerequisite: TEL 150. Lecture 2-3 hours per week; laboratory 2-3 hours per week.

TEL 200 Telecommunications Administration (3 cr)

Studies administrative issues affecting telecommunications managers. Integrates the technical and behavioral aspects of telecommunications and studies the effects on business. Includes budgeting, planning, project management, developing requests for proposals, contract negotiation, financial analysis, decision making, and human resource management. Lecture 3 hours per week.

TEL 250 Internetworking III (3 cr)

Studies the advantages of LAN segmentation using bridges, routers and switches. Fast Ethernet configuring access lists. Covers Spanning Tree Protocol and Virtual LANs Prerequisite: TEL 151. Lecture 2-3 hours per week; laboratory 2-3 hours per week.

TEL 251 Internetworking IV (3 cr)

Focuses on the differences between the following WAN services: LAPB, Frame Relay, ISDN/LAP HDLC, PPP and DDR. Prerequisite: TEL 250. Lecture 2-3 hours per week; laboratory 2-3 hours per week.

Welding

WEL 116 Welding I (Oxyacetylene) (2 cr)

Teaches oxygenacetylene welding and cutting including safety of equipment, welding, brazing and soldering procedures and cutting procedures. Lecture 1 hour per week; laboratory 3 hours per week. Total 4 hours per week.

WEL 117 Oxy Fuel Welding and Cutting (3 cr)

Introduces the history of oxyacetylene welding, principles of welding and cutting, nomenclature of the equipment, assembly of the puddle, running flat beads, butt welding in different positions, brazing, hard and soft soldering. Discuss procedure in the use of tools and equipment. Lecture 2 hours per week; laboratory 3 hours per week.

WEL 120 Introduction to Welding (2-3 cr)

Introduces history of welding processes. Covers types of equipment, and assembly of units. Stresses welding procedures such as fusion, non-fusion, and cutting oxyacetylene. Introduces arc welding. Emphasizes procedures in the use of tools and equipment. Lecture 1-2 hours; laboratory 2-3 hours.

WEL 121 Arc Welding (2 cr)

Studies the operation of AC and DC power sources, weld heat, polarities, and electrodes for use in joining various alloys by the SMAW process. Covers welds in different types of joints and different welding positions. Emphasizes safety procedures. Lecture 1 hour. Laboratory 3 hours. Total 4 hours per week.

WEL 123 Shielded Metal Arc Welding (Basic) (3 cr)

Teaches operation of AC and DC power sources, welding polarities, heats and electrodes for use in joining various metal alloys by the arc welding process. Deals with running beads, butt, and fillet welds in all positions. Emphasizes safety procedures. □ Lecture 2 hours. Laboratory 3 hours. Total 5 hours per week.

WEL 124 Shielded Metal Arc Welding (Advanced) (3-4 cr)

Continues instruction on operation of AC and DC power sources, welding polarities, heats and electrodes for use in joining various metal alloys by the arc welding process. Deals with running beads, butt, and fillet welds in all positions. Emphasizes safety procedures. Lecture 2 hours. Laboratory 3-5 hours. Total 5-8 hours per week.

WEL 126 Pipe Welding I (3 cr)

Teaches metal arc welding processes, including the welding of pressure piping in the horizontal, vertical and horizontal-fixed positions in accordance with Section IX of the ASME Code. Lecture 2 hours per week; laboratory 3 hours per week.

WEL 127 Pipe Welding II (3 cr)

Provides practice in the welding of pressure piping in the horizontal, vertical and fixed positions. Laboratory 9 hours per week.

WEL 130 Inert Gas Welding I (3 cr)

Introduces practical operation in use of inert-gas-shield arc welding and equipment, operations in safety practices in various positions, shielding gases, filler rods, process variations and their applications. Discusses manual, semiautomatic and automatic welding. Lecture 2 hours per week; laboratory 3 hours per week.

WEL 135 Inert Gas Welding II (2 cr)

Continues practical operations in the uses of inert-gas-shield arc welding. Discusses equipment, safety operation, welding practice in the various applications, manual and semiautomatic welding. Lecture 1 hour per week; laboratory 3 hours per week.

WEL 141-142 Welder Qualification Tests I-II (3 cr)(3 cr)

Studies techniques and practices of testing welded joints through destructive and nondestructive tests, guiding, discoloration heat test, porous examinations, tensile, hammer and free bend tests. Also studies visual, magnetic and fluorescent tests. Lecture 2 hours per week; laboratory 3 hours per week.

WEL 145 Welding Metallurgy (3 cr)

Studies steel classifications, heat treatment procedures, properties of ferrous and nonferrous metals. Discusses techniques and practices of testing welded joints and destructive/nondestructive, visual magnetic and fluorescent testing. Lecture 3 hours per week.

WEL 146 Welding Quality Control (3cr)

Teaches techniques and practices of inspection and interpretation of tests and measurements. Includes radiographic tests of joints of unlimited thickness welded in 3G and 4G positions. Lecture 2 hours per week; laboratory 3 hours per week.

WEL 160 Gas Metal Arc Welding (3-4 cr)

Introduces semiautomatic welding processes with emphasis on practical application. Includes the study of filler wires, fluxes and gases. Lecture 2 hours per week; laboratory 3 hours per week.

NOTE: The following "General Usage Courses" apply to multiple curricula and all prefix sections. The titles and descriptions are generally applicable for such use.

(Insert Appropriate Prefix) 90, 190, 290 (1-5 cr)
Coordinated Practice or Internship in
(Insert Appropriate Discipline)

Includes supervised practice or on-the-job training in selected curriculums coordinated by the college. Credit/practice ratio maximum 1:5 hours. May be repeated for credit. Variable hours.

(Insert Appropriate Prefix) 95, 195, 295 (1-5 cr)
Topics in (Insert Appropriate Topic)

Specializes in career orientation and training program without pay in selected businesses and industry, supervised and coordinated by the College. Credit/work ratio not to exceed 1:5 hours. May be repeated for credit. Variable hours.

(Insert Appropriate Prefix) 97, 197, 297 (1-5 cr)
Cooperative Education in
(Insert Appropriate Discipline)

Supervises an on-the-job training for pay in approved business, industrial or service firm coordinated by the College's Cooperative Education office. Is applicable to all occupational-technical curricula at the discretion of the College. Credit/work ratio not to exceed 1:5 hours. May be repeated for credit. Variable hours.

(Insert Appropriate Prefix) 98, 198, 298 (1-5 cr)
Seminar and Project in
(Insert Appropriate Discipline)

Requires completion of a project or research report related to the student's occupational objective and a study of approaches to the selection and pursuit of career opportunities in the field. May be repeated for credit. Variable hours.

(Insert Appropriate Prefix) 99, 199, 299 (1-5 cr)
Supervised Study in
(Insert Appropriate Discipline)

Assigns problems for independent study incorporating previous instruction and supervised by the instructor. May be repeated for credit. Variable hours.

Student Policies and Procedures

Code for Student Rights, Responsibilities and Conduct

Preamble: The faculty, staff and administrators of Dabney S. Lancaster Community College are devoted to offering the highest quality education for all citizens of the service region and to developing the scholarly and human potential of each student. We also believe that the students at DSLCC are devoted to these principles and wish to pursue learning in an atmosphere which encourages serious study and human growth.

In attempting to foster this scholarly atmosphere, DSLCC adheres to the standards of the Virginia Community College System. This code for student rights, responsibilities and conduct is intended to clarify within the VCCS framework the standards of the College and the procedures guaranteeing students' rights.

Obligations of a Student: The attendance of a student at DSLCC is a voluntary entrance into the academic community. By such voluntary entrance, the student assumes obligations of performance and behavior reasonably imposed by the College relevant to its lawful missions, processes and functions. These obligations are appropriate for scholars; the College is obligated to provide an atmosphere conducive to learning for all students and will act to discipline those persons whose behavior interferes with this obligation.

This code is established to assure that all students are familiar with the conduct and responsibilities expected of them as members of this community. In addition, students should be cognizant of college disciplinary procedures and their rights as DSLCC students.

Student Bill of Rights:

I. The faculty, staff and administration of DSLCC respect the students who enroll in the College. The following rights are guaranteed to students as part of membership in this learning community:

- A. Free inquiry, expression and assembly, except as noted in number 7 below.
- B. The free pursuit of educational goals
- C. The right of students to be secure in their persons, papers and effects against unreasonable searches and seizures.
- D. The right of appropriate disciplinary procedures when necessary

No disciplinary sanctions may be imposed upon any student without notice to the accused of the nature and cause of the charges and a fair hearing, which shall

include confrontation of witnesses against him/her and the assistance of a person of his or her own choosing.

A student, pending a hearing, may be suspended by the president or the president's designee and barred from the campus if the student's presence is deemed a danger to others or is likely to be disruptive to the normal educational activities of the college.

Before a student may be suspended, the student will be informed of the reasons for the suspension and will be provided an informal opportunity to make an oral response, except in exigent circumstances, in which case the student will be given said opportunity as soon as is practicable.

- E. The right of a hearing before a judicial body when a student is accused of violating institutional regulations

The judicial body shall be composed of five voting members and one nonvoting member. The voting members shall be three members of the faculty and two students. The faculty members shall be appointed by the division chairs as directed by the Dean of Instruction and Student Services and the student members shall be appointed by the President of Student Government. The nonvoting member shall be an ad-hoc member and provide administrative and organizational support.

Nothing in procedures D and E above should be construed to prevent the president from taking such official steps as deemed necessary. However, final action should be in accordance with the above procedures.

Definitions of Terms Used in this Code:

2. When used in this code,

- A. The term "creed" means personal beliefs.
- B. The term "group" means a number of persons who have not yet complied with the formal requirements for becoming an organization.
- C. The term "institution" means Dabney S. Lancaster Community College (DSLCC) and, collectively, those responsible for its control and operation.
- D. The term "instructor" means any person hired by DSLCC to conduct classroom activities. In certain situations a person may be both "student" and "instructor." Determination of his/her status in a particular situation shall be determined by the facts of the situation.

- E. The term "legal compulsion" means a judicial or legislative order which requires some action by the person to whom it is directed.
- F. The term "may" is used in the permissive sense.
- G. The term "organization" means a number of persons who have complied with the formal requirements of institution recognition as provided in Section 10.
- H. The term "shall" is used in the imperative sense.
- I. The term "student" includes all persons taking courses at DSLCC both full-time and part-time.
- J. The term "student press" means either a formally recognized organization whose primary purpose is to publish and distribute any publication on campus or a regular publication of an organization.

Access to Higher Education:

- 3. Within the limits of its facilities, DSLCC shall be open to all applicants who are qualified according to its admission requirements.
 - A. The institution shall make clear the characteristics and expectations of students which it considers relevant to its program.
 - B. Under no circumstances may an applicant be denied admission because of race, creed, gender, national origin, disability or any other non-merit factor. Specific program admittance may be limited due to space, academic history and factors relevant to career job performance.

Classroom Expression:

- 4. Discussion and expression of all views relevant to the subject matter are permitted in the classroom, subject only to the responsibility of the instructor to maintain order.
 - A. Students are responsible for learning the content of any course for which they are enrolled.
 - B. Requirements may include participation in classroom discussion and submission of written exercises.
- 5. Academic evaluation of student performances shall be neither prejudicial nor capricious.
- 6. Information about student views, beliefs and political associations acquired by persons in the course of their work as instructors, advisers and counselors is confidential and is not to be disclosed except with the student's permission or under legal compulsion. Questions relating to intellectual or skills capacity are not subject to this section except that notice of disclosure must be made to the student.

Campus Expression:

- 7. Discussion and expression of all views are permitted within DSLCC subject only to reasonable restrictions to ensure that the mission of DSLCC is not disrupted and to maintain order..
- 8. Students, groups and campus organizations may invite and hear any persons of their own choosing subject only to the requirements for use of institutional facilities. (See sections 7 and 13.)
- 9. Organizations and groups may be established within DSLCC for any legitimate and legal purpose. Affiliation with an extramural organization shall not, in itself, disqualify the institution branch or chapter from institution privileges.
- 10. The following regulations apply to organizations on campus.
 - A. A group shall become an organization when formally recognized by DSLCC. All groups that meet the following requirements shall be recognized.
 - 1. A group shall submit a list of officers, including an advisor selected from the faculty or staff and copies of the constitution and bylaws to the appropriate institution official or body. All changes and amendments shall be submitted within one week after they become effective.
 - 2. Where there is affiliation with an extramural organization, that organization's constitution and bylaws shall be filed with the appropriate institution official or body. All amendments shall be submitted within a reasonable time after they become effective.
 - 3. All sources of outside funds shall be disclosed.
 - B. Upon recognition of the organization, the institution shall make clear that said recognition infers neither approval nor disapproval of the aims, objectives and policies of the organization.
 - C. Organizations of a continuing nature must annually institute proceedings for formal recognition if they are to continue receiving the benefits of Sections 14, 15, 16 and 17.
 - D. Any organization may conduct on or off campus activities subject to the approval of the SGA and the appropriate college administrators.
 - E. Any organization which engages in illegal activities, on or off campus, may have sanctions imposed against it, including withdrawal of institution recognition for a period not exceeding one year.

11. Membership in all institution-related organizations, within the limits of their facilities, shall be open to any member of the institution community who is willing to subscribe to the stated aims and meet the stated obligations of the organizations.

12. Membership lists are primarily for the use of the organization. Names and addresses of officers and members may be required as a condition of access to institution funds.

13. Institution facilities may be assigned depending on availability to organizations, groups and individuals within the institution community for regular business meetings, for social programs and for programs open to the public.

A. Reasonable conditions may be imposed to regulate the timeliness of requests, to determine the appropriateness of the space assigned, to regulate time and use and to insure proper maintenance.

B. Preference shall be given to programs designed for audiences consisting primarily of members of the institutional community.

C. Allocation of space shall be made based on priority of requests and the demonstrated needs of the organization, group or individual.

D. The institution may delegate the assignment function to an administrative official.

E. Charges may be imposed for any unusual costs for use of facilities.

F. Physical abuse of assigned facilities shall result in reasonable limitations on future allocation of space to offending parties and restitution for damages.

G. The individual, group or organization requesting space must inform DSLCC of the general purpose of any meeting open to persons other than members and must provide the names of outside speakers.

H. Solicitation of funds on or off the college campus will be permitted only with prior approval.

14. The authority to allocate student activity funds or institutional student fees for use by recognized organizations shall be delegated to a body in which student participation in the decisional process is assured.

A. Approval of requests for funds is conditioned upon submission of budgets to and approval by this body.

B. Financial accountability is required for all allocated funds, including statement of income and expenses on a regular basis. Failure of an organization to submit an accurate financial statement may result in withdrawal of future funding. Otherwise organizations shall have independent control over the expenditure of allocated funds.

15. No individual, group or organization may use the institution's name without the express authorization of the institution except to identify the institutional affiliation. Institution approval or disapproval of any policy may not be stated or implied by an individual, group or organization.

Publications:

16. A student, group or organization may distribute written material on campus without prior approval providing such distribution does not disrupt the operations of DSLCC.

17. The student press is to be free of censorship. The editors and managers shall not be subject to disciplinary action because of student, faculty, administration, alumni or community disapproval of editorial policy or content. Similar freedom is assured oral statements of views on an institution controlled and student operated radio or television station.

This editorial freedom entails a corollary obligation under the canons of responsible journalism, the First Amendment and applicable regulations of the Federal Communications Commission.

18. All student communications shall explicitly state on the editorial page or in broadcast that the opinions expressed are not necessarily those of the institution or its student body.

19. All constituents of the institutional community are free, individually and collectively, to express their views on issues of institutional policy and on matters of interest to the student body. Clearly defined means shall be provided for student expression on all institutional policies affecting academic and student affairs.

Student Participation and Demonstration:

20. The role of student government and its responsibilities shall be made explicit. There should be no review of student government actions except where review procedures are agreed upon in advance or those that are required by state or college policy.

21. On questions of educational policy, students are entitled to a participatory function.

A. Faculty-student committees shall be created to consider questions of policy affecting student life.

B. Students shall be designated as members of standing and special committees concerned with institutional policy affecting academic and student affairs, including those concerned with curriculum, discipline, admissions and allocation of student funds.

22. The right of peaceful protest is granted. DSLCC retains the right to assure the safety of individuals, the protection of property and the continuity of the educational process.
23. Orderly picketing and other forms of peaceful protests are permitted on institution premises with the following qualifications.
 - A. Such activities must not interfere with entrance or exit from facilities, movement within institution facilities or interrupt classes or damage property.
 - B. The institution may choose to impose its own disciplinary sanctions without involving local enforcement bodies.
24. Orderly picketing and orderly demonstrations are permitted in public areas subject to the requirements of noninterference.
25. Every student has the right to be interviewed on campus by any organization that has been approved to recruit at DSLCC.

Any student, group or organization may protest against any such organization provided that protest does not interfere with any other student's right to have such an interview.

Violation of Law and Institutional Discipline:

26. If a student is charged with or convicted of an off-campus violation of law, the matter is of no disciplinary concern to DSLCC unless the student is incarcerated and unable to comply with academic requirements or the student represents a clear threat to any member of the college community.

The institution may impose sanctions for grave misconduct off campus demonstrating flagrant disregard for the rights of others. In such cases expulsion is not permitted until the student has been adjudged guilty in a court of a law.

27. The institution may institute its own proceedings against a student who violates a law on campus which is also a violation of a published institution regulation. (Note: Institutional rules and regulations differ from civil and criminal laws.)

Sexual Harassment:

28. Dabney S. Lancaster Community College prohibits the harassment of any male or female, full- or part-time students by any and all DSLCC employees or students. Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors and/or other verbal or physical conduct or written communications of an intimidating,

hostile or offensive sexual nature, regardless of where such conduct might occur. Sexual harassment also shall be construed as repeated verbal, physical or written acts that may create a sexually uncomfortable atmosphere.

29. Complaints of unwelcome sexual advances or repeated sexual expressions creating a hostile environment, threats of penalties in order to gain sexual favors or promises seeking to induce sexual favors may be raised through the following procedures:

- A. A report of the incident should be made to the Director of Student Services if the accused is a student; if the accused is an employee, the report should be made to the employee's divisional supervisor. The director/supervisor will inform the accuser of the options for resolution that are available. The options may include mediation, invoking procedures as set forth in the DSLCC Code of Conduct, the involvement of law enforcement officials and advising the accuser to seek the advice of an attorney.

- B. The director/supervisor will meet with the accused to review the incident and, based on the director's/supervisor's findings and options selected by the accuser, take appropriate action. Action taken may include documentation, referring the case to the College's disciplinary process and/or involving law enforcement officials.

- C. If either the accuser or the accused is not satisfied with the decision of the director/supervisor, then an appeal may be made to that person's supervisor, up to and including the president of the College or his designee.

Sexual Assault:

30. Sexual assault is defined as sexual intercourse without consent, including rape (whether by acquaintance or stranger), sodomy or other forms of sexual penetration. To constitute lack of consent, the acts must be committed by force, threat of force, intimidation or through the use of the victim's mental helplessness of which the accused was aware or should have been aware. Mental helplessness includes incapacitation by alcohol or other drugs. Sexual assault also includes intentionally touching either directly or through clothing, of the victim's genitals, breasts, thighs or buttocks without the victim's consent, as well as touching or fondling of the accused by the victim when the victim is forced to do so against his or her will.

31. Sexual assault is a crime and as such carries severe penalties as prescribed by law. Due to the criminal nature of the sexual assault, both the accuser and the accused should

seek legal advice. It should be noted, however, that the College's disciplinary proceeding is not a court of law; and as a result, legal representation is not permitted.

32. The reporting and disciplinary procedures for sexual assault are similar to those for sexual harassment with the following notable exceptions:
- A. The accused may be suspended from the College prior to the start of disciplinary procedures. If the accused is an employee, the suspension will be with pay until such time that guilt is adjudged. If the accused is a student and adjudged not guilty, then the student will incur no financial loss resulting from lost tuition.
 - B. The College may close the disciplinary procedure to the College community.
 - C. The College may involve law enforcement officials immediately upon notification that an incident has occurred.
 - D. The College's disciplinary procedure may be suspended pending the outcome of criminal proceedings.
 - E. An individual convicted in a court of law of a sexual assault that occurred at the College or at a College supported activity may be expelled regardless of whether charges are brought through the College's disciplinary procedures.

Privacy:

33. Students have the same rights of privacy as any other citizen and surrender none of those rights by becoming members of the academic community.
34. The institution is neither arbiter nor enforcer of student morals. No inquiry is permitted into the activities of students away from the campus where their behavior is subject to regulation and control by public authorities.

Student Records:

35. The privacy and confidentiality of all student records shall be reserved. Official student academic records, supporting documents and other student files shall be maintained only by members of the institution staff employed for that purpose. A separate student academic folder will be maintained which may include, but not be limited to, academic records, supporting documents and general educational records; records of disciplinary proceedings; psychiatric records; and financial aid records.
36. No entry may be made on a student's academic record and no document may be placed in his or her file without actual notice to the student. Publication of grades, announcement of honors and written correspondence shall constitute notice.

37. Access to his or her records and files is guaranteed every student subject only to reasonable regulation as to time, place and supervision.

A student may challenge the accuracy of any entry or the presence of any item by bringing the equivalent of an equitable action against the appropriate person before the judicial body to which the student would be responsible under Section I.E.

38. No record may be made in relation to any of the following matters except upon the express written request of the student. The completion of an admission or employment application constitutes permission.
- A. Race
 - B. Religion
 - C. Political or social views
 - D. Membership in any organization other than honorary and professional organizations directly related to the educational process.
39. No information in any student file may be released to anyone except with the prior written consent of the student concerned or as stated below:
- A. Members of the faculty, staff and administration may have access for internal education purposes as well as routinely necessary administrative and statistical purposes.
 - B. The following data may be given any inquirer: school or division of enrollment, periods of enrollment and degrees awarded, honors, major field and date.
 - C. If an inquiry is made in person or by mail, the following information may be given in addition to that in Subsection B: address and telephone number, date of birth and confirmation of signature.
 - D. Properly identified officials from federal, state and local government agencies may be given the following information upon express request in addition to that in Subsections B and C: name and address of parent or guardian if a student is a minor and any information required under legal compulsion.
 - E. Unless under legal compulsion, personal access to a student's file shall be denied to any person making an inquiry.
 - F. The Family Educational Rights and Privacy Act of 1974 provides for the denial of the release of information in Section B and C by written notification by the student. Notification shall be provided to the registrar at the beginning of each semester.

40. Upon graduation or withdrawal from DSLCC, the information contained in the student academic folder will be retained in accordance with the above policy and may be destroyed three years from the date of the student's separation from the College.

Sanctions:

41. The following sanctions may be imposed upon students:

- A. Admonition: An oral statement to a student that he/she is violating or has violated institution rules.
- B. Warning: Notice orally or in writing, that continuation or repetition of conduct found wrongful, within a period of time stated in the warning, may be cause for more severe disciplinary action.
- C. Censure: A written reprimand for violation of specified regulations, including the possibility of more severe disciplinary sanctions in the event of the finding of a violation of any institution regulation within a stated period of time.
- D. Disciplinary probation: Exclusion from participation in privileged or extracurricular institution activities as set forth in the notice for a period of time not exceeding one school year.
- E. Restitution: Reimbursement for damage to or misappropriation of property. This may take the form of appropriate service or other compensation.
- F. Suspension: Exclusion from classes and other privileges or activities as set forth in the notice for a definite period of time not to exceed two years.
- G. Expulsion: Termination of student status for an indefinite period.
The conditions of readmission, if any, shall be stated in the order of expulsion.

42. No sanctions may be imposed for violations of rules and regulations for which there is not actual or constructive notice.

Forbidden Conduct:

43. Generally, institutional discipline shall be limited to conduct which adversely affects the institutional community's pursuit of its educational objectives. The following misconduct is subject to disciplinary action:
- A. All forms of dishonesty including cheating, plagiarism, knowingly furnishing false information to the institution and forgery (alteration or use of institution documents or instruments of identification with intent to defraud).
 - B. Intentional disruption or obstruction of teaching, research administration, disciplinary proceeding or other institutional activities.
 - C. Physical or verbal abuse of any person on institution premises or at institution sponsored or supervised functions.

- D. Theft from, damage to or misuse of institution premises or property or damage to property of a member of the institutional community on institution premises.
- E. Failure to comply with directions of institution officials acting in performance of their duties
- F. Violation of published institutional regulations including those relating to entry and use of institutional facilities, the rules in this Code of Conduct, computer usage and any other regulations which may be enacted.
- G. Unauthorized manufacture, distribution and/or possession of alcoholic beverages, illegal drugs, firearms or other weapons or controlled substances on campus or at campus sponsored activities. Students who violate local, state or federal laws may be referred by College authorities for criminal prosecution.
- H. Violation of law on institutional premises in a way that affects the institutional community's pursuit of its proper educational purposes.

Procedural Standards in Discipline Proceedings:

44. Any academic or administrative official, faculty member or student may file charges against any student for misconduct. In extraordinary circumstances the student may be suspended pending consideration of the case. Such suspension shall not exceed a reasonable time.
45. The institution may make a preliminary investigation to determine if the charges can be disposed of informally by mutual consent without the initiation of disciplinary proceedings. Such disposal will be final and there shall be no subsequent proceedings or appeals.
46. All charges shall be presented to the accused student in written form and he/she shall respond within seven school days. The time may be extended for such response. A time shall be set for a hearing which shall not be less than seven or more than fifteen school days after the student's response.
47. A calendar of the hearings in a disciplinary proceeding shall be fixed after consultation with the parties. DSLCC shall have discretion to alter the calendar for good cause.
48. Hearings shall be conducted in such manner as to do substantial justice.
- A. Hearings shall be private if requested by the accused or accuser. If hearings involve more than one student, severance shall be allowed upon request.
 - B. An accused student has the right to be represented by counsel or an adviser who may come from within or without DSLCC. The advisor has no procedural standing nor any right to be heard.

- C. Except for such simple announcements which may be required covering the time of hearings and similar matters, public statements, including those that may be made in the classroom and publicity about a case shall be prohibited so far as possible until all proceedings have been completed.
 - D. Any party to the proceeding may request the privilege of presenting witnesses subject to the right of cross examination by the other parties.
 - E. Production of records and other exhibits may be required.
49. In the absence of a transcript, there shall be both a digest and a verbatim record, such as a tape recording, of the hearing in cases that may result in the imposition of the sanctions of restitution, suspension or expulsion as defined in 37.
50. No recommendation for the imposition of sanctions may be based solely upon the failure of the accused student to answer the charges or appear at the hearing. In such a case, the evidence in support of the charges shall be presented and considered.
51. An appeal from a decision by the initial hearing board may be made within ten days of the decision by any party to the president or his designee.
- A. An appeal shall be limited to a review of the full report of the hearing board for the purpose of determining whether it acted fairly in light of the charges and evidence presented.
 - B. An appeal by the institution, in which the decision is reversed, shall be remanded to the initial hearing board for a determination of the appropriate sanctions.

Judicial Authority:

52. Appropriate judicial bodies as described in Section 1.E. shall be formed to handle all questions of student discipline.
53. The judicial bodies may formulate procedural rules which are not inconsistent with the provision of this Code.
54. The judicial bodies may give advisory opinions, at their sole discretion, on issues not before any judicial body and where no violation of institutional regulations has taken place. Such opinions shall not be binding on the party making the request nor may it be used as precedent in future proceedings.
55. A judicial body may be designated as arbiter of disputes within the institutional community. All parties must agree to arbitration and agree to be bound by the decision with no right of appeal.

Executive Summary of Microcomputer Use Policy

Purpose: This document is a summary of the Dabney S. Lancaster Community College's full Internet and Microcomputer Use Policy. The full policy establishes rules and prohibitions that govern the appropriate use of the Dabney S. Lancaster Community College's microcomputer resources which support academic research and instructional activities. The resources are intended for the sole use of DSLCC faculty, staff, students and service area members. This policy must be read before users can operate any of the DSLCC microcomputer resources.

Acceptable and Unacceptable Use: DSLCC reserves the right to monitor its microcomputer resources to protect the integrity of the computing systems, to track problems and to insure equal and appropriate access to all microcomputer lab and Learning Resources Center users. Acceptable use of these facilities is categorized in a usage prioritization.

Acceptable Use:

Highest Priority-Education, research and administrative purposes of DSLCC, especially classes scheduled to meet in the microcomputer laboratories. Included are students completing work for credit classes and pursuing other DSLCC educational activities.

Lowest Priority-Recreational and personal purposes.

Unacceptable Use:

Because it is impossible to predict or anticipate all the ways in which individuals can misuse these microcomputer facilities, this policy focuses on a few simple and basic rules. They include the following:

1. Users are not allowed to eat or drink in the LRC or the microcomputer laboratories.
2. Users will not physically damage equipment or furniture of the computer stations located throughout DSLCC.
3. Users will not attempt to access, modify or delete files; modify system facilities; or subvert any restrictions associated with DSLCC equipment, software or data.
4. Users will utilize the DSLCC equipment, software and data only for the purposes for which they are intended.
5. Users under the age of 16 are not permitted to use unsupervised DSLCC computers unless they are accompanied by an adult.
6. Users may not use the DSLCC computer resources for the following:
 - Malicious or intentional misuse, including, but not limited to, harassment, unsolicited advertising, misrepresenting one's self in correspondence, distribution of viruses or worms or transmitting data that is prohibited by federal, state or local laws.
 - Activity not related to the mission of the institution.
7. Users may not attach personal computer equipment except headphones.
8. Users may not detach college equipment.
9. Users must abide by all copyright laws, license agreements and vendor restrictions.
10. Users will respect the privacy of others.

Violation of the Above Policies:

Violations will be handled following the Student Conduct Code or the State Standards of Conduct, whichever is appropriate.

Effective January 12, 1998

Constitution of the DSLCC Student Senate

We, the students of Dabney S. Lancaster Community College of the Virginia Community College System in order to promote cooperation among all students at this institution, to form an effective student government and to formulate those policies essential to the functioning of the government, do ordain and establish this Constitution for Dabney S. Lancaster Community College.

Article I

Name and Purpose:

Section 1: This organization shall be known as the Student Senate of Dabney S. Lancaster Community College.

Section 2: The purpose of this organization shall be to provide the necessary governmental structures to encompass the student activities of Dabney S. Lancaster Community College.

Article II

Membership and Voting:

Section 1: Members of the student body shall include all enrolled students at Dabney S. Lancaster Community College.

Section 2: The voting membership shall consist of all students enrolled in credit courses.

Article III

Student Senate:

Section 1: The Student Senate shall represent the student body.

Section 2: The Student Senate shall consist of ten members elected at large from the student body. Five members shall constitute a quorum for conducting business.

Section 3: The term of office for the above members of the Senate shall be for one academic year (summer, fall and spring semesters) from the date of their election.

Section 4: The Student Senate shall elect by plurality vote the following officers, listed in order of presidential succession, from their number: president, vice president, recording secretary, corresponding secretary and treasurer. If none of these officers are present, a quorum of the Student Senate may elect a temporary presiding officer from their number.

Section 4a: An elected student must maintain a minimum semester and cumulative grade point average of 2.0.

Section 4b: Any student eligible to vote is eligible for membership on the Student Senate.

Article IV

Senate Elections and Qualifications:

Section 1: On the twelfth week after the beginning of each spring semester, a general election will be held for the purpose of filling five seats of the Student Senate. Only returning students may be elected at this time. Newly elected members shall be seated at the beginning of the summer semester and will serve until the end of the spring semester of the next year.

Section 2: The remaining five seats of the Senate shall be filled by members of the entering freshman class in a general election held during the fifth week of each fall semester. Those students elected at this time will be seated at the beginning of the sixth week and serve until the end of the following spring semester.

Section 3: General elections shall be held on a Monday and a Tuesday of the designated week.

Section 4: Persons receiving the most votes will be seated in order until all positions are filled.

Section 5: Any student eligible for Student Senate office may have his or her name placed on the ballot by presenting a petition with twenty-five names of student body members eligible to vote.

Section 6: The supervision of the Student Senate elections shall either be the responsibility of the Dean of Student Services or his or her designee and the present Student Senate.

Section 7: On the first meeting after the fall election the Student Senate will convene to elect all officers for the following year.

Section 8: In the event of a senate vacancy an ad hoc Nominating Committee, consisting of three senate members, shall accept recommendations from the student body and faculty for a candidate to fill the vacancy.

Section 8a: The Student Senate ad hoc Nominating Committee will nominate a recommended candidate to fill the unexpired senate term with the confirmation of two thirds of the Student Senate.

Section 8b: The remainder of the unexpired term will be filled by the endorsed student at the next meeting following confirmation.

Section 8c: All nominees must meet the eligibility standards as stated in Article III Section 4a.

Section 9: At least two weeks before an unexpired term is to be filled the number of vacancies shall be publicized to the student body.

Section 10: Student Senate members may not miss more than two meetings per semester without the approval of three fourths of the Senate.

Article V

Power of the Officers of the Student Senate:

Section 1: Power of the President

- A: He or she shall have the power to appoint the chairperson and members of all Student Senate committees with the advice and majority vote of the Senate.
- B: He or she shall have the power to appoint any student to all appropriate college committees with the advice and majority vote of the Senate.
- C: He or she shall have the power to vote in case of a tie.
- D: He or she shall call and preside at all meetings of the Student Senate.
- E: He or she shall represent the student body at official functions of the college.
- F: He or she shall be an ombudsman for the student body.
- G: He or she shall serve as ex-officio member of all committees appointed through the Student Senate.

Section 2: The Vice President shall:

- A: Assume all duties of the president during an absence of the president.
- B: Become president if the office of president is vacated during the one year session and call for the election of a new vice-president at the first regular meeting.
- : Receive the reports, budget and constitutions of all clubs and recommend to the Student Senate the recognition or removal of recognition of all student clubs.

Section 3: The Recording Secretary shall:

- A: Keep a permanent record of all the proceedings of the student body meetings; these records are to be available for the information of any member of the student body.
- B: Keep the record of attendance of the Senate meeting.

Section 4: The Corresponding Secretary shall:

- A: Publish all proceedings and required notices of the student body and of the Student Senate.
- B: Conduct all external correspondence of the Student Senate.

Section 5: The Treasurer shall:

- A: Receive and record such amounts that may be directed.
- B: Report the financial position of the student body at all Student Senate meetings.
- C: Serve as chairperson of the appropriations committee.

Article VI

Power of the Senate:

Section 1: The Student Senate shall approve all student organizations, their constitutions and their annual budget requests.

Section 2: The Student Senate shall receive and discuss grievances from the student body and represent these grievances to the faculty and to the administration.

Section 3: The Senate shall receive funds appropriated to the student body and budget the use of these funds.

Section 4: The Student Senate shall approve all presidential appointments by a majority vote.

Section 5: The Student Senate shall retain any powers that are not given to the officers of the Student Senate.

Article VII

Amendments and By-Laws:

Section 1: Amendments to the Constitution can originate either from the student body or the Student Senate, but must be ratified by a majority vote of the Student Senate and a two-thirds majority of the votes cast by the student body.

Section 2: An amendment must be published three weeks prior to a referendum vote of the student body.

Section 3: Bylaws can originate either from the student body or the Student Senate but must be ratified by a majority vote of the Student Senate and be a simple majority of the votes cast by the student body.

Article VIII

Ratification:

This Constitution shall be considered ratified upon approval by the faculty meeting as a committee of the whole, by the endorsement of the President of the College and a two-thirds majority of the votes cast by the student body. Upon ratification, this constitution shall supersede any and all previous and existing constitutions of the Dabney S. Lancaster Community College's Student Senate.
